

CARTRIDGE TYPE CLEANING UNITS

SMART CLEANER

The Senko Smart Cleaners are dry cloth cleaners specially designed to clean single fiber connectors residing in an adapter, faceplate or bulkhead. The dust cap of the cleaner acts as an adapter for cleaning unmated connectors. The Senko Smart Cleaners for simplex connections are simple to use and highly effective at removing oil and dust contaminants that can reduce optical performance.

APPLICATION

- Fiber network panels and assemblies
- Outdoor FTTH applications
- Cable assembly production facility
- Testing laboratories
- Servers, switches, routers and OADMS with SC, FC, ST, MU and LC interface
