Why We Are the Fiber

NFOC Conference

The Northeast Fiber Optic Conference (NFOC) provides telecom and datacom professionals with the opportunity to attend educational sessions presented by industry experts. These sessions address new fiber optic technologies and applications as well as the business opportunities they present. Dozens of the world's top companies exhibit their products at the NFOC each year. FIS is the founder and principal sponsor of the event.

Product Catalog

The FIS Product Catalog is an informative publication, brimming with hundreds of product photos and descriptions. The comprehensive FIS Catalog has even served as an educational tool in technical schools, enabling students to see the newest tools and technologies available to network technicians.

WaveLengths Magazine www.wavelengthsmagazine.com

Upbeat and informative, WaveLengths Magazine provides you with a broad understanding of topics relating to the Telecom and Datacom industries. Coverage includes new technology, industry trends, network installation, testing and more. If you work with fiber optics, copper or wireless technologies, Wavelengths is the magazine for you.

Our full-color Print Edition is approximately 40 pages in length. Our Online Edition has additional content including audio, video, and interactive features (wavelengthsmagazine.com). Both editions are available FREE to FIS customers!

Website www.fiberinstrumentsales.com

In addition to online shopping, the FIS website offers a wealth of information to make your job easier and more productive. Spec sheets, white papers, training videos, Communicator Newsletter and WaveLengths Magazine – all are all accessible online.

Live Tech Help

Our tech support engineers and technicians are available by phone as well as online, via our website. You can even access our President and CEO, Frank Giotto. Just click on the link, "Ask the President" and receive a personal reply from the CEO himself!

Communicator Newsletter

This monthly publication is a great tool for helping you make informed purchase decisions. For example, various issues of Communicator have provided guidance in selecting the right fusion splicer, OTDR, splice closure and more. Refer to these Communicator "buying guides" when making important purchase decisions. All issues are available in the Communicator Archives on the FIS website.

Tutorial Videos

Fusion splicing, fiber termination and network testing are just a few of the informative FIS videos available to you. Videos can be accessed through the FIS Website and via WaveLengths Online Magazine. Clear and concise, FIS tutorial videos are the next best thing to receiving classroom training.

Rentals

Renting equipment from FIS is a great way to save money. Renting can also provide you with valuable hands-on experience using various types of equipment. For example, if you are considering purchasing a fusion splicer or OTDR, you can "try before you buy." Our knowledgeable rental staff can provide information about the operation and capabilities of each device. Various rental models are available with a financing option if you decide that you wish to purchase the unit.

Optic Information Source

Fiber Optic Training

'FIS University' was founded in 1995 and has trained over 10,000 professionals in both basic and advanced techniques related to network connectorization and testing. Students receive hands-on training in how to use fusion splicers, OTDR's and other equipment. FIS training classes are held in cities throughout the U.S. and abroad. Corporate training is available at your place of business and can be customized to your needs.

Spec Sheets

Do you require more information about the products in our Catalog? FIS Spec Sheets provide the detailed specifications you need to ensure that products meet the requirements of your particular application. Spec Sheets are available on our website.

Social Media

FIS Social Media resources include Facebook, Twitter and various Online Blogs. FIS social media channels are a great way to share your thoughts, opinions and ideas with FIS as well as your fellow technicians. Let your voice be heard, and stay informed of the latest industry news.

Frank Giotto
President/CEO

President's Message

Things are looking up! The fiber optic market has proven its durability by surviving recent times of uncertainty. Also, indications are that stimulus money will have a lasting positive impact as outside plant installs evolve into new local applications. I believe that stimulus-related opportunities in 2012 will exceed 2011, provided that government agencies are able coordinate their efforts.

This being a presidential election year also adds to the excitement; how will our industry be impacted by the election outcome?

FIS has three major objectives for 2012, all of which relate to improving customer service:

1. Free Information Resources - In 2012 FIS is investing heavily in informational programs on behalf our customers. In fact, we are well on our way toward becoming one of our industry's major centers of information, as shown by the FIS programs listed at the front of this catalog.

2. Introduce Innovative Products - In 2011, contractors discovered better ways to work and turned to FIS for the newest products and tools. For example, the popularity of the new FIS Splice-On Connector contributed to our 10% sales growth in 2011. FIS manufactured goods outpaced general sales in other lines as well. FIS is bringing more innovative products to the market in 2012, as shown in this catalog.

3. Ensure Product Availability - Product availability has always been a major strength of FIS and 2012 will be no exception. Maintaining a \$10 million in-house product inventory is part of our commitment to you, our valued customer.

Finally, if you have a question, idea or concern, feel free to contact me direct. Just click on the Ask the President button on our website. You will receive the answer you need, and I'll get to demonstrate my personal commitment to providing you with exceptional customer service.

I welcome your comments!

Frank Giotto

**Ask About our Polish
Process Featuring Our Cost
Saving One Step Films.**

Cable Assembly Partnership Program

FIS has extended our product offering by adding OM3 10 Gigabit Cable, Furcation Tube, Break-out Kits, and Fan-out Kits. The most exciting addition is the new FIS Polish Machine along with a Revolutionary One-Step Diamond Film that will:

- **Lower your Material Cost**
- **Eliminate Multiple Diamond Films**
- **Provide Higher Yields!**

Please contact your FIS sales representative with any questions you may have about the CAP program. Fiber Instrument Sales will continue to seek "meet comp" opportunities and special pricing for large orders as our commitment to your company.

Here you'll find an assortment of videos that are produced by FIS to showcase our people, products and capabilities.

TRAINING CLASSES

FIS UNIVERSITY
PREMIUM FIBER OPTIC EDUCATION

**Earn BICSI CECs for RCDD,
LAN Specialist, and/or Installation!
Earn Transferable College Credit!
Earn a Certification Diploma!**

As the nation's leading supplier of fiber optics, FIS founded FIS University in 1995 to meet the ever-growing demand for trained professionals within the fiber optic industry. Over the last fifteen years, FIS University has trained over 10,000 professionals in both basic and advanced techniques related to connectorization, testing and fiber optic splicing. Our training staff has over 18 years of industry experience consisting of both field and network engineering capacities. Call 1-800-500-0347 and ask our training coordinator to reserve your seat at one of our many locations nationwide, at Brightside-on-Raquette, or to discuss options to customize your own corporate training. New certification for FIS Splice-On connector now included with training package.

2012 TRAINING DATES

January 9-10	Jacksonville, FL
January 11-12	Orlando, FL
January 24-25	Hartford, CT
February 13-14	Dallas, TX
February 15-16	Houston, TX
February 21-22	Philadelphia, PA
March 5-6	St. Louis, MO
March 7-8	Nashville, TN
March 20-21	New York, NY

Day One - Fiber Optic Course

Basic Fiber Optic Theory

- Advantages of Fiber Optics
- Components in a Link
- Layers of a Simplex Cable
- Singlemode vs. Multimode
- Multifiber Cable Configurations
- Fiber Optic Connectors

FIS SC, LC Connectorization Workshop

- Cable Preparation
- Curing and Scribing
- Polishing

Microscope Operation & Connector Polish Analysis

CUSTOM & CORPORATE TRAINING

The FIS Training Department can develop customized trainings to meet your specific needs. Training staff is well versed in a variety of topics related to the fiber and copper cabling industries. Class lengths and topics can be tailored to your specifications. FIS has conducted customized classes for many Fortune 500 companies. The following are just some examples of possible course subjects.

- Troubleshooting and Cleaning
- SMPTE and Tactical Cables
- OTDR
- Equipment Components
- Testing Techniques
- Outside Plant
- Trace Interpretation
- Trace Analysis
- Report Generation
- FTTx

TRAINEE TESTIMONIAL

Last December I had the pleasure of working with John Bruno, Training Specialist for Fiber Instrument Sales. John was able to tailor FIS Basic and Advanced Fiber courses to meet our time restrictions and focus on fiber for our broadcast facility. We covered basic theory, fiber/connector type and usage, then care, cleaning and troubleshooting. To top it off, all trainees were given ample time to properly fusion splice pigtails and 'fuse-on' connectors. He is very effective in imparting his vast knowledge of the subject matter in a concise, yet easy to understand format – this is not only my opinion, but that of all the trainees.

Paul Winter, Project Engineer, NBC Universal

Day Two - Advanced Fiber Optics

Fiber Optic Review and Self Test

Power Meter & Light Source Theory and Workshop

- PM & LS Operation
- Hands-On Instruction

OTDR Theory and Workshop

- How an OTDR Works
- Events and Trace Analysis
- Reflections & ORL
- OTDR Workshop

Mechanical Splicing Theory & Workshop

- Assembly of SC Bobtail Quick Term Connector

Fusion Splicing Theory & Workshop

- Hands-On Instruction / Troubleshooting

Cheetah Splice-On Connector Certification

- SOC Installation

Day 1 Training: \$225.00/Person
Day 2 Training: \$275.00/Person
Both Days Training: \$450.00/Person
International: \$750.00/Person

CLASSES IN THE CENTRAL ADIRONDACKS! A UNIQUE TRAINING EXPERIENCE!

Ask about training at beautiful Brightside-On-Raquette, our lakeside training center in the Adirondack Mountains of New York State. The Brightside provides a unique and relaxing environment in which to learn about fiber optic theory and techniques. At Brightside, you'll enlighten your mind while refreshing your spirit. After each day of training, you'll have the opportunity for fishing, hiking, boating or just plain relaxing around an Adirondack campfire.

Enjoy hearty camp-style cuisine, topped off with delicious desserts prepared by our on-staff chef. The registration fee includes training, all meals and two-night's lodging in your own private room at The Brightside. Visit our website <http://www.brightsideonraquette.com/>

Brightside Training Class (per person) \$599.00

Along with domestic and international training classes, FIS University offers a wide variety of training materials. These materials allow the user to learn and develop the skills needed to be a proficient fiber optic technician. All of the materials have been approved by the FIS University trainers for content to ensure their accuracy and relevance in today's fiber optic networks. Use these materials to continually develop your own skills; the development of company technicians, or to further support, techniques and theories learned in our training classes.

CALIBRATION**EQUIPMENT CALIBRATION / VERIFICATION**

Stay compliant with industry standards by taking advantage of our full service calibration lab. All equipment is inspected, calibrated to NIST traceable standards, and verified to be in conformance with the manufacturer's specifications. All calibration services include a calibration / verification certificate. Turn around time is typically 7-10 days for standard services. All calibration services include a NIST traceable calibration certificate. Rental units are available for extended service or repairs.

Call 1.800.5000.FIS (347) to Speak with a Calibration Representative.

Increase data rates by reducing
system back reflection

FIS FIBER OPTIC TERMINATOR CONNECTORS

Low reflection Terminators are designed for use in unused ports and reduce back reflection into fiber optic systems. Each connector is environmentally sealed for protection.

Typical Back Reflection	<-55dB (All UPC types) <-65dB (All APC types)
Operating Temperature	-40°C to +70°C
Ferrule	Zirconia
Radius of Curvature	10mm - 20mm

MODE CONDITIONING PATCHCORDS

Mode Conditioning Patchcords are used in conjunction with laser transmitters with VCSEL for 1 Gb with FDDI fiber in fiber optic links to improve the transition bandwidth by the reduction of modal dispersion. These cords can be assembled in various configurations to meet your specific needs. Contact your FIS sales representative for pricing and delivery. Improve the performance of your network today.

Part # Example:

F1-MCP-3-1-SC-SC

Translates to: Mode Conditioning Patchcord 3 meters length, 50/125µm, SC connectors both ends.

POLARIZATION MAINTAINING PATCHCORDS

For polarization-sensitive applications, FIS offers PM patchcords with UPC or APC connector finishes. Available in 900µm and 3mm jacketed versions. Important specifications need to be discussed with FIS Sales Associate upon ordering, such as: Alignment (slow or fast axis) Fiber Specifications, Cable Jacket (900µm buffer or 3.0mm), whether or not the purchased PM assemblies will be used for splicing. Contact FIS for additional specifications and pricing on PM jumpers of various lengths. **Specify Fibercore Limited PM fiber or Corning PM Fiber.**

PART #	DESCRIPTION	PRICE
S-4-9A-9A-S-1-FIS	Simplex FC/APC - FC/APC, Slow Axis, 3.0mm Jacketed, Blue, 1 Meter	\$95.00

MTP ASSEMBLIES & FAN-OUTS

FIS offers pre-assembled ribbon fan-out assemblies with your choice of connectors. FIS MTP cable assemblies provide low-loss connections and dependable performance. MTP connectors are available with or without guide pins; be sure to indicate designation upon ordering custom cable assemblies. Fan-out length available in 24" or 36" inches. Custom configurations available.

FIS COMPACT NODE CABLES (SERVICE CABLES)

Fiber Instrument Sales' Compact Node is an epoxy based optical node cable assembly. Designed for HFC applications with the flexibility to fit aerial, pedestal and vault applications. The epoxy provides exceptional strength and mechanical isolation of the fibers. The compact length provides greater flexibility to install inside tight pedestals and other constricted applications. Central tube cable construction is easy to install and break-out in splice trays and enclosures. Available in various custom configurations up to 12 fibers.

FIS Manufactured Assemblies

As an industry leader, FIS is the perfect choice for your custom fiber optic assemblies. Whether it be a DWDM coupler module or a single fiber patchcord, our over 25 years of manufacturing experience has allowed us to perfect our processes and bring to you the highest quality assemblies with superior performance and fast delivery. Please reference the text, drawings, and supplied matrices (**see page 20**) to create a part number for your custom assembly and contact your FIS sales representative for a quote today.

STANDARD CONFIGURATIONS

Standard configurations (typical lead-time 2-4 days) – Convert your next project to “plug n’ go” by having your cable assemblies pre-terminated by FIS. Our expert technicians prepare assemblies from 1-fiber patchcords to 144-fiber assemblies, while offering a wide array of components for you to create the perfect assembly for your application. Included below are manufacturing specifications for FIS’s pre-terminated assemblies to better help you prepare your installation. If a need arises to change a specification to best meet your application, please call your FIS representative for more details and refer to the custom configuration section below to see the various services available.

CUSTOM CONFIGURATIONS

Custom configurations (typical lead-time 3-5 days) – FIS has the ability to manufacture a variety of custom configurations. Our custom abilities include but are not limited to labeling, packaging, testing requirements, and building to customer supplied specifications and drawings. With our experienced sales and engineering teams, FIS can help create and produce a custom solution to meet almost any application.

SPECIFICATIONS

LENGTH

SIMPLEX/DUPLEX

SINGLEMODE = ≥ 0.3 dB (TYPICAL)

RETURN LOSS

PC = ≤ -25 dB
UPC = ≤ -55 dB
APC = ≤ -60 dB

DID YOU KNOW

In order to share our knowledge we have included a technical terms glossary for reference when constructing custom assemblies.

CONNECTOR POLISH TYPES

- **PC** - Physical Contact. The connector end face has a low radius of curvature and offers good basic performance. Typical performance is < -30 dB.
- **UPC** - Ultra Physical Contact. The connector end face has a higher radius of curvature, which aids in the reduction of back reflection into an optical system. Typical performance is < -55 dB and often is identified by a blue strain relief boot or connector body.
- **APC** - Angled Physical Contact. The connector end face is angled at 8 degrees to achieve maximum reduction of back reflection. Typical performance is < -65 dB and often is identified by a green strain relief boot or connector body. Often used with singlemode fiber in long haul applications and can only be mated to another APC connector.

JACKET TYPES

- **PLENMM (OFNP)** - refers to a specific fire code rating of cables that are resistant to fire and do not emit toxic fumes or smoke when burned. Plenum-rated cables are primarily used in pathways for either heated, cooled or return airflows.
- **RISER (OFNR)** - is constructed of PVC and may emit toxic fumes when burned and is to be run in non-plenum areas. Plenum cable can always replace riser cable, but riser cable cannot replace plenum cable in plenum spaces.

CABLE CONSTRUCTION TYPES

- **BARE FIBER** - A single glass fiber typically consisting of a core, cladding and 250µm acrylate coating.
- **TIGHT BUFFER** - A single bare fiber with an outer coating that is typical 900µm in diameter.
- **SIMPLEX** - A single fiber cable that may consist of a 900µm coated fiber or a combination of a 900µm coated fiber surrounded by an aramid yarn strength member with an outer jacket diameter varying from 3, 2, 1.8 and 1.6mm.
- **DUPLEX** - A two-fiber cable that consists of a combination of two 900µm coated fibers surrounded by an aramid yarn strength member with an outer jacket diameter varying from 3, 2, 1.8 and 1.6mm. Also can choose 900µm duplex cable where the two 900µm buffers are joined together (limited offering from manufacturers)

- **BREAKOUT** - Packages multiple 2.5-3.0mm jacketed fibers and surrounds these sub-units with an aramid yarn strength member and outer jacket. Fiber counts typically are 2-24 fibers. Primarily used in application where a rugged or robust cable is required.

- **DISTRIBUTION** - Packages multiple 900µm tight buffered fibers, surrounded by aramid yarn strength member, in a larger outer jacket. Fiber counts typically range from 2 – 144 fibers. Primarily used indoors and popular with interlocking armor for extra protection. Often referred to as MIC cable construction by other manufacturers.

- **MICRO-DISTRIBUTION** - Packages multiple 250µm buffered bare fibers of different colors within sub-units to minimize the outer jacket size. Fan-out kits or furcation tube often required to terminate connectors. Popular for indoor use with MTP/MPO connector and Fan-out assemblies in Data Center applications.

- **LOOSE TUBE** - Packages 250µm buffered fibers amongst each other in gel filled sub units typically 2.0-2.5mm. The gel filled tubes provide superior protection against changing temperatures and water filled conduits. Outer jacket is UV and moisture resistant.

- **LOOSE TUBE ARMORED** - Packages 250µm buffered fibers amongst each other in gel filled sub units typically 2.0-2.5mm. The gel filled tubes provide superior protection against changing temperatures and water filled conduits. The outer jacket is extruded over corrugated coated steel tape offering rodent proof protection, the jacket is UV and moisture resistant.

- **OUTDOOR DRY (GEL FREE) CABLE** - Packages 250µm buffered fibers within super absorbent polymer or water treated blocking aramid yarn. Dry loose tube design improves ease of termination without gel filled tubes. Recommended for installation in ducts, underground conduit or aerial/lashing applications not intended for direct burial. Armored version of cable utilizes corrugated coated steel tape for rodent protection, with extruded UV resistant jacket.

- **DISTRIBUTION INTERLOCKING ARMORED** - Available with Riser or Plenum rated outer jacket this cable houses 900µm buffered fibers surrounded by aramid yarn with interlocking aluminum armor then extruded over flame resistant jacket. Intended for harsh indoor environments requiring heavy duty protection.

- **TACTICAL CABLE** - Packages typically multiple 2.0-2.5mm jacketed subunits surrounded by aramid yarn with epoxy/fiberglass strength member. Rugged design for heavy duty applications such as TV cameras, mining/harsh environments and military/commercial field re-deployable communications. Tactical Distribution packages 900µm fiber rather than larger subunits.

Why is FIS a Leading Supplier of Custom Fiber Optic Assemblies...

1. Flexibility

- Wide Selection of components from leading manufacturers
- Ability to build to Engineering specifications or drawings
- From a quantity of 1 or 1,00's FIS can deliver

2. Fast Delivery / High Quality

- Cables are ready to ship nationwide and internationally in as little as 2-3 days
- 100% inspection and tested to industry standards
- ISO 9001-2008 Certified
- Over 25 years of cable assembly experience

3. Additional Services

- Termination of Customer Supplied Materials
- Creation of Engineer drawings of assemblies
- Custom packaging, labeling
- Experienced engineering team to help design an assembly for any application

Our goal is to provide our customers exactly what they need and when they need it, just provide our sales representative a description, engineering specification, or even a drawing on a napkin and we will do the rest!!

What our Customers are saying!

“ FIS has been a great resource to not only provide high quality cable assemblies but also help out in the tough situations; when I need a cord tomorrow for a network turn up, or finding a solution to unique problem they are always there. I have yet to be disappointed.”

Dave G
Applications Engineer

COUPLERS/SPLITTERS

FIS couplers and WDM's are designed, manufactured, and tested to meet a variety of high performance and environmental requirements. Our high quality couplers are available in single wavelength and dual window varieties in an assortment of split ratios. Our WDM's feature low insertion loss in combination with high isolation. All device types are available in bare fiber, 900µm, or 3mm ruggedized versions and can be terminated with your choice of connectors or installed in a variety of modules.

PLANAR LIGHTWAVE CIRCUIT COUPLERS/SPLITTERS

Today's high-port-count applications for broadband system applications demand the best performance and the highest reliability under the most adverse of environments. Planar Lightwave Circuit Splitters deliver on all these requirements. FIS provides a variety of PLC's pre-terminated with SC/UPC, SC/APC or the connector of choice.

PART #	DESCRIPTION	PRICE

RUGGEDIZED 2mm/3mm JACKETED COUPLERS/SPLITTERS

Install these ruggedized splitters into outdoor or indoor enclosures. The 2mm or 3mm furcated fiber legs offer extra protection when technicians are working in compact areas. The splitter/couplers are housed in a small plastic case; furcated fiber legs are attached with or without connectors installed.

Custom size jacketing/split ratios/connector styles available.

PART #	DESCRIPTION	PRICE

CWDM LGX STYLE MODULES

FIS CWDM LGX modules provide the most economic and efficient wavelength division multiplexing solution. Available in 4, 8 or 16 channel mux and demux configurations. The CWDM modules are bi-directional, have low insertion loss and feature 20nm channel separation. DWDM modules also available. **Other configurations available.**

COMPACT CWDM PACKAGE

FIS CWDM compact package features channel spacing of 20nm with wide bandpass characteristics. Available in 4 or 8 channel wavelengths. These compact packages are ultra stable and highly reliable. Commonly used in splice tray applications or outdoor enclosures. **Available in 1291-1611nm channel spacing.**

DATA CENTER

Assemblies

MD-8-MT-MT-M**-FIS-072-PLN

BACKBONE TRUNK CABLES

FIS offers high quality high-count MTP fiber optic assemblies. The cables range from 12 to 144 fibers, in 12-fiber sub-units. The most common configurations for Data Centers are 50µm 10Gig (OM3) or Singlemode (OS1) type fibers. All cables are UL plenum rated and can be used in riser spaces. Each fiber in every connector comes pre-tested with test results. The cables come ready to be plugged-in. These high-count cables are optimal for use in Data Centers and other high-density installations. The MTP male connector is the standard, but custom cables using MTP female as well as MTP to hybrid assemblies are available. Please contact your FIS sales associate for custom MTP cable assemblies.

PART #	DESCRIPTION	TERMINATION PRICE	CABLE PRICE

F1-MTP/F-LC-OS1-12

MTP CASSETTES

FIS offers a variety of low-loss MTP cassettes for Data Center and high-density solutions. The standard cassettes can accommodate 12 and 24 ports. This is done by utilizing the LC connector for the front interface. The cassettes can be made with any type of fiber. The standard fiber types used are 50µm 10gig (OM3) and Singlemode (OS1). Up to 3 cassettes can fit into the FIS 1U rack mount closure: F1-RU24. Cassettes using connectors other than LC can also be made. Please contact your FIS sales associate for custom cassettes.

F1-MTP/F-LC-OM3-24

FIS provides specialized assemblies to the Military and Broadcast Industries. Count on us for custom broadcast or military grade tactical fiber optic cable assemblies with up to 12 fibers, in cables that are crush-resistant, resilient and with a thick layer of aramid strength members. The reinforced Kevlar jacket is strong enough to withstand the weight of a truck making these assemblies ideal for temporary field production, sporting events, and military operations. Call us today for more information and detailed specifications. Our cable assemblies can be terminated with a variety of specialized connectors such as Expanded Beam, TFOCA II® or SMPTE Connectors. These specialized connectors can also be paired with standard connectors (SC, LC, FC, ST etc.).

SMPT E CABLE ASSEMBLIES

These rugged stainless steel out shelled SMPT E connectors ensure a very long product life. Cable assemblies utilize two singlemode fiber contacts, two power contacts and two signal contacts. Cable assemblies are available with multiple configurations including panel mount receptacles and plugs.

- Quick Push-Pull Self Latching System
- Stainless Steel for Harsh Environment
- Complies with SMPT E Signal Requirements
- Popular HDTV Connection on Cameras and Panels

TACTICAL FIBER OPTIC CABLE ASSEMBLIES

Amphenol Fiber Systems International TFOCA and TFOCA II® are designed to withstand repeated handling and mating cycles typically required for rapid fiber optic cable deployment and retrieval in a tactical environment. TFOCA is the replacement for US Army and US Marine Corps legacy systems with TFOCA (AT&T). It's a hermaproditic design for multimode or singlemode fiber utilizing Biconic termini.

SMPT E & Tactical Cable Assembly Repair Service

Our repair service is perfect if you want to save time and money. SMPT E cable assemblies can cost thousands of dollars, so it's good to know all of your options. You can ship your SMPT E or tactical cable assembly to us and we can repair it for a fraction of what it might cost for new. Our service includes an evaluation, repair, and testing to make sure your cable assembly is going to perform when you need it.

45675996H

4 CHANNEL HERMAPHRODITIC FIBER OPTIC CABLE CONNECTORS

Delphi's 4 Channel Hermaphroditic Connectors are both Single and Multimode compatible in the same connector. They are designed to withstand crush, impact, cable twist, bending movement, water and mud immersion, as well as many other harsh environments. They will link to identical connectors without regard to connector gender.

STRATOS "BULLET™" ADAPTERS

The Stratos "Bullet™" Adapters are designed to convert legacy TFOCA technology to increasingly popular Expanded Beam technology. The adapters are compatible with existing TFOCA and TFOCA II® connectors. Compact size eliminates the need for hybrid cables while supporting up to 4 channels of multimode fiber. Adapters mate with Stratos HMA Expanded Beam series.

- Interfaces with Legacy TFOCA Connectors
- Hermaphroditic Design
- Tested to Mil-83526 Requirements
- Full Metal Construction
- Simple Form Factor Conversions

FIS BLUE BROADCAST / TACTICAL FIBER OPTIC BULK CABLE

FIS Blue Broadcast/Tactical Cable consists of a polyurethane outer jacket with your choice of two, four, six or twelve 900µm tight buffers surrounded by aramid yarn and an aramid ripcord. Polyurethane jacket makes the cable highly flexible and rugged, so it can also be used in direct burial applications. Tactical fiber optic cables are designed for harsh outdoor environments where maximum performance and reliability is essential.

PART #	FIBER COUNT	DESCRIPTION	PRICE

F1HHVMP200SMPTE

HAND HELD MONITOR & MICROSCOPE PROBE FOR SMPTE

This video microscope has a large, bright 5.6" display in a compact and portable housing. Detect hard to find flaws with the variable core illumination and adjust the video contrast and brightness for optimal viewing. The Probe features coated optics for bright, clear images. The ergonomic design is comfortable to operate and focuses precisely on the connector endface. Li-Ion power ensures long battery life for field use or can be used with the included AC charger. Specify one adapter of your choice when ordering.

FEATURES

- Compact Housing and Probe
- Large 5.6 inch Display
- Adjustable Brightness, Contrast and Core Illumination
- Interchangeable Adapter Tips
- LED Flashlight Built into Housing

PART #	DESCRIPTION	PRICE
F1HHVMP200SMPTE	Hand Held Video Monitor & 200x Microscope Probe	\$995.00
F1PVPASMPTEF	SMPTE Adapter - Female	60.00
F1PVPASMPTEM	SMPTE Adapter - Male	60.00
F1PVPA25	Universal 2.5mm Ferrule Inspection Probe Interface	60.00

AFC-3000/LEMO

SMPTE FERRULE CLEANING GUN

In-adapter ferrule cleaner can quickly remove contamination on connector endfaces and bulk-heads. This easy to use cleaner can clean a connector in less than 5 seconds with no physical work. The AFC-3000/LEMO comes with cleaning gun, cartridge and LEMO tips.

- Clean SMPTE Connectors Fast!
- Remove 99.5% of Contaminants
- Solve Problems by Cleaning First
- Great for Field and Indoor Applications

PART #	DESCRIPTION	PRICE
AFC-3000/LEMO	In-Adapter Ferrule Cleaning Gun	\$895.00
CFC-600LC-01	LEMO Replacement Cartridge	425.00

SMCLKIT

SMPTE CLEANING KIT

This cleaning kit is ideal for both mobile units and studio applications. Use this kit to clean your LEMO and standard fiber optic connectors and be sure that you have a contaminant free endface. The following items are included with this kit in a zip-close bag.

- QBE Cleaning system
- Electro-Wash PX Fiber Optic Cleaner (ES810)
- 2.5mm Fiber Optic Swabs
- 2.0mm Fiber Optic Swabs
- Lint free Precision Wipes(6704F)
- Electro-Wash MX Presaturated Wipes (CP421)
- Lemo Alignment Tool (DCSF2035PN)

PART #	DESCRIPTION	PRICE
SMCLKIT	Basic SMPTE Cleaning Kit	\$125.00

IBC™ M20 CLEANER

IBC™ Brand Cleaner M20 cleans SMPTE 304M connectors in broadcast and MIL/COTS 2.0mm connectors. The M20 is a mechanical cleaning tool designed to clean connectors residing in an adapter or faceplate and unmated connectors. The IBC™ cleaning tools use a novel dry cleaning strand to gently sweep and lift away dust and residues from the connector end face.

PART #	DESCRIPTION	PRICE
12926	IBC™ M20 Cleaner M20 SMPTE 304M	\$109.35

LEMO EXTRACTION TOOL

For inserting and removing contact sleeves for LEMO FUW connectors.

PART #	DESCRIPTION	PRICE
DCSF2035PN	LEMO Alignment Tool	\$27.30

FIS BLUE SMPTE TEST SET

FIS Blue's Ruggedized SMPTE Test Set is designed for harsh work conditions where handheld units are not appropriate. The SMPTE Test Set utilizes a remote loopback unit for single ended testing of both optical fibers as well as power for the built-in copper conductor tests. The set checks all 4 copper conductors for continuity and shorts as well as verifying the integrity of the grounding shield in the cable with simple pass/fail audible and visual indicators. The main control unit houses the optical fiber power meter read-out, copper conductor test indicators, and the SMPTE fixed plug connector. The Remote Unit contains the SMPTE fixed socket connector.

**SMPTE
Ready
Testing!**

FEATURES

- Single Test Checks Both Fibers for Loss and all 4 Copper Conductors for Continuity, Short Circuits and Ground Braid Integrity
- Simple Audible and Visual Pass/Fail Indicators for Copper Tests
- Designed for Harsh Environments in Ruggedized Housing
- Rechargeable NiMH Batteries
- Dual Singlemode Capabilities, 1310nm & 1550nm Wavelengths

F1-STS01

PART #	DESCRIPTION	PRICE
F1-STS01-1	SMPTE Test Set	\$2,950.00

PRODUCT SPECIFICATIONS

Power Meter Receiver	
Detector	2mm Germanium photo-diode
Wavelength Selection	1310nm, 1550nm
Noise Equivalent Power (NEP)	-65dBm Typical
Display Resolution	.01dB
Measurement Range	+5dBm to -60dBm @ 1310nm and 1550nm
Accuracy	+/- .3dB
Power (Main Control Unit)	
AC Power	110/120 or 220 volt AC Charger/Adapter
Battery	4 "AA" cells, NiMH
NiMH Battery Life (@ 25°C)	12 hours Typical
NiMH Recharge Time	9 hours Typical

Light Source Specifications

Laser:	
Wavelengths	1310nm or 1550nm +/- 30nm
Output Power (9/125µm core)	-1 dBm Typical
Spectral Width (FWHM)	5nm Typical
Modulation Modes	CW, 2kHz

Temperature Range

Operating	-10 to +50 deg. C (14 to 122 deg. F)
Storage	-40 to +60 deg. C (-40 to 140 deg. F)

Physical (Main Control Unit)

Dimensions	8 1/4" L x 6 1/2" W x 3 5/8" D
Weight	2.25 lbs

note: specifications subject to change without notice.

MC2 SERIES 3G/HD/SDI VIDEO BNC-ST MEDIA CONVERTERS

MC2 Video Media Converter modules offer extended distance over singlemode fiber for high-speed serial digital video links for multi-protocol 3G/HD/SDI/DVB/ASI video applications with data transfer rates up to 2.97Gbps.

- Cable Driver on RX
- Line Equalizer on TX
- ST Physical Contact Optical Interface
- +4.5 to 24 VDC Operating Voltage Range
- Power Supply Sold Separately or Included in Kit models
- RoHS-6 Compliant
- Rugged Construction
- Easy to Understand OLED Displays Simple, Real Time Operating Parameters and Diagnostics

PART #	DESCRIPTION	PRICE
MC2-K-P-2-F1	Includes: 1 Transmitter, 1 Receiver, 2 Power Supplies in rugged case	\$1,770.00
MC2-T-P-2	Transmitter	826.00
MC2-R-P-2	Receiver	826.00

FIS FIBER OPTIC INSPECTION MICROSCOPE

The FIS Video Microscope is ideal for inspecting fiber optic connector endfaces in the field. This package combines a top quality Video Monitor and Handheld Inspection Probe at an affordable price.

The probe comes with interchangeable tips that enable you to inspect both male connectors and female bulkhead adapters. A large 5.6" LCD screen displays endfaces at 200x to ensure that connectors are clean and free of defects.

FIRECAT-1310

FIS FIRECAT OTDR

The FIS Firecat OTDR provides an industry leading value with its low cost and easy functionality. This unit is perfect for both inexperienced and experienced technicians alike with its simple on screen 'soft key menus'. By providing the essentials for fiber optic troubleshooting, this OTDR is the perfect tool for basic link troubleshooting and is affordable enough for every truck, office or tool kit.

FEATURES

- Dynamic Range - 23dB
- Lowest Cost OTDR in the Industry
- Easy Operation with 'Soft Key Menus'
- Small, Lightweight and Rugged
- Interchangeable Adapters

- Event Table and Auto-Test Modes
- USB Data Transfer
- Backlight Keypad and Screen for Easy Use in Dim Lighting Conditions
- Available in a Ruggedized Version for harsh conditions

Ruggedized Version

Side View of Handheld

Each Unit Includes: 110v AC adapter, Certification Software, Data Transfer Cable, SC Interchangeable Adapter, Soft Carry Case, and Instruction Manual

When purchasing unit for 220v application, 220v adapter must be purchased separately.

FIS BOBCAT MINI OTDR

The Hand Held Bobcat OTDR has a generous 32 dB dynamic range and a short dead zone for testing FTTx fibers and networks up to the metro environment. It has an easy to read color display with fault finder, construction and expert/manual modes of operation. The OVP is shipped with Windows™/Telcordia SR-4731 compatible software that generates complete and professional documentation with the ability to include scope images and loss test results on the OTDR test reports.

Loss Test Set

Event Analysis Screen

FEATURES:

- No Boot Up Time "Instant On"
- 32 dB Dynamic Range
- Short Dead Zone
- Trace Comparison with Trace Overlay
- Interactive Event Table with Pass/Fail Feature
- Fault Finder/Construction/Expert Modes
- Bright Color Display
- Onboard Memory for 1000 Traces
- Onboard, Context Sensitive Help
- Rugged Enclosure with Protective Boot

OVP-850

FIBER OPTIC OTDRS

FIS ADVANCED MINI OTDR

The FIS Advanced Hand Held OTDR has up to 36dB dynamic range with a 1 meter dead zone. It is Ideal for testing PON systems or links up to 240km. The OVX has an integrated power meter, stable light source, video scope and a visual fault locator, making it a complete testing system, with an extremely intuitive operating system to keep learning curve as short as possible. The OVX stores ~500 traces and 10,000 power meter measurements which can be downloaded to a USB flash drive or through a USB cable. The OVX is shipped with Windows™/Telcordia SR-4731 compatible software that generates complete and professional reports with the ability to include scope images and loss test results. Models are available that include an active 1625nm port for up to four ITU standard CWDM wavelengths.

New Home Screen

New File Management Screen

OVX-1315-TLS

Each Unit Includes: Universal Power Adapter with US, UK, Continental Europe and Australian plugs, Interchangeable FC/ST/SC Adapters for each OTDR and Power Meter Port, Windows™/Telcordia SR-4731 compatible Software, USB Cable, Manual and Rubber Boot.

EXFO FTB-200v2 MODULAR OTDR

The FTB-200v2 is the first true compact platform for the technician. Start testing triple-wavelength insertion loss at the CO or testing data integrity at the core, this unit has the power, speed and modularity. Many configurations and modules available, contact an FIS sales associate for additional information and specifications.

FEATURES

- Full Backward Compatibility with Previous Modules
- Provides Optional Built-in Bluetooth & Wi-Fi
- Provides 1 Gig Ethernet and 3 - USB 2.0 Ports
- Windows® Remote Assistance and Remote Control Features
- Intel ATOM Processor Running Windows® Embedded Standard OS
- Provides EXFO Fiber Inspection Probe Video Connector Interface

EXFO AXS-110 OTDR

The handheld AXS-110 Access OTDR is specifically designed for the FTTx installer, and is also ideal for premise testing. User-friendly with one-touch testing, summary screen and macroband identification. Complete connectivity flexibility using USB stick or RJ-45/USB cable data download. Bi-directional analysis and live templating for OTDR testing. The AXS-110 Singlemode OTDR is ideal for FTTx/access and CATV testing. The AXS-110 Multimode OTDR is optimized for enterprise testing. FastReporter software with powerful batch processing is available.

FEATURES

- Dynamic Range - 24/25/32/30dB (850/1300/1310/1550nm)
- Tests through High-Port-Count Splitters
- Optional Power Meter, IP Testing and Fiber Inspection Probe
- Summary Screen to View all Results
- Exceptional 0.8 meter Event Dead Zone

AXS-110-23B

MT9083A

FIS IS THE NATION'S LARGEST ANRITSU STOCKING DISTRIBUTOR

ANRITSU MT9083A/B/C FEATURES

- High Performance: 0.8m Event Dead Zone, up to 45 dB Dynamic Range
- Unmatched FTTx/PON Support for Splitters up to 1x128
- Ultra-fast Dynamic Range Acquisition to Reduce Testing Time
- Excellent 8+ Hour Battery Life
- The Benchmark for Reliability in Test Equipment
- True all-in-one Test Set with PM, LS, VFL and Connector Inspection Probe

NOW INCLUDES A FULL 3 YEAR WARRANTY AND NETWORK SOFTWARE WITH THE PURCHASE OF MT9083

The ACCESS Master MT9083 Series is designed to be the perfect tool for any application - from 50ft fiber drops to 60 mile backbone cables, single mode to multimode. All models feature 0.8m dead zones (typ), standard light source, connector inspection microscope support, USB data storage, long battery life and an enhanced indoor/outdoor display for direct sunlight viewing.

Each Unit Includes: Enhanced display, rugged display cover and softcase. Deluxe kits also include PM, VFL and NETWORKS PC software. Please specify adapter.

ANRITSU CMA5000A

A powerful Windows-based unit, with large 10.4" color display, 40GB hard drive, touch screen and hard key user interfaces has several optics options to cover any testing needs from single-mode to multimode, from 24 to 50dB. Includes Windows® XP Pro Desktop and built-in DVD/CD-RW drive. Additional OTDR packages available.

FEATURES

- Modular, Multi-layer Test & Measurement Platform
- 10.4" LCD touch screen
- Full Range of Modules: OTDR, PMD, CD, Ethernet, SONET, OSA
- Dedicated Testing Modes Simplify OTDR Operation

ANRITSU MT9090 HANDHELD NETWORK MASTER

FIBER OPTIC OTDRS

μOTDR MODULE - MU909014B

When configured with a μOTDR module, the Network Master MT9090A creates a new class of test instruments. Its performance rivals traditional OTDRs that are four times the size and more than double the price. It features 5 cm resolution for accurate mapping of events, dead zones of less than 1 meter (3 feet) and a dynamic range of up to 37dB – enough to test over 150km (90+ miles) or PON-based FTTX networks featuring up to a 1x64 split. The MT9090A μOTDR also takes portability to a new level by being the first handheld OTDR that truly fits in the palm of your hand

PART #	DESCRIPTION	PRICE
Z1489A	MT9090A Mainframe, 1310/1550 (37/36dB) OTDR, VFL	\$6,030.00
Z1490A	MT9090A Mainframe, 1310/1550 (32/31dB) OTDR, VFL	5,530.00

NEW

10/100/1000MB ETHERNET MODULE - MU909060A

When outfitted with the Gigabit Ethernet module, the Anritsu Network Master is a comprehensive solution for Gigabit Ethernet testing and for installation and troubleshooting Ethernet communication lines.

PART #	DESCRIPTION	PRICE
Z1379A	Gigabit Ethernet (1) RJ-45, SFP Slot with MU909060A1 Module	\$4,670.00
Z1381A	Gigabit Ethernet (1) RJ-45, SFP Slot, RFC 2544 Test Option, with MU909060A1	6,736.00
Z1380A	MT9090A Mainframe, 10/100/1000MB Ethernet Module, 2-SFP Slots 4	980.00
G0246A	1000 Mbps SX SFP, 850nm (MM), with LC	288.00
G0241A	1000 Mbps LX SFP, 1310nm (SM) with LC	387.00
G0242A	1000 Mbps ZX SFP, 1550nm (SM) with LC	1,571.00
G0243A	100 Mbps FX SFP, 1300nm (MM) with LC	98.00
G0243A 1	100 Mbps LX SFP, 1310nm (SM) with LC	160.00

OPTICAL FAULT LOCATOR MODULE - MU909011A

When configured with the Optical Fault Locator module, the MT9090A becomes the perfect tool for evaluating central office, FTTx, intra-building and wireless backhaul optical cables. With less than 1m dead zones, an exclusive integrated launch cable, full trace view and complete event table analysis, the MT9090A fault locator has all the right features.

M200

FEATURES

- Dynamic Range - 22dB (MM), 26dB (SM)
- 1.5 Meter Event Dead Zone (Typical)
- Integrated VFL (650nm)
- Li-Ion battery (6 hour life)
- Transflective (indoor/outdoor) Touchscreen Display
- USB Flash and Host Ports
- Compact Flash™ Memory Card
- ST, SC, FC Adapter

NOYES M200 OTDR

The M200 offers unmatched OTDR capabilities in a handheld package weighing less than 1 kg (2 lb). Multimode, Singlemode, and 'QUAD' wavelength models are offered. With short dead zone and intermediate range specifications, the M200 is ideal for Tier 2 testing of premises (building and campus) networks or certification and troubleshooting of FTTx PON networks. And its bright, transflective display makes it suitable for both indoor and outdoor operation.

The M200 is based on a new hardware/software platform that supports automatic and manual setup, precision event analysis, dual-wavelength testing, rich file naming and folder setup, internal and removable media data storage, and USB connectivity. Test ports are equipped with tool-free adapters, which can be changed in seconds. A custom-designed polycarbonate case and shock-absorbing boot make it our most rugged OTDR ever.

Supplied Accessories

APPLICATIONS

- Tier 2 testing of premises networks
- FTTx PON certification and troubleshooting
- Fast fault location
- Splice verification
- Network documentation
- ST, SC, FC Adapter Included

Each Unit Includes: A rugged, soft-sided carry case with shoulder strap, 110/220v AC power adapter with country-specific power cord, user guide, and various adapters.

PART #	DESCRIPTION	PRICE
M200-22	Dual Wavelength - Multimode 850/1300nm (Adapters - 1 SC, 1 FC)	\$6,295.00
M200-20	Dual Wavelength - Singlemode 1310/1550nm (Adapters - 1 SC, 1 FC)	5,995.00
M200-25	Quad Wavelength - MM/SM 850/1300/1310/1550nm (Adapters - 1 ST, 2 SC, 1 FC)	8,995.00

NOYES M700

FEATURES

- Dynamic Range up to 40dB
- Integrated OPM and VFL (650nm)
- Full Auto, Expert, and Real-Time OTDR Test Modes
- Pass/Fail Event and Link Thresholds Settings
- 6.5-inch Transflective (indoor/outdoor) Touch Screen Display
- Tool-free, Switchable Test Port Adapters
- Rechargeable Li-Ion battery (> 8 hours) or AC power
- USB Host and Function Ports
- Internal (1,000s test results) and USB Storage
- Windows® Compatible Software

M700

Molded Side Bumpers for Impact Protection

New User Interface

NOYES OFL280-10x FlexTester OTDR

The NOYES OFL280 FlexTester family offers an unmatched combination of fiber optic test functions, ease-of-use, portability, and value. All OFL280 FlexTester models include an integrated single-mode 1310/1550nm OTDR with PON-optimized and standard test modes, optical power meter, 1310/1550nm laser source, and visual fault locator.

For many users the two-wavelength OFL280-100 will provide the best balance of functionality and value. Testing at 1310 and 1550nm is normally sufficient to certify point-to-point or FTTx PON fibers and allows the detection of macro bends. The three-wavelength OFL280-101 and OFL280-102 models add 1625nm or 1490nm respectively. Testing at 1625nm allows testing of the L band. Testing at 1490nm is required by some network operators to certify FTTx PONs. The filtered, three-wavelength OFL280-103 can certify dark fibers at 1310/1550nm, fault-locate live FTTx PON fibers at 1625nm, and measure FTTx power levels at 1490 and 1550nm, all from a single test port.

Supplied Accessories

APPLICATIONS

- Construction testing of FTTx PONs and point-to-point metro and access networks
- High-resolution fault-location of dark or live FTTx fibers
- Splice and connection verification (loss and reflectance)
- Optical power and loss measurement with time-saving Wave ID

Each Unit Includes: A carry case, (1) SC and (1) FC adapter for the OTDR/OLS port, (1) 2.5 mm universal adapter for the OPM port, (1) 2.5mm universal adapter for the VFL port, One-Click Cleaner SC/ST/FC (2.5mm), USB cable (connects with Type A USB port on your PC), and AC power adapter with a country-specific power cord. Specify the connector ferrule finish (UPC or APC) at order entry time.

PART #	DESCRIPTION	PRICE

OFL280

FEATURES

- Rugged, hand-held and light weight (0.8 kg / 1.8 lb)
- 0.8 m event dead zone, 3.5 m attenuation dead zone
- 34 dB dynamic range
- Fast Real Time OTDR mode
- Internal storage (>1000 OTDR traces in .SOR format)
- High-contrast display is clear and bright in any lighting
- Transfer test results to a PC via USB
- 10-hour operation, fast charge, Li-Ion battery

The NOYES M700 from AFL Telecommunications is a compact, full-featured OTDR with an integrated Visual Fault Locator (VFL), an Optical Power Meter (OPM) capable of displaying up to three wavelengths simultaneously, and a large transreflective touch screen display suitable for both indoor and outdoor operation. The M700 is offered in four models: 1310/1550nm singlemode OTDR, 1310/1550/1625nm singlemode OTDR, 850/1300/1310/1550nm QUAD OTDR, and 850/1300/1310/1550nm Long Range QUAD OTDR.

Each Unit Includes: OTDR, AC Power Adapter, USB Flash Drive, PC Trace Analysis Software, (1) ST, (1) SC, (1) FC Adapter, Softcase and Cleaning Accessories.

FLUKE
networks

DTX COMPACT CABLE TESTER & OTDR

Fluke Networks Compact OTDR module is the latest enhancement to the DTX CableAnalyzer. In addition to performing copper certification and diagnostics, your team can become fiber test experts when you decide to grow your business and turn your cable tester into an OTDR. This full featured, compact OTDR module snaps onto a DTX CableAnalyzer and provides unmatched ease of use for premises fiber testing. Choose a kit that includes a DTX mainframe and smart remote, options for copper certification, optical loss/length capability, or order a module and software that can be installed on a your own DTX CableAnalyzer.

FEATURES

- Expand installation revenue without expanding staff
- Shorten the technicians' learning curve for fiber testing
- Perform Basic (Tier 1) and Extended (Tier 2) fiber certification with a single tool
- Accelerate troubleshooting with a powerful, single-ended OTDR
- Deliver integrated copper and fiber reports using LinkWare™ Results Management Software

T-BERD®/MTS-2000

The JDSU T-BERD/MTS-2000 is a handheld multi-test platform that provides field technicians with a single handheld unit to install, turn-up and maintain these networks to the highest standards.

Test capabilities include a range of OTDR modules for multimode and single-mode testing, as well as a range of FiberComplete™ modules for automated Insertion Loss/ Optical Return Loss (IL/ORL), and fault finding. Both OTDR and FiberComplete modules are passive optical network (PON) optimized. The unit is also ready for connector end face pass/fail analysis to IEC standards with a digital analysis microscope.

The PON power meter and CWDM-OSA modules also enable turn-up and trouble-shooting of PON and coarse wavelength division multiplexing (CWDM) networks.

FEATURES

- Large 5-inch touch screen display
- Field-installable modules
- Wide range of OTDR modules
- Automated fiber inspection and IEC pass/fail analysis
- Optional built-in optical power meter, visual fault locator (VFL), and optical talk set
- Lithium Polymer (LiPo) battery
- Flexible connectivity with Ethernet, USB, Bluetooth and WiFi capabilities

APPLICATIONS

- Tier 2 testing of premises networks
- FTTx PON certification and troubleshooting
- Fast fault location
- Splice verification
- Network documentation
- ST, SC, FC Adapter Included

DID YOU KNOW

Pulse Suppressors, also commonly referred to as OTDR Launch Boxes, Delay Lines or "Dummy Fibers," are used to occupy OTDR "Dead Zones" which enable accurate loss measurements on near-end and far-end connections of the fiber under test. Pulse Suppressors may also be used in an educational setting to simulate networks and during installation and troubleshooting. With the inclusion of additional loss points (fusion or mechanical splices, and/or connector events) the Pulse Suppressor becomes a Test Box for quick verification of your OTDR's calibrated accuracy. Generate an initial scan upon first use of your OTDR, then periodically check future scans against the reference to be sure the equipment is within calibrated range. FIS specializes in customization of Pulse Suppressors and Test Boxes!

BUILD YOUR CUSTOM PULSE OR TEST BOX

Use this chart to build your launch box you need to your exact specifications.

OPTICAL SPECTRUM ANALYZER

Test
Equipment

OSX-80C

FIS HAND HELD OPTICAL SPECTRUM ANALYZER

The FIS Hand Held Optical Spectrum Analyzers offer full featured analysis of DWDM and CWDM systems in a truly portable package. This OSA has a super-fast acquisition time of <1s per scan, and Pass/Fail feature with an easy to read color display. The OSX offers features such as Power Tilt for DWDM channel equalization and Gain Tilt to adjust EDFA gain flatness. The OSA will store up to 1,000 tests and is shipped with Windows™ compatible software for fast and easy reporting.

FEATURES:

- Easy Operation with Help Mode
- 50 or 100 GHz DWDM and 20nm CWDM Channel Spacing
- Fast with Less Than One Second Scan
- Over 80 Channels DWDM and 18 CWDM on the ITU Grid
- Bar Graph & Table Displays
- 4" Color Display
- Real Time operation
- Rugged Case with Impact Resistant Boot
- 8hr Battery Life
- Video Scope capability

Each Unit Includes: Universal Power Adapter, Interchangeable FC/SC Adapters, Windows® Compatible Software, USB Cable, Manual and Rubber Boot.

PART #	DESCRIPTION	PRICE
OSX-80C	C-Band Optical Spectrum Analyzer	\$5,495.00
OSX-80L	L-Band Optical Spectrum Analyzer	5,495.00
OSX-20	CWDM Optical Channel Analyzer	5,495.00
F1-PVMP200	200x Microscope Video Probe with 2.5mm Tip	595.00

FOT-5200-16C

EXFO FOT 5200 CWDM ANALYZER

Exfo's new FOT-5200 CWDM Analyzer is an innovative, low-cost alternative for the installation, maintenance, and repair of any CWDM network. With its ability to test up to 16 CWDM channels it is the optimal tool for installation, maintenance, and repair of any CWDM network. Being the fastest and smallest CWDM tester on the market the FOT-5200 will be a favorite tool of any technician.

FEATURES:

- Up to 16 CWDM channels
- Save and Download Data
- Broadband power-meter feature
- Bar graph, plus table of results
- Fastest and smallest CWDM test on the market

PART #	DESCRIPTION	PRICE
FOT-5200-16C-XX	CWDM Analyzer for 16 CWDM Wavelengths	\$5,750.00

2277-40

JDSU CHANNEL CHECKER

JDSU OCC-55 is an innovative selective power meter for CWDM applications. The OCC-55 is a low-cost alternative solution to optical spectrum analyzers. It scans CWDM systems and automatically records all channel key measurements including wavelength, frequency and related power level.

The JDSU SmartClass OCC-56 is a handheld, battery operated DWDM channel checker that is ideal for field service groups tasked with installation, maintenance, and upgrades of DWDM systems. The OCC-56 supports C-Band applications up to 102 channels and scans the DWDM system while automatically recording all the channels with the wavelength/frequency and related power level. Information can be displayed in a graphical spectrum format or in a table of results so that the user can easily check the performance of each and every channel while meeting ITU-T standards.

PART #	DESCRIPTION	PRICE
2277-40	OCC-55, Optical Channel Checker for CWDM applications	\$6,251.70
2277-41	OCC-56C, Smart DWDM Channel Checker	7,264.95

FIS OV-3 TEST SET

Loss Test Sets contain both a power meter and a light source in a single unit and are used to perform bi-directional end-to-end loss measurements. The FIS OV-3 Test Set is available configured in a number of flexible models to meet the installation and maintenance requirements of all optical networks. Include the CATV, VFL and Talk options to any model for additional functionality. The OV-3 is available in a power meter only version with the same great features.

FEATURES

- High Resolution Power Meter Calibrated at 850/1310/1490/1550nm
- 2mm Germanium Detector
- Backlit Display
- Available as Power Meter Only or Test Set
- Single or Dual Wavelength Light Source
- Stores up to 255 Tests
- Li-Ion Rechargeable Battery
- CATV, VFL & Talk Options
- One-Year Warranty
- Carry Case

Each Unit Includes: 110v/220v AC Charger, PC Software, 2.5mm and 1.25mm Universal Adapters, Soft Carry Case, RS232 Data Cable, (3 mtr Patchcord included with Units with Light Source Option).

PART #	DESCRIPTION	PRICE
OV3-PM	Deluxe Power Meter w/ RS232	\$725.00

EXFO 930 SERIES MAXTESTER

The FOT-930 MaxTester multifunction loss tester is a single tool solution for bi-directional loss and ORL testing in all networks. By combining multiple tools in one powerful platform, technician training time is reduced. User-configurable pass/fail thresholds and one button testing minimize the opportunity for error. Reliably inspect connector endfaces with the probe option. Stores up to 1,000 test reports that can be downloaded to the included software, to generate comprehensive custom reports.

FEATURES

- One Touch Automated Testing of Multiple Wavelengths for Loss & ORL in <10sec.
- Bi-directional
- Combines Loss, Power and ORL Measurement Capability
- Multimode and/or Singlemode Sources
- Fiber Length Testing
- Probe, VFL and Digital Talk Options
- Pass/fail Thresholds
- High Resolution Color Display

Each Unit Includes: AC charger, Li-Ion Batteries, Case and Shoulder Strap.

NOYES C860 CERTIFICATION TESTER

The NOYES C860 QUAD Certification and OTDR Test Kit from AFL Telecommunications includes one handheld C840 QUAD OLTS Tester and one C850 QUAD OTDR/OLTS with built-in auto test functionality. With this kit, technicians can troubleshoot and perform both Tier 1 and Tier 2 certification tests of Multimode and Singlemode fiber networks, store results and create professional test reports.

FEATURES

- OTDR dynamic range: MM-22dB, SM-26dB
- Integrated OPM, OLS, and VFL (650 nm)
- OLS Sources:
 - LED - 850/1300 nm
 - Laser - 1310/1550 nm
- Full Auto, Expert, Real-Time OTDR test modes
- Internal (1,000s tests) and USB storage
- Wave ID detect if used with AFL Wave ID series light sources

Each kit includes: One Handheld C840 QUAD Certification Tester, One Compact C850 QUAD OTDR/OLTS, USB Flash Drive, PC Trace Analysis Software, (2) AC Adapters, Switchable Test Ports Adapters, and Accessories.

PART #	DESCRIPTION	PRICE
C860-100-LP1-H2	(1) C840 Quad Tester & (1) Compact C850 Quad OTDR/OLTS SC-LC Kit	\$16,995.00
C860-100-LP1-H5	(1) C840 Quad Tester & (1) Compact C850 Quad OTDR/OLTS SC-ST Kit	16,995.00

NOYES C880 CERTIFICATION TESTER

Combining two C840 Certification Testers, the NOYES C880 QUAD Certification Test Kit from AFL is designed for testing and troubleshooting both multimode and singlemode fiber links. Each tester includes an integrated Visual Fault Locator (VFL, 650nm), both singlemode (Laser 1310/1550nm) and multimode (LED 850/1300nm) Optical Light Sources (OLS), and an Optical Power Meter (OPM). Each tester may be used alone as a traditional power meter, light source or visual fault locator.

FEATURES

- Integrated OPM, OLS, and VFL (650 nm)
- Dual-wavelength certification Pass/Fail
- Bi-directional and single fiber testing
- Rechargeable Li-Ion battery or AC power
- Internal (1,000s test results) & USB storage
- Transflective (indoor/outdoor) touch screen display

Each Kit Includes: (2) C840s Testers, USB Flash drive, Software, (2) AC Adapters, Switchable Test Ports Adapters (SC, 2.5mm, 1.25mm), and Cleaning Accessories.

PART #	DESCRIPTION	PRICE
C880-100-LP1-S1	(2) NOYES C840 Quad Certification Testers SC-LC Kit	\$10,500.00
C880-100-LP1-S2	(2) NOYES C840 Quad Certification Testers SC-ST Kit	10,500.00

FIS FIBER OPTIC TALK SET

Fiber Instrument Sales' new full duplex Talk Set is a hands free unit designed for transmitting voice in both directions in a single fiber using two different wavelengths, 850/1300nm for the multimode unit and 1310/1550nm for singlemode. Includes adjustment for power and sensitivity. The built in VOX (sensitivity) circuit is meant to conserve battery power when the operator is not speaking. In addition to these features the unit also comes with a rechargeable 9V 540mAh battery and a charging port for in-unit charging. The Talk Set comes standard with ST or FC adapter ports. The loss budget for our Multimode set is 15dB; The Singlemode set is 20dB. Finally, each Talk Set comes equipped with a stereo headset with boom microphone, providing comfort for long-term use and high performance.

Each Set Includes: (2) Units, (2) Headphones with Microphone, 9V Battery

PART #	DESCRIPTION	PRICE
9061-1000	FIS Multimode Talk Set (pair) ST Adapter	\$695.00 (pair)
9061-2000	FIS Multimode Talk Set (pair) FC Adapter	695.00 (pair)
9062-1000	FIS Singlemode Talk Set (pair) FC Adapter	1,495.00 (pair)
9062-2000	FIS Singlemode Talk Set (pair) ST Adapter	1,495.00 (pair)

FIS POWER METER

A power meter is the essential tool for measuring optical power within a fiber optic link. The FIS Power Meter is a solid performer, with 0.01dB resolution. Standard FIS units test from +5dBm to -65dBm, and FIS CATV units test from +23dBm to -45dBm.

FEATURES

- 2mm Germanium Photodiode
- Available with 1490nm Calibrated Wavelength
- 70-Hour Battery Life
- Low Battery Indicator
- CATV Version Available
- Built in Stand for Easy Viewing
- Ruggedized Units Available for Harsh Outdoor Environments

Each Unit Includes: Operating Manual, 9V Battery, 2.5mm & 1.25mm Adapters, and Carry Case

FIS LIGHT SOURCE

The FIS Light Source is the perfect match for the FIS Power Meter. Singlemode units are equipped with lasers having a typical output power of -1.0dBm. Multimode units have LED's with a minimum output of -17dBm.

FEATURES

- Single or Dual Light Sources
- Continuous Wave (CW) or 2kHz Modulation
- Auto Shut Off & Low Battery Indicator
- Optional AC Power Supply
- 30-Hour Typical Battery Life
- Fixed Adapter for Optimal Performance
- Built in Stand for Easy Viewing
- Ruggedized Units Available for Harsh Outdoor Environments

EXFO FIBERBASIX 50 SERIES POWER METER/LIGHT SOURCE

The EPM-50 Power Meter allows power measurements up to 26 dBm with battery autonomy of over 300 hours. It comes with a specific high power configuration for CATV and Telco markets. The ELS-50 Light Source offers the power stability and reliability necessary to perform loss measurement in Telco, CATV and FTTH applications using dual and triple wavelengths. Additional kit available.

Each Unit Includes: Soft pouch, PMA-22 FC connector adapter, LSA-89 FC connector adapter, quick reference sticker in five languages, Certificate of Calibration, Certificate of Compliance, and three AA batteries.

Other Adapters Available.

PART #	DESCRIPTION	PRICE
ELS5012CRBLSA89	Dual MM 850/1300nm LS with Rubber Boot, FC Adapter	\$585.00

FIBERBASIX 50 SERIES

EXFO FIBERBASIX 500 SERIES LOSS TEST SETS

EXFO's FiberBasix 500 Series Optical Loss Test Sets feature semi-automatic testing, wavelength switching and Pass/Fail threshold settings. This test set has a memory capacity of 1,000 data items and data transfer to PC via USB connection. The 500 Series light sources feature tone generation for use with the EPM500 for remote power referencing. The FiberBasix gives you error-free testing with automatic wavelength recognition with no need to zero-set.

Each Unit Includes: (1) PM, (1) LS, Carrying Case, One Test Jumper or Two Test Jumpers for FBK-506, 507, 508 Kits and Interchangeable Connector Adapter on the Power Meter and on the Source.

PART #	DESCRIPTION	PRICE

EXFO PON POWER METER

This new power meter is truly optimized for EPON and GPON architectures. Pass/Warning/Fail indicators for easy assessment of power values. Simultaneous measurement and display of all PON signals – Voice, Data and Video. The most easy-to-use instrument of its kind: simply connect the fiber and read the results.

Includes: Quick Reference Guide, USB Cable, Software, User Guide on CD, Wrist Strap, and Protective Cover for Optical Ports

PART #	DESCRIPTION	PRICE
PPM-352C-YYY	PON Power Meter w/ pass through port	\$1,645.00

Replace YYY with EI-EUI-89=FC, 90=ST, 91=SC universal adapters for Light Sources and Kits.

NOYES SMLP5-5 SM/MM LOSS TEST KIT FROM AFL

Essential tool for certifying singlemode and multimode fiber networks to industry standards. Included TRM™ PC Reporting Software is a powerful tool for analyzing test results, applying industry standards, and generation of comprehensive certification reports using supplied industry accepted templates.

NOYES SMLP5-5 test kit is ideally suited for testing singlemode and/or multimode fiber optic networks and cables. The OPM5-2D and OLS4 offer long battery life from common AA alkaline batteries with external AC adapter available as an option. The SMLP5-5 test kit is fully N.I.S.T. traceable.

FEATURES

- Test single-mode and multimode networks
- Wave ID (auto identification & switching)
- TRM™ Reporting Software (Windows® compatible)
- Dual or Single Wave ID, CW, Tone
- File Management for over 600 fibers
- USB port for transfer of stored results
- 50µm and 62.5µm Fiber Mandrels Included
- Display readable in dim area or direct sunlight

Includes: (1) OLS4 Optical Light Source, (1) OPM5-2D Optical Power Meter, AA Batteries, Protective Rubber Boots, Adapter Cap, USB Cable, Windows® Compatible Software User's Guide, 50µm And 62.5µm Mandrels, and Carry Case

PART #	DESCRIPTION	PRICE
SMLP5-5	NOYES Quad Optical Loss Test Kit (specify connector style when ordering)	\$2,995.00

Available Connector Adapters: FC, ST, SC, LC

Test Equipment

FIS VISUAL FAULT LOCATOR

The FIS Visual Fault Locator is an essential tool for troubleshooting a fiber optic system. A 1mW packaged laser sends a 650nm visible red light down the length of the fiber. The escaping light allows easy identification of breaks or severe macro bends. Internal optics are used to optimize the unit's performance for either singlemode or multimode applications. Fiber end identification and continuity testing for long distances are also natural applications.

Each Unit Includes: Manual, (2) AA Batteries, and Carry Case.

PART #	DESCRIPTION	PRICE
OF-1000-UF	Visual Fault Locator with 2.5mm Universal Adapter (MM & SM)	\$295.00
OF-1000U-LC	Visual Fault Locator with LC Adapter (MM & SM)	295.00
OF-1000U-FCA	Visual Fault Locator with FC/APC Adapter (SM)	395.00
OF-1000U-SCA	Visual Fault Locator with SC/APC Adapter (SM)	395.00
OF-1000U-MTRJ	Visual Fault Locator with MT-RJ Adapter (MM & SM)	495.00

OF-1000-UF

WILCOM MT-RJ VISUAL FAULT LOCATOR

The Wilcom MT-RJ Visual Fault Locator is used for finding breaks and/or macro-bends in multimode optical fibers. The F6240 incorporates a fixed male MT-RJ duplex receptacle, and independently launches a bright visible red laser into channel A or channel B fiber for quick continuity testing.

PART #	DESCRIPTION	PRICE
F6240	MT-RJ Visual Fault Locator (Hand Held)	\$895.00

F6240

Wilcom

F1-5000 SC

FIS CONTINUITY TESTER

A Continuity Tester enables you to easily verify light throughout as the LED transmits red light down the fiber, providing visual identification at the fiber's far end. Operates with two "AA" size batteries (provided).

Recommended for Multimode Use Only.

Each Unit Includes: Tester and (2) AA Batteries

PART #	DESCRIPTION	PRICE
F1-5000U	Fiber Continuity Tester 2.5mm Universal (ST, FC & SC)	\$29.95
F1-5000	Fiber Continuity Tester (ST)	29.95

F1-5000FC	Fiber Continuity Tester (FC)	29.95
F1-5000SC	Fiber Continuity Tester (SC)	29.95
F1-5000LC	Fiber Continuity Tester (LC)	29.95

FAULT LOCATORS

A

B

C

D

E

Fault Locators are a special class of light sources that emit a high intensity visible Red Laser into a patchcord or cable. This light can be used to both check the continuity of a fiber and identify the fiber's far end, or it can be used to visually identify the location of a fiber break. Most Fault Locators come optimized for single-mode fiber use; however they work equally as well with multimode fiber.

Fault locators are offered in "hand-held" and "pocket size" versions. Hand-held versions are offered in a range of connector bulkheads styles, from universals to specific connector types. Pocket Fault Locators usually have a universal ferrule adapter and offer a small size that easily fits into a belt or tool case.

FIBER IDENTIFIERS

A Fiber Identifier allows you to see if a fiber is active without having to disconnect it from the network. They accomplish this by clamping onto a fiber mid-span and inducing a small macro bend. The Fiber Identifier can detect the small amount of light leaking through the macro bend to determine activity. Most units can also determine the direction of the traffic over the fiber link. Fiber Identifiers can also detect and identify specific modulated frequencies.

Fiber Identifiers are typically designed to work with 250µm coated, 900µm buffer, 2mm jacket and 3mm jacketed fibers. Ribbon Fiber versions are also available. Several higher end models are also capable of measuring the strength of the optical signal traveling down the fiber and displaying it on the unit.

FIBER IDENTIFIERS

TYPICAL APPLICATION

Test Equipment

WILCOM FIBER IDENTIFIER

Wilcom's Optical Fiber Identifiers are rugged metal units with the best sensitivity detection on the market today. They operate by inducing a macrobend on the fiber, and can be used for singlemode and multimode applications. Certain Wilcom models allow Relative Core Power measurements to be displayed. The unit can also detect the presence of 2kHz, 1kHz or 270Hz modulated tones. The optical head accepts a 3mm, 250µm /Ribbon or 900µm fibers.

Each Unit Includes: 9V Alkaline Battery, Carry Case and Interchangeable Heads for 3mm, 900µm, 250µm Fibers.

EXFO LIVE FIBER IDENTIFIER & TONE GENERATOR

The EXFO Fiber Finder can identify traffic, direction and tone detection on both active and dark fibers. With less than 1dB of induced loss, a live fiber can quickly be located and the power measured while minimizing network access time and the possibility for errors. The TG-300 is a non-intrusive, non-disruptive tone generator. Because of the low 0.2dB typical loss, they can be used on live fibers. The Fiber Finder and Toner work on all wavelengths and fiber types. One headpiece works on 900µm, 1.6mm and 3mm jackets and tones of 270Hz, 1kHz and 2kHz. The TK-FF kit includes both the Fiber Finder and Toner along with a case, AC adapter and 4 AA batteries per unit.

AFL OPTICAL FIBER IDENTIFIER

The AFL OFI 200D Optical Fiber Identifier is a low-cost, high-tech approach to non-invasive fiber optic signal detection. Using a low-insertion loss, macro-detection technique, it discriminates signals without disrupting service or overstressing fiber. By simply clamping an Optical Fiber Identifier onto a gently bent fiber, the unit will indicate if there is [No Signal], [Tone], or [Traffic] and identify signal direction. This is all done with no head swapping or adjustments for different types of fiber, 250µm, 900µm, 3mm jacketed cable and ribbon fiber.

PART #	DESCRIPTION	PRICE
OFI200D	Optical Fiber Identifier	\$1,495.00
OFI400	Optical Fiber Identifier for use with 250µm, 900µm, ribbon, 2 mm and 3mm jacketed optical fibers	1,595.00

FIS VIDEO MICROSCOPE

The FIS Video Microscope is a natural choice for fast-paced production environments, where ease of use and fast, accurate inspections are a necessity. The microscope offers a high-resolution look at the end face of most standard connectors, through a choice of either 200x or 400x magnifications. The optics and internal components are designed to be rugged and reliable, with no user-serviceable parts.

Each Package comes with: (1) Video Microscope, (1) 12" LCD monitor, (1) 6' Video Cable, (1) 2.5mm Universal Adapter

PART #	DESCRIPTION	PRICE
F1-VM200LCD	200x Video System (110v)	\$595.00

FIS FIBER OPTIC INSPECTION MICROSCOPE

The FIS Video Microscope is ideal for inspecting fiber optic connector endfaces in the field. This package combines a top quality Video Monitor and Handheld Inspection Probe in one affordable package.

The probe comes with interchangeable tips that enable you to inspect both male connectors and female bulkhead adapters. A large 5.6" LCD screen displays endfaces at 200x to ensure that connectors are clean and free of defects.

MONITOR MODULE

- Large 5.6" TFT LCD display
- Angle-adjustable screen for optimal viewing
- Brightness and contrast dials
- Screen folds for easy portability

HANDHELD VIDEO INSPECTION PROBE

- Easy-focusing knob enables one hand operation
- Interchangeable Probe Tips for inspecting different connector styles
- USB module/software included for viewing and saving images on a PC

OTHER FEATURES

- Rechargeable Batteries provide over 4 hours continuous operation
- AC Power Adapter/Charger
- Aluminum Carry Case with Shoulder Strap
- 1 year limited warranty
- RoHS Compliant

HP2 SERIES

The HP2 Series is the latest system from JDSU that integrates the most essential fiber tools into a single system that cuts test time in half to achieve better network performance. The HP2, derived from the popular HD2 series, features a high resolution 3.5" display for inspecting fiber endfaces and a built-in optical power meter for quick, easy, and accurate field measurements.

The HP2 equips technicians to work smarter and faster with a tool that promotes best practices in an efficient workflow. Doing things right the first time protects the network investment by preventing costly mistakes that could occur later on.

FIT-S205-PRO

HIGHLIGHTS

- Promotes best practices in fiber handling by combining inspection and testing into one device
- Integrated functions & features improve workflow by eliminating need to switch from one device to another
- Significantly reduce total inspection and test time for superior workflow efficiency
- Reduces the number of tools and accessories you carry and manage

Includes: Fiber Essentials Tool Kit Dual-mag (200/400X) FBP Probe Microscope and tips, FIT-HP2-60-P4 inspection & test system with 400X PCM, FFL-050 visual fault locator, cleaning tools, utility carrier, carrying case.

PART #	DESCRIPTION	PRICE
FIT-S205-PRO	JDSU Fiber Essentials Tool Kit Dual-mag (200/400X) FBP Probe	\$3,517.50

APPLICATIONS

- Inspects and accurately tests and measures optical power in one device
- Quickly and easily inspects both the bulkhead and patch cords
- Measures optical power and attenuation (with JDSU optical light source)
- Dedicated for all singlemode and multimode applications
- Use with JDSU light source to detect modulation frequency and identify individual fibers

FBP-SM03

JDSU FBP SERIES

The FBP-SM03 features the industry-leading JDSU FBP Series Dual-Magnification 200/400x Probe Microscope and compact HD3 Display. Choose 350µm or 550µm horizontal field of view. The GripSwitch™ feature saves battery life by automatically shutting off the display when not in use. Includes built-in rechargeable NiMH battery, power supply/charger, four inspection tips (LC/PC, SC/PC, U12M, and U25M), and a carrying case.

Includes: Built-in rechargeable NiMH battery, power supply/charger, two bulkhead inspection tips (LC/PC, SC/PC), two patch cord adapters (1.25mm and 2.5mm), and a carrying case.

Adapter Tips

PREMIER BARE FIBER ADAPTER

Use this adapter for launching an OTDR or test set into an unconnectorized optical fiber for loss or length verification. Adapter can be cleaned easily if fiber breaks off during use. Specs: SC/UPC connector style plug-in, Typical insertion loss 1.0dB.

Kit Includes: Bare Fiber Adapter, Zipper Case, 122mtr SM Fiber Launch Reel with SC/UPC connectors, Cleaning Wire Kit and Instructions.

PART #	DESCRIPTION	PRICE
202073	Bare Fiber Adapter Launch Reel Kit	\$299.00

FIS UNIVERSAL TESTING SLEEVE

Designed specifically for testing applications, the FIS Universal Testing Sleeve reduces labor time while testing fiber optic patchcords with standard for 2.5mm ferrules. Adapters for ST or FC reference cord are available.

PART #	DESCRIPTION	PRICE
F1-81UNIV	FIS ST to 2.5mm Universal Test Adapter	\$15.95
F1-85UNIV	FIS FC to 2.5mm Universal Test Adapter	15.95

FIS MULTIMODE MANDRELS

The use of mandrels in multimode insertion loss testing helps to ensure the proper launch condition into the fiber under test. By wrapping the fiber around the correct size mandrel, high order modes are stripped out and low order modes are spread out to achieve the desired launch conditions for testing. Each includes the mandrel and clip for holding the cable firmly in place during testing. Accepts jacket diameters from 1.6mm to 3.0mm and for use both OM1, OM2 cable.

PART #	DESCRIPTION	PRICE
F1-MM6250	62.5/125µm and 50/125µm Mandrel Kit	\$29.00

FIS GOLD TIPPED PIGTAIL

FIS gold tipped pigtails are available for applications requiring a reference back reflection. Available in ST, FC, and SC style connectors. For singlemode applications the reflective quality of the gold provides high back reflection characteristics at 1310nm & 1550nm.

PART #	DESCRIPTION	PRICE
F1-1080-ST	1 Meter ST/UPC Pigtail with Gold Tipped Ferrule	\$45.00
F1-1080-FC	1 Meter FC/UPC Pigtail with Gold Tipped Ferrule	45.00
F1-1080-SC	1 Meter SC/UPC Pigtail with Gold Tipped Ferrule	45.00
F1-1080-SCAPC	1 Meter SC/APC Pigtail with Gold Tipped Ferrule	50.00

ANRITSU OTDR BARE FIBER PIGTAIL KIT

Save time by testing optical fibers without connectorizing. Easy-to-use, only a single drop of index matching oil is required. Strip, clean and cleave the fiber then insert into the unit until the end face meets the permanently mounted fiber. Specs: Choice of ST, SC or FC style connectors, Insertion Loss 0.6dB, Typical # of insertions – 2000.

Kit Includes: FiberConnect, Manual, Index Matching Oil, Maintenance Kit, Cleaning Brush, Magnetic Stand, Carry Case and Spare Pigtail.

PART #	DESCRIPTION	PRICE
FIBERCONNECT1-USC	FiberConnect Kit with SC/UPC pigtail	\$625.00
FIBERCONNECT1-UST	FiberConnect Kit with ST/UPC pigtail	625.00
FIBERCONNECT1-UFC	FiberConnect Kit with FC/UPC pigtail	625.00

INFRARED DETECTION CARD

The Infrared Detection Card enables you to easily and safely detect the presence of invisible infrared light, which is potentially harmful to the eyes. Simply point the fiber optic cable, connector or other light source at the card for a visual indication of whether or not infrared light is present. Optimized for wavelengths between 850 - 1310nm.

PART #	DESCRIPTION	PRICE
F1-IDC	850 - 1310nm Infrared Card	\$8.95

FIS EYE LOUPE SET

Set includes 2X, 3X, 5X, 7X and 10X magnifications, these eye loupes allow users to make preliminary inspection of connector mating surfaces for dirt and scratches. The five piece set is made of durable lightweight plastic which makes it an excellent value.

PART #	DESCRIPTION	PRICE
98722	Eye Loupe Set	\$5.95

MAGNIFYING GLASSES

Protect your eyes and see fiber with ease with the dual purpose Magna-Focuser. These glasses magnify objects 2.5 times, providing a critical visual advantage which still allows user both hands free. Perfect for individuals who find it difficult to work with small parts.

ANRITSU SPECTRUM MASTER - MS2721B

Spectrum Master model MS2721B is an entirely new instrument for deploying, maintaining and troubleshooting wireless base stations and Wi-Fi (802.11a,b and g) systems. The first fully-functional handheld spectrum analyzer designed to conduct highly accurate analysis on the new wave of wireless signals, including 802.11a, 3G, ultra-wideband, and WiMax. Weighing in at less than 7 pounds, it is equally at home on the engineering bench and in the field. Typical Applications: Field and interference analysis of 3G, 802.11a/b/g and other emerging signal types. Features: Measure capability for applications up to 7.1 GHz, Handheld, battery-operated design, built in pre-amplifier, Quick zoom-in, zoom-out display in 1-2-5 sequence, dedicated one-button measurements, store up to 2000 measurement test set-ups, Save up to 2000 measurement traces, RJ45 Ethernet 10/100 Base T and USB 2.0 interfaces, Handheld (12" x 8" x 3") 6.4 lbs.

Each Unit Includes: User's Guide, a Soft Carrying Case, an AC - DC Adapter, an Automotive Cigarette Lighter/12 Volt DC Adapter, a CD ROM containing Master Software Tools and USB driver, a USB A-Mini B cable, an Ethernet Cable, a Rechargeable Li-Ion Battery Pack, a 2 GB USB Flash drive, a Type-N Male to SMA Female Adapter, a Type-N Male to BNC Female Adapter.

PART #	DESCRIPTION	PRICE
MS2721B	Handheld Spectrum Analyzer, 9 kHz to 7.1 GHz	\$14,114.00
2000-1032	Portable Antenna, 50 Ohm, SMA (m), 2.4 to 2.5 GHz	45.00
2000-1361	Antenna, 5725 to 5825 MHz, SMA male connector	75.00

* Call for other configurations

ANRITSU SITE MASTER - S361E

Site Master S361E, covering 2MHz to 6GHz is designed to accurately locate and identify RF cable feed-line and antenna system faults. Model is suited for any experience level user for installing, commissioning, troubleshooting and maintaining today's wireless systems. Features: Superior immunity to RF interference, locate long range problems with 517 data points, saves up to 25 measurement test set-ups, saves up to 200 measurement traces.

Each Unit Includes: Site Master User Guide, Soft Carrying Case, MST CD: Master Software Tools, User/Measurement Guides, Programming Manual, Troubleshooting Guides, Application Notes, Rechargeable Li-Ion Battery, AC-DC Adapter, Automotive Cigarette Lighter 12 VDC Adapter, USB A/5-pin Mini-B Cable.

PART #	DESCRIPTION	PRICE
S361E	Site Master, 2 MHz to 6 GHz Cable & Antenna Analyzer	\$8,450.00
S361E-0010	Option 10, Bias Tee (For Model S361E) (Requires Option 21)	465.00
S361E-0019	Option 19, High Accuracy Power Meter (Requires Sensor, sold separately) (For Model S361E)	570.00
S361E-0021	Option 21, 2-Port Transmission Measurement (For Model S361E)	1,440.00
S361E-0031	Option 31, GPS receiver (Requires Antenna P/N 2000-1528-R, sold separately) (For Model S361E)	465.00
S361E-0098	Option 98, Standard Calibration (For Model S361E)	360.00
S361E-0099	Option 99, Premium Calibration (For Model S361E)	445.00
S362E	Site Master, 2 MHz to 6 GHz Cable & Antenna Analyzer, 100 kHz to 6 GHz Spectrum Analyzer	15,450.00

LMR TESTER

The LMR Master is the ideal instrument for technicians and engineers testing the RF performance of P25 and NXDN radios in the VHF/UHF, 400 MHz, 700 MHz, and 800 MHz bands. It can be configured to be equipped with a cable & antenna analyzer, spectrum analyzer, interference analyzer, channel scanner, RSSI, AM/FM demodulation, RF power meter, GPS receiver, and P25 Tx Signal Analyzer, P25 RF measurements, P25 Talk-Out Coverage Measurements, and NXDN Signal Analyzer. The high performance 500 kHz to 1600 MHz cable & antenna analyzer can be used to sweep cables and antenna systems.

Each Unit Includes: Software Tools, Battery Pack, Soft Case, AC/DC Power Cables, Serial Cable and User's Guide.

PART #	DESCRIPTION	PRICE
S412E	S412E LMR Master, 500 kHz to 1600 MHz cable/antenna Analyzer, 500 kHz to 1600 MHz P25	\$13,950.00
S412E-0006	Option 6, 6 GHz Coverage on Spectrum Analyzer	4,000.00
S412E-0010	Option 10, High Voltage Variable Bias Tee	650.00
S412E-0015	Option 15, Vector Voltmeter	695.00
S412E-0016	Option 16, 6 GHz Coverage on Vector Network Analyzer	4,000.00
S412E-0019	Option 19, High Accuracy Power Meter (Requires Sensor, sold separately)	670.00
S412E-0025	Option 25, Interference Analyzer (Option 31 is recommended)	1,805.00
S412E-0027	Option 27, Channel Scanner	1,855.00
S412E-0031	Option 31, GPS Built-in Receiver (Requires GPS Antenna P/N 2000-1528-R, sold separately)	465.00
S412E-0431	Option 431, Coverage Mapping (Requires Option 31)	2,500.00

FLUKE AIRCHECK WI-FI TESTER

Wi-Fi is a complex technology, but testing it doesn't have to be. The AirCheck Wi-Fi tester allows network professionals to quickly verify and troubleshoot 802.11 a/b/g/n networks. Designed specifically for dispatched troubleshooting, AirCheck simplifies wireless testing. Just a few clicks to the answers you need with streamlined, guided troubleshooting. An instant view to required test results including network availability, connectivity, utilization, security settings, rogue hunting, and interference detection.

Each Unit Includes: AirCheck tester with Lithium Ion Battery, USB Cable, Soft Case, Getting Started Guide, CD with AirCheck Manager Software and CD with AirCheck User Manual

FIS PROTECTION SLEEVE OVEN

FIS' new splice protection sleeve oven is the perfect companion to any fusion splicer. By allowing for the external shrinking of fiber protection sleeves, it extends the life of a fusion splicer's battery allowing for more splices in the field and improving the efficiency of the splice process. Low profile allows for easy placement of either 40mm or 60mm fusion splice sleeves while providing a stable base for a variety of applications.

FSM-60S
Fusion Splicer

FEATURES

- Splice Time - 9 seconds (Typical)
- 30 Second Tube Heater
- Dual Monitor Position
- Automatic Arc Calibration
- Wind Protector Withstands 30mph Winds
- Long-Life Batteries
- Multiple Pre-Programmed Splice Modes
- Automatic Core to Core, Low-Loss Splicing
- Auto-Switching Monitor Position
- Perfect for use with Splice-On Connectors

FSM-60R
Fusion Splicer

FEATURES

- Rugged Construction Providing Shock, Dust and Moisture Resistance
- Dual Monitor Position With Automatic Image Orientation
- Automatic Arc Calibration and Ribbon Fiber Identification
- Auto-Start Tube Heater
- Color LCD Display With Anti-Reflective Coating for Excellent Visibility in Bright Sunlight
- Simultaneous Battery Charge and Splicer Operation
- Long Life Battery (Up To 90 Splice/Heat Cycles Per Charge)
- Perfect for use with Splice-On Connectors

AFL FSM-60S

The FSM-60S fusion splicer sets the standard for core alignment fusion splicing by incorporating a user-friendly interface with enhanced features to provide the most rugged and reliable fusion splicer in the market today. The new rugged construction adds improved reliability by resisting shock, dust, and rain, and can withstand a 30" drop test. The FSM-60S splices a fiber in 9 seconds and heats a 60mm splice sleeve in 30 seconds, for a total cycle time of only 39 seconds. New features such as automatic tube heater operation, user-selectable clamping method (sheath clamp or fiber holder system), automated monitor image orientation, and a battery charge capability during splicer operation provide the end user a tool they can count on.

FSM-60S Kit Includes: Splicer, Transit Case, AC Adapter, AC Cord, Sheath Clamp, USB Cable, Cooling Tray, Video Instruction Manual and Spare Electrodes (Battery not Included)

PART #	DESCRIPTION	PRICE
S014531	FSM-60S Kit	\$15,000.00
S014532	FSM-60S Kit plus CT-30A Cleaver	15,900.00
S014562	FMS-60S Kit Plus CT-30A cleaver, BTR-08 Battery and DCC-14 Charge Cord	16,225.00

ACCESSORIES

PART #	DESCRIPTION	PRICE
S013532	Electrodes for 60S (Pair)	\$75.00
S014548	FH-60-250 250µm Fiber Holders (Pair)	240.50
S014549	FH-60-900 900µm Fiber Holders (Pair)	240.00
S014535	ADC-13 AC Adapter	370.00
S014540	BTR-08 Battery (160 splice/heater cycles)	296.00
S014541	DCC-14 Battery Charge Cord (for BTR-08)	37.00
S013552	DCC-12 Power Cord (Connects ADC-13 to Cigarette Socket)	92.50
S010532	ASW-02 Aerial Workstation	835.00
S014773	Portable Tripod Workstation Kit	495.00

AFL FSM-60R

The FSM-60R Fusion Splicer offers unmatched versatility and reliability. The new ribbon splicer withstands a drop test of up to 30" and continues to splice, while the enhanced, robust features enable the 60R to resist shock, dust, and rain so that unfortunate environmental conditions do not negatively impact productivity. Equipped with a user-friendly interface and precision fixed V-groove, the 60R offers 2 to 12 fiber ribbon splicing, as well as single fiber splicing capability.

FSM-60R Kit Includes: Splicer, Transit Case, AC Adapter, AC Cord, FH-50-12 (pair) Fiber Holders, Video Instruction Manual, Spare Electrodes, Magnifier, USB Cable, and Cooling Tray

PART #	DESCRIPTION	PRICE
S014533	FSM-60R Kit	\$16,500.00
S014534	FSM-60R Kit Plus CT-30 Cleaver and Hot Jacket Stripper	17,900.00
S014563	FSM60R Kit Plus Cleaver, Stripper, Battery, and Charger Cord	18,225.00

ACCESSORIES

PART #	DESCRIPTION	PRICE
S013532	Electrodes for 60R (Pair)	\$75.00
S013828	FH-50-12 12 Fiber Holders (Pair)	240.00
S013820	FH-50-8 8 Fiber Holders (Pair)	240.00
S013812	FH-50-4 4 Fiber Holders (Pair)	240.00

S010532	ASW-02 Aerial Workstation	835.00
S014773	Portable Tripod Workstation Kit	495.00

AFL FSM-18S

The FSM-18S Fusion Splicer is a low cost, fixed V-groove, single fiber fusion splicer with the same robust features offered in other high end models. New features such as automatic tube heater operation, user-selectable clamping method, automated monitor image orientation, and battery charge capability during operation provide the end user a reliable productivity tool. New software is included with each splicer and provides the user with the ability to download splice data to a PC for splice data reporting and download splicer operating software via the Internet to maintain peak performance.

Ruggedized Case Also Acts as a Workstation for Splicing

30"

Withstands up to 30" Drop Test

FSM-18S Kit Includes: Splicer, Transit Case, AC Adapter, AC Cord, Video Instruction Manual, Spare Electrodes, Sheath Clamp, USB Cable, and Cooling Tray

AFL SPLICEMATE

AFL Telecommunications offers the most extensive and complete line of fusion splicers and related equipment for field splicing and factory/laboratory use. Our Fujikura splicers are the most widely used in the world, and known for their performance, productivity and reliability. The SpliceMate™, the world's smallest and most portable fusion splicer, is smart and reliable enough to be used with confidence by inexperienced operators.

FSM-11S

FSM-11S Kit Includes: Splicer, Transit Case, Battery, 250µm Fiber Holders, Battery Charger, Operation Manual, Spare Electrodes (Pair), AC Adapter, and AC Power Cord

Hand-Held

FEATURES

- Highly Portable (4.33"W x 3.14"D x 3.94"H)
- Dual Camera Inspection
- Auto Arc Calibration
- 3.5" Monitor
- Cladding Alignment
- Perfect for use with Splice-On Connectors

S178A
Fusion Splicer

FITEL S178A SPLICER

The FITEL® S178 Hand-Held Core-Alignment Fusion Splicer is the latest, state-of-the-art addition to the S17x series of splicers. By combining speed, precision, durability and portability in one unit, the S178 Fusion Splicer ushers in an entirely new range of applications for core alignment splicing.

The S178A is equipped with a new alignment system that can reduce the splicing time by up to 20%. In addition, the improved heating mechanism also reduces the protection sleeve shrink time by more than 30% and the newly incorporated USB 2.0 interface speeds up PC communication and image/video transfer, while enhancing reliability.

Constructed to Resist Everyday Drops

Compatible with Splice on Connectors

FEATURES

- Rugged and compact handheld design
- Fast splice (7 sec) and Fast Heating (25 sec)
- 200 cycles (Splicing & Heating)
- Available for All METRO/LAN/FTTx fibers including ultra bend-insensitive fibers
- Easy maintenance
- Easy Software upgrade via the internet
- Easily exchanged fiber holder systems
- PC interface software
- Auto-start shrink sleeve oven
- Improved GUI to further enhance ease-of-use
- Large memory - 3,000 splice data and image 100 images
- Perfect for use with Splice-On Connectors

S178 Basic Kit Includes: S178A Main Body, S325A Precision Cleaver, Hard Case, Spare Electrodes, AC Adapter for S178, Electrode Cleaning Disc, Cleaning Brush, Fiber Stripper and User Manual.

PART #	DESCRIPTION	PRICE
S178-BK-XX	Basic Kit	\$14,600.00
S178-VK-XX	Value Kit – Includes: Basic Kit items plus Battery, AC Adapter Battery Charger, fiber preparation fluid and dry wipes	14,799.00
S178-EX-XX	Extended Kit – Includes: Value Kit items plus extra battery	14,950.00
S178-EX-900	ValueKit Plus - Extra Battery, 250µm + 900µm holders	15,600.00

To select holder type replace "XX" with "10" for 10mm fiber clamps, "250" for 250µm fiber holders or "900" for 900µm fiber holders (Example – S178-BK-250 = Value kit w/ 250µm fiber holders)

FITEL S123C/S123M12 SPLICER

With its super low profile and new user interface, the FITEL S123 Series offers next generation workability for every splicing field: FTTx, LAN, backbone or long-haul installations. Combining the portability, power, flexibility and field ruggedness of FITEL's previous units, the S123 delivers fast and consistent splicing with outstanding mobility and ease-of-use.

FEATURES:

- 13 Second Splice in High-Speed Mode
- High-End Performance with Super-Low Cost
- Uses Fiber Holding System
- Built in Shrink Oven
- Perfect for use with Splice-On Connectors

S123C
Low Profile Splicer

S123 M12 on Tripod

FITEC S153A SPLICER

The FITEC® S153 Fusion Splicer uses new Active V-Groove Technology to deliver low loss splices while helping to eliminate common Fixed V-groove splicing errors. Equipped with a new alignment system that can save up to 20% on splicing time, the S153 splicer's improved heating mechanism can also reduce protection sleeve shrink time by more than 30%. In addition, a newly incorporated USB 2.0 interface speeds PC communication and image/video transfer, while enhancing reliability.

S153A Basic Kits Includes: Splicer Main Body, 250µm Fiber Holders, 900µm Fiber Holders, AC Adaptor for S153, AC Adaptor for S958B, Battery for S153 (Qty 2), Battery Charger, Spare Electrodes, Hard Carrying Case, V-groove Cleaning Brush, User's Manual, Electrode Cleaning Disk, Fiber Stripper, One-Step High Precision Cleaver, Fiber Prep Fluid and Fiber Wipes.

PART #	DESCRIPTION	PRICE
S153A-BK-250	Basic Kit with 250µm Fiber Holders	\$9,100.00

 Technology

FEATURES

- Fast Splice Time – 9 seconds (Typical)
- Removable fiber holders for easy fiber handling
- 4.3" Color Touch Screen
- Dual Protection Sleeve Oven
- Up to 250 Splice/Heat cycles per battery charge
- Perfect for use with Splice-On Connectors with Metal SOC Holder

DID YOU KNOW

Fusion Splicing

Core Alignment Splicers use multiple cameras to inspect the two cleaved fibers before fusing and allows for multiple axis movement of the fibers for precise alignment and a typical loss of 0.02dB. This precision is necessary for all singlemode fiber applications and provides the best performance on multimode fiber. Clad Alignment Splicers also have multiple cameras but only allow for single axis movement of the fiber and alignment is aided by a fixed V-groove. The typical loss for this type of splice is 0.05dB. As this is not a precision method, it is best suited for multimode applications.

Built-in Splice Oven

Splicer also includes FIS Lynx Precision Cleaver

Splice Monitor w/ Slide-In Storage Protection

FIS SUPER COUGAR

The New Super Cougar core alignment fusion splicer has been designed to provide advanced features such as 4.3" touch screen and dual splice sleeve oven while delivering low loss fusion splices for even the most critical applications. Each feature of the Super Cougar has been designed with the user in mind, from its removable fiber holders to its fast splice time, making it an industry best value and one of the most user friendly units in the industry. Compatible with the Cheetah Splice On Connector, this fusion splicer is perfect from the premise to long haul OSP.

FIS Super Cougar Kit Includes: Splicer, Charger, Lynx Precision Cleaver, Mini Cleaning Kit, Carry Case, Electrodes, Fiber Optic Stripper, Brush and Manual.

FIS LYNX™ PRECISION CLEAVER

The LYNX provides clean, accurate cleaves required for fusion splicing. LYNX is also ideal for preparing fiber for quick-term style connectors such as Bobtails, UNICAMs and other pre-polished connectors. LYNX features a cleave angle of 90 degrees +/- 0.5 degrees. Its 16-position blade provides approximately 48,000 cleaves. LYNX cleaves single fibers (250-900µm). The LYNX Precision Cleaver can be used alone or mounted to an optional Work Tray that includes a goose neck LED.

CT-10A

CT-30A

AFL CLEAVERS

The CT-30 Cleaver sets the standard for portability, reliability and ease of use. Available for either single fiber or ribbon splicing (up to 12 fiber ribbons) applications. The rugged, yet scaled-down design of the CT-10A cleaver offers cleave quality approaching that of the more expensive high precision cleavers but at a more economical price. The 16-position blade in each cleaver offers long life and performs cleaving in one single step.

PART #	DESCRIPTION	PRICE
S014080	CT-30A Cleaver	\$1,090.00
S014076	CT-30 Ribbon Cleaver	1,036.00
S014784	CT-10A Cleaver	733.35
S014819	Replacement Blade for CT-10A	251.60
S012828	Replacement Blade for CT-20/30 Series	92.50
S006244	AFL Cleaver Blade for CT07, CT100B & CT80B	140.00
S014096	AD-30A Adapter Plate (for variable length cleaving with the CT-30)	92.50
S014100	AD-30B Adapter Plate (for 16mm fixed cleave length with the CT-30)	92.50

FITEL PRECISION CLEAVER

The Fitel S325A precision cleaver solves the dilemma of stray fibers with a unique disposal system incorporated into the design. The automatic cleave function provides constant cleaving pressure and improves cleave quality. The cutting blade locks into place after scoring, preventing double scoring. Also can be used to cleave ribbon fiber.

PART #	DESCRIPTION	PRICE
S325A	Cleaver	\$1,090.00
S32310	Replacement Blade	220.00

S325A

F1-6000

F1-0010

FIELD CLEAVERS

Choose from these three cleavers, suitable for use with quick-term connectors and optimal for mechanical splicing. Each cleaver provides a guide for variable cleave lengths from 5-20mm. The blades will perform over 6,000 cleaves before replacement is necessary. The score and snap function is easy to use and preferred by many installers. **Note: No Export Available for F1-0010 and CL008**

PART #	DESCRIPTION	PRICE
F1-6000	FIS Cleaver	\$139.00
F1-0010	FITEL Cleaver	185.00
S315X02	Replacement Leaf Spring (suitable for all three cleavers)	60.00
F1-60CBL	FIS Replacement Blade (Carbide) Suitable for both cleavers	25.00
F1-60DBL	FIS Replacement Blade (Diamond)	60.00
CL008	FITEL Replacement Blade (Carbide) suitable for all three cleavers	60.00

S014492

FEATURES

- Field Installable
- Only Four Components
- No Adhesives, Crimping or Polishing
- MM Compliant to TIA/EIA568C.3
- Compatible with Most Fusion Splicers

FEATURES

- Simple, Fast, & Consistent Field Termination
- Applicable for Interconnection Needing High Reliability
- Available In FC, SC or PC, APC Types
- Complies with Telcordia GR-326-CORE

**900µm Versions
Also Available**

AFL FUSECONNECT™

FuseConnect utilizes a fusion splicer to terminate a connector in the field, addressing return loss concerns present in analog optical networks. This advanced process yields true APC performance of >65dB return loss in an SC/APC configuration. Designed to work with an industry standard 10mm cleave length and splicers utilizing a fiber holder system, FuseConnect is compatible not only with Fujikura's fusion splicers, but also with most other industry available, fiber holder-based fusion splicing platforms.

PART #	DESCRIPTION	PRICE

S014492	Installation Kit for: FSM-17, 17R, 18, 18R, 50R, 60S, and 60R	995.00

NOTE: Use AFL Splicers with Fiber Holders for FuseConnect and Installation kit is recommended for best performance

FITEl SPLICE-ON CONNECTORS

FITEl's connector termination system allows for unsurpassed performance and flexibility in the field. The new "splice-on" connector (SOC) eliminates the need for field polishing and significantly improves the quality of the termination. FITEl's factory polished ferrules with pre-cleaved fiber stubs are spliced onto the field fiber utilizing FITEl's proprietary ferrule holder and fusion splicer. The connector is easily assembled by using a process that requires minimal skill or training. These connectors are optimal for use in data center applications and allow for easy field repair of pre-terminated splitters, fan outs, and drop terminals. Additionally, the FITEl SOC system requires no polishing or epoxy, increasing the quality and consistency of field connector termination. Total installation time is greatly reduced compared to traditional methods. Both singlemode and multi-mode versions are available.

Terminations in Less than 3 Minutes!

FIS CHEETAH SOC™

The FIS Cheetah SOC is the quickest pre-polished factory terminated pigtail to prepare, splice and install. The Cheetah's 27mm splice protection sleeve is encapsulated and protected by the strain relief boot eliminating the need for splice trays, chips and extra cabinets. When used with the required universal holder it allows for the SOC to be used within a variety of fiber optic fusion splicers.

Each Vial Includes: Connector, Cleave Protector, Extended Dust Cap, 900µm Boot, and Fusion Splice Sleeve (each package contains 6 vials).

MECHANICAL SPLICES

LOCK JAW

These mechanical splices hold fiber with a self-gripping clamshell design. These unique splices also allow for the optional use of cyanoacrylate adhesive (e.g. Super Glue) to achieve a superior pull strength of 1.5 lbs. The splices fit into any mechanical splice style splice tray, accommodate 125µm clad fiber (singlemode or multimode) and have a typical loss of .2dB. The splices are also available in our new FIS Mechanical Splice Kit that includes 6 FIS Mechanical Splices, Jacket/Buffer Stripper, Field Cleaver, Adhesive, Optic Prep Wipes and Instructions.

Pull strength 1.5lbs with adhesive.

F1-MC125

PART #	DESCRIPTION	PRICE
F1-MC125	Splice for 125µm Clad Fiber SM or MM	\$2.95
F1-MC1255K	Splice Kit - (6) splices, cleaver, adhesive, cleaner & strip tool	139.00

3M FIBRLOK II

The Fibrlok has an insertion loss <.2dB with a fiber retention of >7.75 lbs. Known for low reflection characteristics of -35dB. Using V groove technology, it requires no epoxy. Uses Fibrlok assembly tool 2501. Splice completed in 30 seconds after preparing fiber ends. Thermal stability of -40°C to 80°C. Now Fibrloks fit 250-900µm buffer sizes. **Note: 2539 does not require 2501 tool for assembly.**

PART #	DESCRIPTION	PRICE
2539	Splice and Holder with Built-in Actuator (250µm or 900µm)	\$10.30
2529	FIBRLOK II (250µm or 900µm)	7.95
2501	Assembly Tool (For use w/2529)	65.95

CAMSPlice

This easy to install one size fits all mechanical splice features "Cam" locking mechanism, which requires no adhesive. The CamSplice incorporates a unique alignment method that self centers fibers, providing accurate alignment. Splice losses of less than 0.5dB are consistently achievable. Fits 250/250µm, 250/900µm and 900/900µm.

ELASTOMERIC LAB SPLICE

The improved FIS Elastomeric Lab Splice is ideal for making temporary fiber connections and can be reused hundreds of times. To use splice for instrument testing, simply insert a cleaved pigtail from OTDR or Power Meter and the cleaved unconnectorized fiber to be tested. Excellent for both multimode and singlemode fiber, the splice accepts fiber cladding diameters of 125µm to 140µm. The Lab Splices are supplied in blister packs of 6 (containing one of each color: pink, peach, yellow, green, blue and purple) or 12 (containing 2 of each color).

LBSHLDR	Holder	167.00

ULTRASPLICE®

The ULTRAsplice® is a high performance, easy to install, tunable and reusable mechanical splice. One splice accepts any combination of buffer sizes from 250µm-900µm. Average loss is less than .2dB with a fiber retention of over 2 lbs. Installation is simple: Cleave and insert the fibers, while checking fiber location in the glass capillary, secure by twisting a locking nut. US-126 is IBM #33G8228, US-128 is IBM #33G8227. Meets and exceeds Telcordia specifications.

S218-R

FITEL HOT JACKET RIBBON STRIPPER

The Fitel Hot Ribbon Stripper applies controlled heat to fibers/ribbons during stripping to reduce stripping force required and prevent fiber damage. Heats up in 13 sec. Includes Batteries, AC/DC Adapter.

Fiber Holders not included.

PART #	DESCRIPTION	PRICE
S218-R	Fitel Hot Ribbon Stripper (fiber holders not included)	\$1,450.00
S218X-02A	Power Cord (Connects Stripper to Fitel Splicer)	175.45
S218X-03	Single Fiber Adapter (For Use without Holders)	180.00
S709A-012	12-Ribbon Fiber Holders (Pair)	500.00

FIS BUCKET BUDDY

One of the most difficult locations from which to splice fiber optic cables is in an aerial closure where field technicians must perform a splice from an aerial bucket truck in a splicing closure suspended 15 – 30 feet from the ground. Technicians are faced with the challenge of securing the splicing machine or test equipment in a manner that facilitates a safe and easy fiber optic splice. The Bucket Buddy is unique in that its shape allows it to easily slide over the "lip" of the bucket on basically any aerial bucket truck, and it will remain in place, attached securely to the bucket itself, to provide technicians a workstation attached to the bucket with which they can perform fiber splices, tests, or terminate drops.

PART #	DESCRIPTION	PRICE
F1-AerialBB	Aerial Fusion Splicer Workstation (Fits up to 3" Bucket Lip)	\$350.00

TACTICAL CABLE

FIS Blue Broadcast/Tactical Cable consists of a polyurethane outer jacket with your choice of 2, 4, 6 or twelve 900µm tight buffers surrounded by aramid yarn and an aramid ripcord. Polyurethane jacket makes the cable highly flexible and rugged, so it can also be used in direct burial applications. Tactical fiber optic cables are designed for harsh outdoor environments where maximum performance and reliability is essential.

F1-18SPOOL

Fiber Instrument Sales, Inc. (FIS) is able to provide UL approved and RoHS custom manufactured fiber optic cable. These cables are available in a variety of standard configurations as well as custom built to your specifications. Standard fiber optic cable including simplex, duplex and multifiber styles are in stock for quick delivery. In addition, our extrusion machines are capable of manufacturing fiber optic cable with different jacket colors, coating diameters, fiber counts, tight buffer diameters, jacket materials and more. To request additional information regarding TLC cable, call your FIS sales representative today! Please note: Cable is printed with only core/clad, fiber length and UL markings.

CABLE BUYING GUIDELINES

1. Allowable cable length for shipping and billing is -0/+10%.
2. Cut fees will apply on simplex and duplex cable orders less than 305 meters (1,000 ft.). \$10 each cut/spool.
3. Specialty cut and hand coiled fees will apply on multiple simplex and duplex bulk cable orders, \$5 each.
4. Cut fees will apply on multifiber bulk cable orders less than 100 meters (328 ft.) \$20 each cut/spool.
5. Cut charges do not apply when cable reels that are in stock are offered and accepted.

THREE-PIECE SPOOL

The three-piece spool features plastic flanges bolted to a kraft barrel, creating a durable, dimensionally true and splinter-free reel. Flange diameter is 18" while the barrel diameter 8.25", making it perfect for bulk cable or long assemblies.

DID YOU KNOW

10 GIG, ClearCurve® & BEYOND

TLC's Gigabit Cables are designed with Corning® InfiniCor® ClearCurve® Laser-Optimized™ Optical Fiber, engineered specifically for laser-based local area network protocols such as Gigabit Ethernet. Singlemode fibers are Corning® SMF-28e+®, ClearCurve® ZBL and ClearCurve® XB optical fibers. TLC will also customize materials and constructions to meet your individual requirements.

Fiber-to-the-Home and Desk (FTTx) applications have resulted in the creation of several new grades of multimode fiber. The use of Gigabit and 10 Gig fibers can help future proof your network. New Bend Insensitive fibers are also becoming very popular. These fibers can be bent down to very small diameters without affecting the optical signal. FTTx applications use bend insensitive fiber because of its ease and flexibility of installation.

What is OM1, OM2, OM3 & OM4 MULTIMODE CABLE?

FIBER TYPE	STANDARD DESIGNATION	JACKET COLOR (typical)	MAXIMUM ATTENUATION (dB/km)		TRANSMISSION DISTANCE FOR (in meters)		MINIMAL MODAL BANDWIDTH (MHz/km)	
			850nm	1300nm	1 Gb/s	10 Gb/s	OVERFILLED LAUNCH 850nm	OVERFILLED LAUNCH 1300nm
62.5/125	OM1	Orange	3.5	1.5	300	30	200	500
50/125	OM2	Orange	3.5	1.5	600	150	500	500
50/125	OM3	Aqua	3.5	1.5	1,000	300	1500	500
50/125	OM4	Aqua/Magenta	3.5	1.5	1,110	550	3500	500

Corning® ClearCurve®

ClearCurve® fibers are fully compliant with ITU-T G.652.D and G.657 standards. These fibers are designed to meet a wide array of applications including both inside and outside plant installations. Network designers, operators, and installers choose ClearCurve® fibers for their superior bending performance, backward compatibility with the G.652.D standard and their ability to minimize bend-loss throughout any installation. Use the chart, right, to aid in selecting the right ClearCurve® fiber for your application.

ClearCurve® Singlemode	Application	ITU-T	Radius	Corning Spec
ClearCurve® ZBL singlemode fiber - Ultra low bend loss	<ul style="list-style-type: none"> Virtually no bend-loss in most indoor applications Very low loss in extreme (5mm) bend environments Enables smaller components and flexible yet reliable networks 	Exceeds G. 657.A3*/B3	5 mm	< 0.10 dB/turn
			7.5 mm	< 0.05 dB/turn
ClearCurve® XB singlemode fiber - Enhanced bend capability	<ul style="list-style-type: none"> Improved performance vs. standard singlemode fiber Appropriate for outside plant and some high-fiber count and tight buffer indoor applications Enables a broader range of cable design options and deployment flexibility 	Exceeds G. 657.A1	10 mm	< 0.50 dB/turn

Corning® BARE FIBER (245µm)

For high-data-rate, long haul terrestrial, regional and metropolitan ring networks or local access and premise applications. Corning® offers fibers that are designed for greater capacity and flexibility. Respooling capabilities are available. There is a respooling charge of 5¢ per meter for lengths over 2,000 meters. Any length under 2,000 meters will incur a minimum spooling charge of \$10.00.

CORNING®
Optical Fiber

DISTRIBUTION CABLE

Distribution Cable (compact building cable) packages individual 900µm buffered fiber, reducing size and cost when compared to breakout cable. The connectors may be installed directly on the 900µm buffered fiber at the breakout box location. The space saving (OFNR) rated cable may be installed wherever breakout cable is used.

INDOOR/OUTDOOR CABLE

FIS offers indoor/outdoor cable in a distribution construction in both Riser and Plenum. These cables are flexible, easy to handle and simple to install. Since they do not use gel, the connectors can be terminated directly onto the 900µm fiber without breakout kits. This provides an easy and overall less expensive installation.

Note: When used in a burial application this cable must be placed in a conduit or innerduct and is not recommended for lashing applications.

Fan-Out Kits See Pg. 77

FIBER OPTIC CABLE OUTDOOR

TLC DRY CENTRAL TUBE CABLE

TLC outside plant (OSP) fiber optic cables are of a rugged construction designed to withstand the harsh environment associated with outside installation and operation. The black PE jacket protects against harsh UV rays and water conditions. TLC's exclusive dry block technology allows these cables to be fully protected in the event of water penetration and with no gel, these cables are extremely quick and easy to terminate in the field. **Note: When used in burial applications this cable must be placed in a conduit or innerduct and is not recommended for lashing applications.**

TIGHT-BUFFERED ARMORED CABLE

Armored cable can be used for rodent protection in direct burial if required. This cable is non-gel filled and can also be used in aerial applications. The armor can be removed leaving the inner cable suitable for any indoor/outdoor use. (Temperature rating -40°C to +85°C) Additional configurations available.

TLC GEL FREE INDOOR/OUTDOOR CABLE

This cable has no gel fill to complicate the connectorization process. Instead, water swellable yarn replaces the gel. Each tube contains colored bare fibers, making your installation simple and fast. Available in 2 to 72 fibers. Fiber counts 2-12 are in one subunit and larger fiber counts are in separate subunits in multiples of 12. Jackets are available in Riser and Plenum. The FIS Fan Out Kits are a perfect match with this cable.

Corning® CABLE SYSTEMS FREEDM® LST™ CABLE

Corning® Cable Systems FREEDM® LST™ cables are OFNR-rated, UV-resistant, fully water blocked indoor/outdoor cables. This Gel-free design is fully water blocked using water swellable yarns, making cable access and use of buffer tube fan-out kits simple. Available in 62.5µm, 50µm, singlemode and hybrid versions.

PART #	FIBER COUNT	DESCRIPTION	PRICE
012ESF-T4101A20	12	SM 9/125µm	\$1.35 /Mtr.
006KSF-T4130D20	6	MM 62.5/125µm	2.80 /Mtr.
012KSF-T4130D20	12	MM 62.5/125µm	4.70 /Mtr.

COMMScope OSP DROP CABLE

FIS carries CommScope armored outside plant cable. The cable is for buried, underground and aerial applications. It uses Arid-Core® water blocking technology that helps to protect fibers from moisture and reduces termination effort. The medium density polyethylene jacket is rugged, durable and easy to strip. This is the same cable used to construct the FIS Node Cables.

PART #	FIBER COUNT	DESCRIPTION	CABLE DIA.	PRICE
0006DA8WF06NS/BP	6	Central LT Armored SM with ripcord	8.1mm	\$1.00/mtr
0012DA8WF12NS/BP	12	Central LT Armored SM with Ripcord	8.1mm	1.25/mtr

AFL Mini-Span® ADSS CABLE

AFL Mini-Span® All-Dielectric Self-Supporting (ADSS) cable is designed for outside plant aerial and duct applications in local and campus network loop architectures. A separate messenger support wire hanging system is not required, greatly reducing installation time and improving upfront and maintenance labor costs. Mini-Span® single-mode and laser-optimized multimode fibers are available.

PART #	FIBER COUNT	DESCRIPTION	PRICE
AE-00696C520-AA4	6	SM Mini-Span® 424	\$1.75 /Mtr.

Corning® CABLE SYSTEMS DROP CABLES

SST-Drop™ Cables offer the ease of installation of standard ALTOS® cable in an easy-access stranded single-tube (SST) design. Intended for FTTH networks, bridging the space between distribution network and subscriber premise.

PART #	FIBER COUNT	DESCRIPTION	PRICE
001-EB4-14101A20	1	SM 9/125µm SST Drop™ Cable	50¢ /Mtr.
002-EB4-14101A20	2	SM 9/125µm SST Drop™ Cable	60¢ /Mtr.
004-EB4-14101A20	4	SM 9/125µm SST Drop™ Cable	65¢ /Mtr.

FURCATION TUBE

OTHER COLORS AVAILABLE

Key Features Include:

- Designed to terminate to a wide range of connector styles.
- Accommodates bare or tight buffered fibers.
- Provides durable fiber protection and emulates standard simplex and duplex cable.
- Consists of an inner tube surrounded by aramid fibers and a PVC jacket.
- 12 standard colors for easy identification.

RIBBON FURCATION TUBE

FIS offers ribbon furcation tubing for protection of bare ribbon fibers. Standard size fits fiber counts of 4, 6, 8 and 12 fibers. There is no inner tube or strength member.

PART #	DESCRIPTION	PRICE
F00-FRRB-NRO	Orange	75¢ /Mtr.
F00-FRRB-NRY	Yellow	75¢ /Mtr.
F00-FRRB-NRA	Aqua	75¢ /Mtr.

900µm FURCATION TUBE (ACCEPTS 250µm)

This 900µm furcation tube accepts 250µm diameter coated fiber. Standard material is Hytrel and other colors are available.

PART #	DESCRIPTION	PRICE
F00-FR900R-CLEAR	Clear	50¢ /Mtr.
F00-FR900-HN	Opaque	50¢ /Mtr.
F00-FR900-HW	White	50¢ /Mtr.
F00-FR900-HY	Yellow	50¢ /Mtr.
F00-FR900-HO	Orange	50¢ /Mtr.
F00-FR900-HA	Aqua	50¢ /Mtr.

2.0mm FURCATION TUBE (ACCEPTS 250µm)

Our 2.0mm furcation tubing has an inner tube surrounded by aramid fibers. The inner tube accepts 250µm bare fiber. Other colors available.

PART #	DESCRIPTION	PRICE
F00-FR2NUO-900	Orange	50¢ /Mtr.
F00-FR2NUY-900	Yellow	50¢ /Mtr.
F00-FR2NUA-900	Aqua	50¢ /Mtr.

2.0mm FURCATION TUBE (ACCEPTS 900µm)

Our 2.0mm furcation tubing has an inner tube surrounded by aramid fibers. The inner tube diameter is 1.5mm(OD) and accepts 900µm tight buffer. Other colors available.

PART #	DESCRIPTION	PRICE
F00-FR2-NUO	Orange	50¢ /Mtr.
F00-FR2-NUY	Yellow	50¢ /Mtr.
F00-FR2-NUR	Red	50¢ /Mtr.
F00-FR2-NRB	Blue	50¢ /Mtr.
F00-FR2-NUG	Green	50¢ /Mtr.
F00-FR2-NUA	Aqua	50¢ /Mtr.

2.0mm DUPLEX FURCATION TUBE (ACCEPTS 250µm)

TLC 2.0mm duplex furcation tubing consists of an inner tube surrounded by aramid fibers, and a PVC jacket sized for the industry standard connectors. The duplex design allows for professional termination of connector pairs.

PART #	DESCRIPTION	PRICE
F00-FDX2-NUO	Orange	75¢ /Mtr.
F00-FDX2-NUY	Yellow	75¢ /Mtr.
F00-FDX2-NUA	Aqua	75¢ /Mtr.

3.0mm FURCATION TUBE (ACCEPTS 250µm)

Our 3.0mm furcation tube has an inner hollow tube with a pull string and will receive a 250µm buffered fiber. Includes aramid yarn strength member. Other colors available.

PART #	DESCRIPTION	PRICE
F00-FR3NUY-900	Yellow	50¢ /Mtr.
F00-FR3NUO-900	Orange	50¢ /Mtr.
F00-FR3NUA-900	Aqua	50¢ /Mtr.

3.0mm FURCATION TUBE (ACCEPTS 900µm)

The same tube found in FIS Universal Breakout Kits may now be purchased separately. The inner hollow tube will receive up to a 900µm buffered fiber. Includes aramid yarn strength member. Other colors available.

PART #	DESCRIPTION	PRICE
F00-FR3-NUO	Orange	50¢ /Mtr.
F00-FR3-NUY	Yellow	50¢ /Mtr.
F00-FR3-NUR	Red	50¢ /Mtr.
F00-FR3-NUB	Blue	50¢ /Mtr.
F00-FR3-NUG	Green	50¢ /Mtr.
F00-FR3-NUA	Aqua	50¢ /Mtr.

3.0mm DUPLEX FURCATION TUBE (ACCEPTS 900µm)

TLC 3.0mm duplex furcation tubing consists of an inner tube surrounded by aramid fibers, and a PVC jacket sized for the industry standard connectors. The duplex design allows for professional termination of connector pairs. For 900µm Buffers.

PART #	DESCRIPTION	PRICE
F00-FDX3-NUO	Orange	75¢ /Mtr.
F00-FDX3-NUY	Yellow	75¢ /Mtr.
F00-FDX3-NUG	Green	75¢ /Mtr.
F00-FDX3-NUA	Aqua	75¢ /Mtr.

BUFFER TUBE/RIBBON FAN-OUT KITS

CORNING

CCS BUFFER TUBE FAN-OUT KITS

CCS Indoor and Outdoor Buffer Tube Fan-Out Kits provide the ultimate solution for the field installation of connectors for the termination of 6- and 12-fiber buffer tubes. Ideal for indoor or outdoor crossconnects, these kits provide the most compact, easy-to-install fan-out solution. The compact design requires no additional hardware. The 900µm fan-out assembly is color coded to match the fiber color scheme and is available in 6- or 12-fiber units in lengths of 25, 36 or 47 inches. For instructions: <http://www.corning.com/cablesystems/>

PART #	DESCRIPTION	PRICE
FAN-BT25-06	6 Fiber (25" Tubing)	\$14.25
FAN-BT36-06	6 Fiber (36" Tubing)	14.50
FAN-BT25-12	12 Fiber (25" Tubing)	16.30
FAN-BT36-12	12 Fiber (36" Tubing)	16.95

CCS SPIDER FAN-OUT KITS

Corning® Cable Systems' Spider Fan-Out Kits are designed for both factory or field terminations of distribution or loose tube cables from 4 to 24 fibers. The fan-out tubing provides three layers of protection consisting of a Teflon inner tube, a dielectric strength member and an outer protective PVC jacket. For instructions: <http://www.corning.com/cablesystems/>

PART #	DESCRIPTION	PRICE
SFK-P06-250M	6 Fiber accepts 250µm (Orange)	\$40.00
SFK-P12-250M	12 Fiber accepts 250µm (Orange)	55.00
SFK-P24-250M	24 Fiber accepts 250µm (Orange)	96.25
SFK-P06-250S	6 Fiber accepts 250µm (Yellow)	45.00
SFK-P12-250S	12 Fiber accepts 250µm (Yellow)	68.00
SFK-P24-250S	24 Fiber accepts 250µm (Yellow)	110.00
SFK-P06-900M	6 Fiber accepts 900µm (Orange)	40.00
SFK-P06-900S	6 Fiber accepts 900µm (Yellow)	40.00

RIBBON FAN-OUT KITS

Corning® Cable Systems' Ribbon Fan-Out Kits are specifically designed for the termination of 12-fiber ribbon. Perfect for users who want to field-install connectors. Kits feature a 900µm fan-out assembly that is color-coded to match the industry-standard color code. For instructions: <http://www.corning.com/cablesystems/>

PART #	DESCRIPTION	PRICE
RIB-FAN-1225	12 Ribbon Fiber (25" Tubing)	\$25.00
RIB-FAN-1236	12 Ribbon Fiber Fan-Out kit (36" Tubing)	28.00

FIS UNIVERSAL BREAKOUT KITS

The ability to connectorize loose tube fiber requires the installation of a 3mm jacket over the 250µm coated fiber. The jacket, or furcation tube, contains an inner pull string for easy installation. This low-cost Universal Breakout Kit provides directions and materials to prepare cable ends for connectorization. Kit includes: 25 meters of 3mm furcation tubing, 2 sizes of black shrink tube (13mm and 26mm diameter), 2 gel remover packets, 2 two gram Hysol Epoxy packs, 8 pcs. adhesive shrink tube and 12 pcs. clear shrink tube.

PART #	DESCRIPTION	PRICE
F1-5527	Orange Furcation Tube for Multimode	\$39.95
F1-5528	Yellow Furcation Tube for Singlemode	39.95

FIS BUFFER TUBE/RIBBON FAN-OUT KITS

FIS Fan-Out Kits are designed for a simple and easy breakout from standard Buffer Tubes or Ribbon Cables. The kits are pre-configured for 4, 6 and 12 fiber applications with 25" and 36" lengths of 900µm Hytrel tubing in the appropriate industry-standard color code. FIS Fan-Out Kits have a unique snap-together design that offers the ability to unsnap the unit for reentry if necessary. Each kit comes with the adapters that accommodate round cable configurations, such as Buffer Tubes and Ribbon Cables. This cost-saving feature allows you to cover your application possibilities with just one style.

PART #	DESCRIPTION	PRICE
F1-BF0425M	4 Fiber (25" Tubing) Accepts 250µm	\$9.75
F1-BF0625M	6 Fiber (25" Tubing) Accepts 250µm	10.50

Buffer Tubes

FIS COLOR CODED BREAKOUT KITS

The FIS 2mm and 3mm Breakout Kits are designed for the quick and simple termination of distribution cables. Color coded tubing eliminates the need for marking individual fiber ends, as your cable will be color coded to TIA/EIA standards. Testing and installation time is also reduced. Custom Colors Available.

INNERDUCT

Fiber Instrument Sales' Innerduct product line consists of corrugated HDPE, riser rated PVC and plenum rated PVDF Innerduct in a variety of colors and sizes. A full line of fittings and accessories that complement the product line are available as well. The plenum and riser product lines are both UL 2024 listed and are among the most flexible flame-rated Innerduct products on the market. The HDPE outside plant products offer high tensile strength while being impervious to abrasion, scouring and root penetration. **Innerduct available in 250 and 500 foot coils.**

FIS BOBTAIL™ NO-POLISH CONNECTOR

FIS Bobtail Connectors provide a pre-polished, quick termination style connector for an industry leading value. Bobtail's are ideal for many applications including but not limited to local area networks, restoration work, testing applications, and laboratory settings. The open epoxy canal allows application of Crazy Glue, Super Glue or any Cyanoacrylate adhesives. As always, your satisfaction is guaranteed or return the connectors to FIS for a complete refund.

LEVITON FASTCAM CONNECTORS

Field installable connectors from Leviton are designed for applications that require fast network deployment. FASTCAM connectors are prepolished, requiring no polishing or epoxy curing. A precision mechanical termination uses molded V-groove technology to retain and align the fiber. Terminate on 250µm/900µm buffered fiber and/or 2mm or 3mm jacketed cables.

3M™ HOT MELT

3M Hot Melts continue to be a popular choice among installers in the field. The Hot Melt connectors utilize an advanced adhesive technology eliminating the application of epoxy. The connectors provide quick termination in 2 minutes or less and are re-heatable to allow for fiber repositioning.

Fiber polishing required with Hot Melt Connectors.

3M™ CRIMPLOK+™ SINGLEMODE CONNECTORS & TOOL KIT

These new connectors from 3M provide fast, easy field installation of 900µm singlemode fiber without a splice, gel or adhesive. Features a metallic element that mechanically locks the fiber in place and a streamlined boot that attaches to the body minimizing the chance of losing or forgetting to install it during the termination process. The Crimplok+ connectors and tools are RoHS compliant.

3M™ CRIMPLOK™ CONNECTORS & TOOL KIT

Crimplok™ connectors combine the speed of non-adhesive connectors with the performance characteristics of epoxy and Hot Melt Connectors. Crimploks are the ideal solution when there is no power source or for working in tight workspaces. The Crimplok™ Termination Kit is designed to terminate your Crimplok ST and SC fiber optic singlemode and multimode connectors.

LC CONNECTORS

The LC connector licensed by Lucent Technologies provides a pull-proof design and small size perfect for high-density applications. Available in simplex or duplex versions. The LC connector is provided with a 1.25mm zirconia ferrule. The LC also incorporates a unique latching mechanism providing stability in system rack mounts.

STANDARD CONNECTORS

ST CONNECTORS

The ST connector utilizes a bayonet twist-lock connection with 2.5mm ferrule. Available in singlemode and multimode, the ST connector features reliable and durable field installation. The design of the ST connector enables installers to crimp the back of the body directly onto the cable jacket and Kevlar®. This eliminates cable pull-away, ensuring a strong termination. Upon request, FIS ST connectors can be supplied without FIS markings. Stainless alloy ferrules can be custom drilled.

FC CONNECTORS

FC connectors are specifically designed for telecommunication applications and provide non-optical disconnect performance. Designed with a threaded coupling for durable connections. The ferrule is PC finished to a pre-radius, which ensures low back reflection. Stainless alloy ferrules can be custom drilled to your specifications. All FIS FC connectors use narrow key (2.0mm).

CUSTOM DRILLING SERVICES FROM FIS

FIS offers a fast turnaround on custom micro drilling services. FIS can accommodate almost any fiber size for special applications. We are capable of drilling FC and SC style stainless alloy connectors that range from 250µm to 900µm. ST and SMA style stainless alloy connectors can be drilled up to 1550µm. However we cannot drill to odd sizes or stainless steel ferrules.

When ordering drilled FIS stainless alloy connectors add \$1.50 to list price of any connector drilled up to 900µm and \$2.00 to any connector drilled from 900µm or larger. If a drill bit not listed is required add a \$50 drill charge fee and allow an additional two weeks.

Minimum Order Quantity - Ten connectors.

250µm - 490µm Hole Sizes:		
Hole Size Tolerance		+10µm / -4µm
Concentricity		15µm or less
500µm - 990µm Hole Sizes:		
Hole Size Tolerance		+20µm / -5µm
Concentricity		20µm or less
1000µm - 1550µm Hole Sizes:		
Hole Size Tolerance		+30µm / -10µm
Concentricity		25µm or less

There are many factors that can affect the performance of very small drill bits. Hole sizes below 250µm and above 900µm drilled in-house will be done on a "best effort" basis. However, we cannot guarantee the performance of these parts in your customer's application. FIS recommends that you first order a small sample batch of drilled parts to evaluate for your application.

SPIRAL BOOT

The Spiral Cut Boot is designed for the times when you forget to put the boot on your cable before you terminated a connector. The unique spiral cut allows you to wrap the boot around the cable and then slide it up behind the connector. No need to cut off a good connector because of a forgotten boot. Boot is straight when relaxed.

PART #	DESCRIPTION	PRICE
SPIRALBOOT25	Spiral Cut 3mm Boot 25-Pack	\$12.95

ALIGNMENT SPLIT SLEEVES

Split sleeves are designed to align 2.5mm ferrules with precision. The Phosphor Bronze version provides the precision you require on multimode fiber applications. The split sleeves have an outside diameter of 3.2mm and a length of 11.4mm. **NOT AVAILABLE INDIVIDUALLY**

PART #	DESCRIPTION	PRICE
F1-8300SSC-25	Zirconia Split Sleeve (25 pk.)	\$20.00

Floating Style 1

Threaded Style 2

Flanged Style 3

Square Flanged Style 4

Fiber optic adapters also referred to as mating sleeves, come in a variety of configurations to meet almost any application. The most common constructions are standard, hybrid, and bare fiber adapters.

Standard fiber optic adapters are simplex, duplex and quad structure and are female-to-female type orientation. A hybrid adapter is used to connect different kinds of fiber optic connectors together allowing for the use of existing connector types. Bare fiber adapters are used for emergency use or temporary links. They contain a connector body on one side and a placement for a bare optical fiber on the other. Use the chart to help in the selection of an adapter style for your application.

SC ADAPTER CAPS

The SC dust caps for adapters are easy to misplace and now FIS makes them just as easy to replace! Available in multiple colors, these caps provide eye protection from active lasers and keep most contaminants off the inner split sleeves of adapters or away from plugged in backplane ferrules.

PART #	DESCRIPTION	PRICE
F1-ADCAP-XX	SC Mating Sleeve Adapter Dust Caps - (100 pk.)	\$25.00

REPLACE "xx" WITH CODE BELOW TO SELECT COLOR

LASER SAFETY CAPS

FIS has created a solution to the problem of laser light emitted from fiber optic bulkhead adapters. Our new Laser Safety Caps come with a warning symbol on each to visually alert people to potentially harmful exposure to laser light. Each cap has a built-in metal tile to stop laser light up to +18dBm. They are available for SC, LC, ST and FC style. Replace X with the color desired: BLK=Black, BL=Blue, GR=Green, BE=Beige AQ=Aqua.

PART #	DESCRIPTION	PRICE

MALE - FEMALE ADAPTERS

Note: When purchasing these adapters be aware of the fiber size indicated and match to your application.

SC-SC (MALE-TO-FEMALE) (Singlemode)

Traditionally UPC and APC connectors have been incompatible to mate together due to the air-gap created between the two mating ferrules. This air-gap creates both undesirable high attenuation and high reflection in your network. The FIS M/F UPC-APC adapters allow UPC and APC fiber optic links to be mated together, adding flexibility to your network, while creating less than 1.0dB of Insertion Loss and -50dB of Return Loss. Note: Adding these adapters to an APC fiber optic link will increase your ORL reading to -50dB.

FIS MALE-TO-FEMALE ATTENUATORS

FIS male-to-female attenuators contain doped fiber suitable for both 1310nm and 1550nm operation. Fixed attenuation values are available in 1dB increments from 1 to 20dB. FIS stocks standard 5, 10, 15, 20dB attenuation levels in most styles. **TO SPECIFY ATTENUATION LEVEL REPLACE "XX." With desired attenuation level ex. 01=1dB, 02=2dB etc. 03=3dB, 04=4dB, etc,**

ATTENUATORS - MECHANICAL

F1-0045

FIS CLIP-ON VARIABLE ATTENUATOR

The Clip-On Variable Attenuator is a completely passive device, which works by physical attenuation of a 3mm jacketed singlemode cable. May be used with smaller jacket sizes however, attenuation performance may vary. It can be attached at any point in a cable, providing attenuation levels from 0 to >47dB at 1550nm (0 to >21dB at 1310nm) and low back reflection. Good for hundreds of uses, and leaves no lasting effects on the cable. Dimensions: Length = 1 1/2", Diameter = 3/4"

PART #	DESCRIPTION	PRICE
F1-0045	Clip-On Variable Attenuator	\$49.00

FIS 3-STEP ATTENUATORS

The FIS 3-Step Attenuator is a completely passive device and achieves attenuation by exceeding the recommended bend radius specifications of the fiber cable without introducing back-reflections. This unit is designed for 3mm jacket types and a wavelength of 1310nm, but can also be used with various jacket sizes and wavelengths with varying attenuation levels. Use any combination of the three loops to achieve desired attenuation levels.

PART #	DESCRIPTION	PRICE
F1-10007	3-Step Attenuator 2-7dB (1310nm Singlemode)	\$29.95
F1-10015	3-Step Attenuator 5-15dB (1310nm Singlemode)	29.95
F1-10020	3-Step Attenuator 5-20dB (1310nm Singlemode)	29.95

FIS IN-LINE FIXED ATTENUATORS

The FIS In-Line Fixed Attenuator is built to meet your low reflection attenuation requirements. Each cord is custom built to accommodate up to 10 meters of cable and the connector styles of your choice. The 5dB and 10dB versions hold a +/- .5dB tolerance with the 15dB and 20dB holding a 1dB tolerance. Please specify operating wavelength. The in-line attenuator provides negligible back reflection and is therefore recommended for use with UPC or APC style patchcords.

PART #	DESCRIPTION	PRICE
F1-ATS + 5dB or 10dB	In-line Attenuator	patchcord price + \$39.00
F1-ATS + 15dB or 20dB	In-line Attenuator	patchcord price + 49.00

F1-10015

F1-0031-40C

VARIABLE ATTENUATORS

This Variable Attenuator uses collimator lens technology enabling the user to change attenuation through the twist of a top-mounted screw. Use this variable attenuator to simulate the loss in a fiber system or testing your system's dynamic range. A power meter and light source can be used to determine the fixed attenuation value your system requires. The attenuator has a 0.8dB typical insertion loss and is available in a 2 meter length and may be connectorized. A low back reflection style is prepared with ultra PC connectors maintaining the internal low back reflection characteristics. Attenuation range: 0.8dB to 60dB.

PART #	DESCRIPTION	PRICE
F1-0031-40C	SM Attenuator 8-9µm Core (2 Meter Unconnectorized) Return Loss <-40dB	\$170.00
F1-1033-35C	MM Attenuator 62.5µm Core (2 Meter Unconnectorized) Return Loss <-35dB	170.00
F1-0031-LBR	SM Low Back Reflection Attenuator with FC/UPC Connector Return Loss <-50dB	235.00

AIR-GAP VARIABLE ATTENUATORS

The Air-Gap Variable Attenuator has a ceramic alignment sleeve that provides a low insertion loss of .15dB and can be used on both multimode and singlemode applications. Included tool provides ability to increase attenuation level to desired "level". Device may replace mating sleeve at the patchpanel, enabling variable attenuation levels to be introduced to the system. Attenuation range is 0dB to 20dB.

PART #	DESCRIPTION	PRICE
F1-2250	Air-Gap Variable ST Attenuator	\$55.00
F1-2251	Air-Gap Variable FC Attenuator	55.00

TYPICAL ATTENUATION LEVELS (Installed At Light Source)

DATA CENTER CLEANING STATION

The FIS Fiber Optic Cleaning Station is a unique new product that provides immediate access to cleaning supplies for technicians. These cleaning kits are wall mountable similar to First Aid kits found throughout many facilities. Open the top cover and find cleaning notes for technicians not familiar with fiber optics. Kits include cleaning instruments for both 2.5mm and 1.25mm ferrules on patchcords and adapters in the back plane of enclosures. Optional MPO/MTP cleaning can be added to kit as well. Special edition and custom kits are available. Standard kit contents: (100) 4"x4" clean dry wipes, 2 oz. Cleaning Solution, Auto-Advance Connector cleaner, 2.5mm & 1.25mm back plane ferrule cleaning tools. Optional kits with MPO/MTP cleaning tool or choice of IBC™ Cleaners/AFL One Click Cleaners.

CLEANING ACCESSORIES

FIBER OPTIC DISPOSAL UNIT

A handy and safe solution for disposing of cleaved fiber ends. Perfect for on-site installers. Choose from three sizes to accommodate any tool kit and splice/con-connector station. The large unit has a snap on hinge cover, while the standard and mini snap containers have traditional slide tops for easy opening and closing.

PART #	DESCRIPTION	PRICE
F1-8328C	Large Fiber Optic Disposal Unit w/Snap Top (3 1/2" W x 5 1/2" H)	\$5.95
F1-8327	Standard Fiber Optic Disposal Unit w/Slide Top (1 7/8" W x 4 3/8" H)	3.95
F1-8326	Mini Fiber Optic Disposal Unit w/Slide Top (1 5/8" W x 1 1/2" H)	2.95

FIS FIBER OPTIC CLEANING PEN

Use this cleaning pen to apply solution to cleaning wipe for removal of contaminants from optical fiber. Cleaner can use used with swabs to clean adapters too.

PART #	DESCRIPTION	PRICE
F1-6709	FIS Fiber Optic Cleaning Pen	\$9.35

OPTICAL COUPLANT

To reduce optical loss within fiber optic mechanical splices and connectors, apply optical couplant at the interface of the two mated fibers. This minimizes loss by reducing the difference in the index of refraction between the mated fibers. Available as liquid.

PART #	DESCRIPTION	PRICE
9006	Liquid Matching Couplant (.2 oz., Syringe)	\$14.50

FIS DISPENSING BOTTLE

PART #	DESCRIPTION	PRICE
F1-007PL	8 oz. Automatic Alcohol Dispensing Bottle (Plastic) (A)	\$6.75
F1-007P	8 oz. Automatic Alcohol Dispensing Bottle (Amber Glass) (B)	6.75

CANNED AIR

Before removing a fiber optic connector for inspection or cleaning, make sure the area around the connector is free from dust. The FIS Micro Duster includes an extension nozzle to provide a powerful blast of air to remove particles from areas that are otherwise inaccessible. Competitively priced. Shipping restrictions and fees may apply.

PART #	DESCRIPTION	PRICE
F1-1007S	FIS Canned Air (10oz.)	\$7.95
F1-00152	FIS Canned Air (8oz.) Economy	4.50

PIANO WIRE

A smart way to save a connector when a fiber breaks inside a ferrule during connectorization. Also an excellent tool to remove broken fiber from bare fiber adapters. The 0.004" (110µm) diameter wire is also used in connectorization process to apply epoxy to protruding fiber at ferrule. Sticky colored tabs provided to hold wire.

PART #	DESCRIPTION	PRICE
F1-8265	FIS Piano Wire	\$4.95

MATCHING GEL

To reduce optical loss within fiber optic mechanical splices and connectors, apply optical couplant at the interface of the two mated fibers. This minimizes loss by reducing the difference in the index of refraction between the mated fibers. 0.40oz

PART #	DESCRIPTION	PRICE
F1-0001V	FIS Matching Gel	\$25.00

F1-332911

3M NOVEC™ PERFORMANCE CLEANER

3M Novec contact cleaner is a non-flammable, high performance cleaner/degreaser used to remove contamination from fiber optic connectors. Non-ozone depleting, free of nPB, HFC's and HAPS and wide margin of safety make Novec a great choice for optical and electrical cleaning. **Ground shipping required.**

PART #	DESCRIPTION	PRICE
F1-332911	3M Novec™ Contact Cleaner	\$18.75

POLYWATER SQUEEYKLEEN™

New SqueekyKleen™ cleans and fans fiber in two wipes without alcohol, saving time and money. Hear the difference! No follow-up with alcohol required to get fibers squeaky clean and separated when prepping for splicing. SqueekyKleen™ is less harsh on hands and reduces chemical odors and vapor concentrations to a minimum in splice trailers and vaults. SqueekyKleen's™ unique formulation and specially designed high-performance towelette work to remove icky pic from the entire surface of loose-tube or ribbon fibers, leaving no residue. SqueekyKleen™ helps keep splice equipment clean of contamination for better fiber alignment and splice quality. Safe on acrylate and Mylar®.

PART #	DESCRIPTION	PRICE

PT TECH D'GEL SOLVENTS

D'Gel Cable and Tool Cleaner is a full strength solvent specifically developed for removing cable gels, blocking compounds, lcky pic, and C-cement. It also removes grease, tar, oil, wax, resin and gum from copper and fiber optic cable. It works equally well on painted surfaces and machine equipment. D'Gel does not contain TCE, HCFC's or methylene chloride.

PART #	DESCRIPTION	PRICE

FIBER OPTIC SPLICE & CONNECTOR CLEANER

Ideal for cleaning ferrules in connector bulkheads as well as individual fiber optic connectors. This fast-drying, optical-grade cleaning fluid can be used with wipes or cleaning sticks for wet/dry cleaning without chemical residue. Three-way dispenser enables you to select spray mode, dampening mode or wetting mode. Compatible with many cartridge style and box style connector cleaners. Travel safe, non-flammable, non-regulated, and non-hazardous. No hazmat fees!

PRE-MOISTENED ALCOHOL WIPES

Fast evaporating Alcohol pre-moistened wipes can be used on optical fiber to remove dirt, dust and oils. Contains: Isopropanol

PART #	DESCRIPTION	PRICE
F1-1004	FIS Pre-Moistened Alcohol Wipes (50 pk.)	\$9.95

PRE-MOISTENED DEGREASER WIPES (ICKY-PIC CLEANER)

FIS new Icky-Clean wipes can be used with outside plant optical or copper cables. Utilize to remove Icky-Pic or gels from cables prior to splicing or termination. Great to clean up tools as well.

PART #	DESCRIPTION	PRICE
F1-1010	FIS Pre-Moistened Degreaser Wipes (12 pk.)	\$10.50
F1-1010-100	FIS Pre-Moistened Degreaser Wipes (100 pk.)	80.00

POLYWATER HYDRASOL® SOLVENTS (ICKY-PIC CLEANER)

HydraSol® is a water-based solvent cleaner that is amazingly effective at dissolving and removing cable filling greases (Icky Pic). This economical product easily rinses off hands and tools. Our tear-resistant, presoaked towelette comes in an easy-open foil pack and is especially effective for smaller cleaning jobs and fiber optic splicing.

PART #	DESCRIPTION	PRICE
F1-1091T	HydraSol® Premoistened Tissues (12 pk.)	\$15.00
F1-1091GP	HydraSol® 1 Gallon Jug	26.00

POLYWATER ANHYDROUS ALCOHOL

Type FO™ is great for cleaning glass fiber or connector end faces for better light transmission performance. Type FO™ quickly removes dust, oils, and contaminants, while leaving no residue. The anhydrous alcohol in FO™ has essentially no water content. Type FO™ is available in a convenient pre-saturated towelette. The towels are durable and non-linting. Pre-saturated wipes are a convenient option for field use. The package limits vapor exposure and eliminates spill hazards. There is no need to transport bulk quantities of flammable alcohol. **Hazmat Fees May Apply.**

PART #	DESCRIPTION	PRICE
FO-1	Type FO™ Alcohol Prep Wipe (50 pk.)	\$30.95
FO-16	Type FO™ 16-oz Alcohol Fiber Cleaner	8.95

POLYWATER SQUEEKYKLEEN™ (ICKY-PIC CLEANER)

New SqueekyKleen™ cleans and fans fiber in two wipes without alcohol. SqueekyKleen™ is less harsh on hands, reduces chemical odors and vapor concentrations to a minimum in splice trailers and vaults. Unique formulation and specially designed high-performance towelettes work to remove pik from the entire surface of loose-tube or ribbon fibers, leaving no residue. Safe on acrylate and Mylar®.

PART #	DESCRIPTION	PRICE
F1-TC1	Telcom Cleaner-Saturated Wipe (12 pk.)	\$16.95

STICKLERS CLEANING BOX

Perfectly packaged for factories making jumpers and patch cords, this tool is designed for high-speed, high-volume production. Featuring a high-modulus fabric that will not lint, tear, or shred and allows for 3,200+ cleanings per roll for the large box and 400+ cleanings per roll for the small box.

PART #	DESCRIPTION	PRICE
WCS800	Sticklers Large Cleaning Box	\$155.00
WCS100	Sticklers Small Cleaning Box	59.00

FERRULEPRO™

FerrulePro™ is the world's first fully automated benchtop fiber connector cleaner for laboratory and cable production environments. FerrulePro™ automates the final cleaning of all types of terminated fiber products, a critical task where performance once depended largely on the production line worker's skill. Now, fiber connectors can be cleaned in 3 seconds cycle - eliminating the need for re-cleaning after post production inspection.

STICKLERS CLEANING KITS

The Sticklers Fiber Optic Cleaning Kit has been engineered to help field techs clean fiber networks quickly, reliably and inexpensively. This kit puts the time-saving Sticklers cleaners in a "go anywhere, clean anything" package, giving each tech all the tools they need to get the job done right. The Kit contains LED flashlight, rugged carry bag, cleaners, wipes and swabs. Plus, extra room for other supplies and tools. The military version also includes S16 swabs for military connectors: MIL-C-28876, MIL-C-38999, D4, MT-RJ. All Sticklers kits are non-haz and can ship air without any restrictions.

PART #	DESCRIPTION	PRICE
FK03	Sticklers Fiber Optic Cleaning Kit	\$98.00
FK05	Sticklers Military-Ready Cleaning Kit (Not Pictured)	98.00

FK03

DID YOU KNOW?

Within an optical network, clean fiber optic components are a requirement for quality connections between active fiber optic equipment and passive components. One of the most basic and important procedures for the optimal performance is to clean all of the fiber optic connections. Any contamination on the ferrule endface of a fiber connection can cause a failure of the component or failure of the whole system. Even microscopic dust and dirt particles can cause a variety of problems for optical connections. A particle that partially or completely blocks the optical fiber's core can generate strong back reflections, which can cause instability in the system. Dust and dirt particles trapped between two fiber faces can scratch the glass surfaces. Even if a particle is only on the cladding or the edge of the endface, it can cause an air gap or misalignment between the fiber cores, which can induce additional loss in the connection and contribute to the total link loss in the system.

- A 1µm dust particle on a singlemode core can block up to 1% of the light (a 0.05dB loss).
- A 9µm dust or dirt particle is still too small to see without a microscope, but it can completely block the fiber core of singlemode fiber. By comparison a typical human hair is 50µm to 75µm in diameter, as much as eight times larger.

So, even though dust might not be visible, it is still present in the air and can deposit onto the connector. Dust and dirt are not the only types of loss inducing contaminations, these may also include such materials as:

- Oils (frequently from human hands)
- Film residues, from vapors in the air
- Coatings, left after water or other solvents evaporate away

These contaminants can be more difficult to remove than dust particles and can also induce loss and damage if not removed with proper cleaning procedures.

CLEANING SWABS

FIS FIBER SWIPE500

This unique handheld connector ferrule end face cleaner removes dust, dirt and contaminants prior to mating a fiber optic connection. The fiber optic cleaner fits well in the technician's hand with a convenient trigger that automatically opens the top cleaning window to expose a single microfiber cleaning slot. Simply swipe the ferrule end-face with light pressure against the microfiber with the directional arrow and then release the trigger.

PART #	DESCRIPTION	PRICE
F1-6712	FIS Fiber Swipe500	\$39.95
F1-6713	Replacement Reel	13.00

FIS CONNECTOR CLEANER

Choose the FIS Hand Held Connector Cleaner as an alternative to alcohol or solvent and wipes. The cartridge offers lint-free, clean room grade cleaning media which effectively removes dirt, dust, oil, grease and debris from connector end faces. A new resilient rubber pad beneath the cleaning surface prevents scratching, and a sliding cover protects the cleaning media from contamination when not in use. Reel refills available.

PART #	DESCRIPTION	PRICE
F1-7020C	FIS Connector Cleaner Universal (400 cleans)	\$15.00
F1-7021C	FIS Cleaning Media Replacement Reel (20 ft.)	4.00

FIS ROTOSWIPE

The FIS Rotoswipe ferrule cleaner is convenient for cleaning connector endfaces from inside bulkheads or mating sleeves without removing connector from the back panel. Simply choose from the 2.5 or 1.25mm ferrule version, insert into the mating sleeve until cleaning tip with fabric gently touches the ferrule endface, then turn the gray rotator dial 2-3 clicks clockwise. Inspect for cleanliness if desired with a video microscope. You can utilize this cleaner to clean patchcord endfaces as well, but you need to use it with an individual mating sleeve to plug ferrule into something for cleaning tip to align properly. No refill cartridges available.

PART #	DESCRIPTION	PRICE
F1-6710	FIS 2.5mm ROTOSWIPE Cleaner	\$39.95
F1-6711	FIS 1.25mm ROTOSWIPE LC Cleaner	39.95

FIBER OPTIC SWABS

When cleaning connector endfaces inside bulkheads, mating sleeves and other recessed areas, you'll appreciate the extended reach that our 2.5mm and 1.25mm swabs provide. Choose from wrapped swabs, foam swabs or general purpose cotton swabs. NOTE: The General Purpose Cotton Swabs do not fit into 2.5mm or 1.25mm adapters.

PART #	DESCRIPTION	PRICE
F1-25184	2.5mm Wrapped Swabs (5pk)	\$3.50
F1-25183	2.5mm Wrapped Swabs (100pk)	40.00

IBC™ BRAND CLEANING TOOLS SERIES

The US Conec IBC™ Brand Cleaners are mechanical cleaning tools designed to clean connectors residing in an adapter or faceplate and unmated connectors. The IBC™ Brand Cleaning tools use a novel dry cleaning strand to gently sweep and lift away dust and residues from the connector end face.

Features

- Audible CLICK to alert the operator when tools are fully engaged
- Over 525+ engagements per unit
- Dry cleaning strand eliminates the need for solvents to be effective
- Impact resistant to survive drops over 1.5M

AFL ONE-CLICK CLEANER

The One-Click Cleaner is an easy-to-use option for cleaning connectors in adapters. Simply insert the One-Click Cleaner into an adapter and push until an audible "click" is heard. The One-Click Cleaner uses the mechanical push action to advance an optical grade cleaning tape while the cleaning tip is rotated to ensure the fiber end-face is effectively, but gently, cleaned. The One-Click Cleaner is a must-have for field technicians. Small enough to fit in a shirt pocket and a great addition to cleaning kits.

85001MZ	SC, ST, FC 2.5mm ferrules	\$65.00
85002MZ	LC/MU 1.25mm ferrules	65.00

MTP/MPO IBC™ BRAND CLEANER

The MTP IBC™ (In Bulkhead Cleaner) is the first dry cloth cleaner specifically designed to clean the MTP/MPO while inside of an adapter, face-plate, or bulkhead. The unique design enables cleaning of either male (with pins) or female (without pins) MT ferrules.

PART #	DESCRIPTION	PRICE
F1-7104	MTP/MPO Bulkhead Cleaner	\$75.00

FERRULE MATE™

Wouldn't it be great if you could limit your connector cleaning supplies to one versatile tool? You can, with Ferrule Mate™. The device cleans recessed fiber optic adapters as well as individual connectors. With the push of a button, the tool forwards and rotates the cleaning cloth. Cloth provides approximately 350 swipes, with a cost as low as 18 cents per cleaning. Use the SFM-250 for SC, FC, and ST. Use the SFM-125 for MU and LC.

ULTRAVIOLET (UV) ADHESIVES & KIT

Available from FIS, this Ultraviolet Curing Kit contains a portable battery operated UV lamp, UV epoxy and protective goggles providing the ability to perform quick epoxy cures. The new higher intensity UV bulbs cure epoxy faster, excellent for use on glass tube splices and epoxy cured connectors. Safety glasses that protect against fiber splinters and UV radiation are available separately.

Kit Includes: UV lamp with bulb, safety glasses, UV adhesive and batteries.

(Recommended option for Bobtail™ Connectors.)

PART #	DESCRIPTION	PRICE
WO-1067	UV Kit	\$235.00
WO-1063	Replacement Bulb	45.00
F1-S13390C	Safety Glasses	4.95

ITW Chemtronics Combination Cleaning Process Specialized Cleaning for Every Application

FIBER OPTIC CLEANING KITS

Correctly cleaning a fiber optic connection is the first step to assure a low loss fiber optic signal anywhere along the network to your customer's location. The ITW Chemtronics Combination Cleaning Process overcomes the problems encountered in both the Wet Cleaning process and the Dry Cleaning technique. The "wet-to-dry" Combination Cleaning Process® is a patented innovation that cleans and automatically dries all soil types from end faces most-typically the first time. This Combination Cleaning Procedure or CCP™ utilizes a proprietary solvent that effectively removes all commonly encountered soils. The combination of effective products and application techniques make the CCP™ ideal for both Outside Plant and OEM cleaning applications.

CAP
CABLE ASSEMBLY
PARTNERSHIP PROGRAM

FIS has joined with Manufacturers to offer preferred pricing and services under our Cable Assembly Partnership (CAP) Program. Cable Assembly Companies that qualify as CAP members will receive:

- Incredible pricing on cable, polish film, epoxy and connectors
- No quantity buys required
- Based on regular use of FIS and 3M products
- Limited memberships available
- Expanding Product Lines

Attention Cable Assembly Houses! FIS Proudly Introduces our NEW Cable Assembly Partnership Program (CAP)

Steps	3M™ 5" Disc Value	Mineral	Micron Size / Color
#1 De-Nub and Epoxy Removal	461X	Silicon Carbide	15µm / Gray
#2 Refine (Level Connector)	661X	Diamond	1µm / Lav 3µm / PNK 6µm / BRW
	662XW	Diamond	1µm / Lav 3µm / PNK 6µm / BRW
#3 Polish (Finish)	863XW	Silicon Dioxide	Final Polish/Translucent
	865X	Silica	Final Polish / White

Let Us Quote A 3 Step Solution!

With 20 years of cable assembly experience, FIS can show you how to achieve maximum value using specific 3M™ Lapping Films. The following are our current recommendations. The films highlighted above provide exceptional value in terms of pricing and performance.

Revolutionary New Diamond One-Step Polish Film

- Achieve Higher Yields
- Lower Your Material Costs
- Save on Labor Cost

- Eliminate Multiple Diamond Films
- Improve Efficiency and Productivity!

A revolutionary process has resulted in a truly remarkable polish film. This new film offers super performance and is ideal for any production Polish Machines. Try this film to see how it improves efficiency and profitability of your operation. You will be impressed! Call your FIS Sales Representative for details today.

FIBER POLISHING FILM

3M™ DIAMOND LAPPING FILMS

- Premium diamond abrasive film to cut and polish hard ceramic ferrules and glass cores at the same level at a consistent rate

3M™ POLISHING FILM - MT

- Eliminates slurries and messy cleanup
- High first-pass yield minimizes rework
- Precisely graded particles are coated on a high-strength backing

3M™ LAPPING FILMS

- Micron graded materials on uniform polyester backing
- Provides consistent, repeatable finishes in sequence
- Use on ceramic, stainless steel, plastic and composite ferrules
- Innovative, cost-effective method to finish fiber optic connectors

3M™ FINAL POLISH DISCS

For final polishing fiber optic connectors, this film meets industry standards for back reflection.

- Eliminates slurries and messy cleanup
- High first-pass yield minimizes rework
- Meets Telcordia Standards GR-326

For Quality Assurance 3M™ Polish Film Is Sold Only In Factory Packs of 25 or 50
Call for other grades, sizes and pressure sensitive adhesive (PSA) backed products.

HAND POLISHING DISCS

The metal fiber optic polishing discs are especially durable and are machined to close tolerances. They are designed to hold your fiber optic endface at exactly the correct angle to the polishing film during the polishing process. The plastic fiber optic polishing disks are also very useful. The ST Plastic Polish Disc is so affordable that you can purchase several of them to keep handy in your toolbox, truck or in the shop.

DID YOU KNOW

The most effective way to achieve a quality hand polish is to move the connector and polish disk in a figure eight pattern with even pressure.

ULTRA PRECISION POLISHING PADS

Ultra Pads are color coded for easy recognition by the machine operators. 4" & 5" discs are .079" thick and 6" x 6" squares are 0.250" thick.

PART #	DESCRIPTION	PRICE
F1-70D4	4" Circular Rubber Pad 70 Durometer (purple)	\$17.00
F1-90D4	4" Circular Rubber Pad 90 Durometer (black)	17.00

F1-90DX6	6" x 6" Square Rubber Pad 90 Durometer (black)	16.50

POLISH PLATES, PADS & MATS

The polishing of fiber optic connectors calls for both a hard flat surface and a cushioned pad. The 9" x 13" or 6" x 9" polish plate is available in safety glass and mounted on four rubber feet for support. When polishing PC style pre-radius connectors, use the soft polish pad on the glass plate. Placing the lapping film over the pad assures the removal of epoxy and proper polish of fiber without destroying the pre-radius of the ferrule.

PART #	DESCRIPTION	PRICE
F1-9111	FIS Polish Glass Plate (9" x 13") (A)	\$16.95
F1-9111A	FIS Polish Glass Plate (6" x 9") (B)	12.95

PPG-575	5.75" Square Polishing Pad w/1/4" Acrylic Plate (not pictured)	15.00

PROTON™ FIELD POLISHER

Proton™ is designed for field polishing environments in which cable and connector access is limited. Rather than bringing a cable to the polisher, Proton™ can be located in close proximity of the connector to be processed. Proton™ features true, hand-held operation in a rugged and battery operated package. Applications include FTTx, CATV and avionic/harsh environments.

PART #	DESCRIPTION	PRICE

POLISHING EQUIPMENT

FIS-550P

FIS-ST-18

FIS POLISHER

The new FIS fiber optic polishing machine offers high performance for an industry leading value. With its small footprint it is optimal for production or field use. The FIS-550P has been constructed of hardened stainless steel and hard coated aluminum for ultimate precision and durability. Single speed platen and digital timer allow for simple and highly repeatable use. All polish machines & fixtures are made in the U.S.A.

FEATURES

- Dimensions - 11.5" H x 6" W x 8" L
- Exceeds industry standards for end-face geometry
- High precision, lower cost polish plates allow for lower tool-up cost
- For high yield rate, FIS recommends the use of a 2-step process featuring 'One-step' film located on pg 105.

Includes: FIS-550P Polish Machine, 110 power cord, instruction manual and hard carry case.

SEIKOH GIKEN POLISH MACHINES

SFP-550S

This top of the line polishing machine offers excellent production throughput of up to 40 ferrules simultaneously. The SFP-550S offers the widest versatility of connectors and ferrules including MT/MPO ferrules, Fiber array and PLC processing. It features a full function LCD touch panel for simplified programming of various polishing processes. Best for use in high volume mass-production environments where critical geometry performance is essential.

NEW CABLE TIE WRAPS

It's easy for installers to over-cinch thin zip ties, resulting in macrobends that attenuate fiber optic cables. With copper cables, the weight of cables pressing against thin ties can damage or deform them enough to create crosstalk issues. To solve these problems, FIS has created the "Universal Cable Strap," the widest cable tie designed for communications cable. A padded version is available for fiber optic cable.

Mounting Hole
for wall applications

Large teeth allow
for secure hold

Latching mechanism
allows for reuse

Padded surfaces prevent
over tightening &
minimizes attenuation

Look For Green Part Numbers

FIS is the leader in the fiber optic industry for offering the best value on tool kits. Every year FIS expands upon its tool kit line and upgrades several tools to show our commitment to providing quality kits. The Universal Connectorization Epoxy Tool Kit provides a technician with materials to prep and connectorize standard fiber optic connectors such as ST, SC and FC. For technicians searching for the ultimate tool kit, review our Universal Multimode Test Set Kit and Fusion Splicing Kits.

Basic Fiber Optic Kit
F1-0053

FIS BASIC FIBER OPTIC TOOL KIT

- PVC Electrical Tape (F1-0008)
- 2 oz. Cleaning Solvent (F1-6706)
- Trihole Fiber Stripper (F1-1301T)
- FIS Connector Cleaner (F1-7020C)
- Kevlar Scissors (F1-KS1)
- Jacket Stripper (F1-0016)
- Buffer Tube Stripper (F1-0017)
- Round Cable Slitter (MK02)
- 6" Side Cutting Pliers (THT-2140C)
- (50) Foam Swabs (F1-0005)
- Cleaning Tissue (F1-6705)
- Utility Knife (F1-0023BLK)
- Tweezers (F1-0019)
- Needle Nose Pliers (THT-1840C)
- Piano Wire (F1-8265K)
- Fiber Optic Wipes (F1-6705)
- 4 Bit Screwdriver (F1-0027)
- Black Marker (F1-9104)
- Safety Glasses (F1-513390)
- (5) Degreaser Wipes (F1-1010)
- (5) Fusion Splice Sleeves 60mm (F1-1002C)
- Black Work Mat (F1-0024)
- Fiber Disposal Unit (F1-8328C)
- Ruler (RMC-6)
- Fabric Tape Measure (F1-8273)
- 1/2" Nut Driver (1UG30)
- (3) Economy Tie Labels (P50LABELKIT)
- Rugged Carry Case (F10053HARD)
- Shrink Tube Kit (P50TUBEKIT)
- 1Mtr 3mm Furcation (F00FR3RO)
- 1Mtr 900µm Furcation (F00FR900HW)

F1-0053LM	Universal 1.25mm Epoxy Connectorization Tool Kit (LC/MU)	\$775.00

CONNECTORIZATION EPOXY TOOL KIT (SC, FC, ST)

Includes all items in FIS Basic Tool Kit (F1-0053) plus:

- Carbide Scribe (F1-9773)
- FIS Universal Crimp Tool (F1-3227)
- Rubber Polish Pad (PP-575)
- Glass Polish Plate (F1-9111)
- (5) Syringes (5014733IRC5)
- Universal Polish Puck (F1-6925UN)
- (5) 0.3µm Polish Film Sheet (F1-0102-03S)
- (5) 1µm Polish Film Sheet (F1-0102-1S)
- (5) 5µm Polish Film Sheet (F1-0102-5S)
- Instructions for FIS Connectors ST, FC & SC (F217)
- (5) FIS 4gr. Blue Dye Epoxy (T60-065-B4)
- FIS Universal Microscope (F1-MS200X)

PART #	DESCRIPTION	PRICE
F1-0053U	Universal 2.5mm Epoxy Connectorization Tool Kit (SC, FC, ST)	\$625.00
F1-0053UO	Universal Epoxy Connectorization Tool Kit with 24-Port Heat Oven	825.00
F1-0053UO220	Universal Epoxy Connectorization Tool Kit with 24-Port Heat Oven	825.00
F1-0053U-G	Universal Epoxy Tool Kit with Greenlee Tools (8 Tools)	695.95
F1-0053D	Replacement Consumables	84.95

FIS MINI BASIC FIBER OPTIC TOOL KIT

- Mini Soft Case (F1-0053BSC)
- PVC Electrical Tape (F1-0008)
- Tri-Hole Fiber Stripper (F1-1301T)
- FIS Connector Cleaner (F1-7020-C)
- Kevlar Scissors (F1-KS1)
- Buffer Tube Stripper (F1-0017)
- Round Cable Slitter (MK02)
- 6" Side Cutting Pliers (THT-2140C)
- (50) Foam Swabs (F1-0005)
- Fiber Optic Wipes (F1-6702)
- Utility Knife (F1-0023BLK)
- Tweezers (F1-0019)
- Needle Nose Pliers (THT-1840C)
- (5) Fusion Splice Sleeve 60mm (F1-1002C)
- 4 Bit Screwdriver (F1-0027)
- Black Marker (F1-9104)
- Ruler (RMC-6)
- Fabric Tape Measure (F1-8273)
- 2 oz. Cleaning Solvent (F1-6706)
- Piano Wire (F1-8265)

DATA CENTER CLEANING STATION

The FIS Fiber Optic Cleaning Station is a unique new product that provides immediate access to cleaning supplies for technicians. These cleaning kits are wall mountable similar to First Aid kits found throughout many facilities. Open the top cover and find cleaning notes for technicians not familiar with fiber optics. Kits include cleaning instruments for both 2.5mm and 1.25mm ferrules on patchcords and through adapters in the back plane of enclosures. Optional MPO/MTP cleaning can be added to kit as well. Special edition and custom kits are available. Standard kit contents: (100) 4"x4" Clean Dry Wipes, 2 oz. Cleaning Solution, Auto-Advance Connector Cleaner, 2.5mm & 1.25mm back plane ferrule cleaning tools. Optional kits with MPO/MTP cleaning tool or choice of IBC™ Cleaners/AFL One Click Cleaners.

PART #	DESCRIPTION	PRICE
F1-6714	Fiber Optic Cleaning Station, Standard Kit	\$160.00
F1-6714MPO	Fiber Optic Cleaning Station, Standard Kit with MPO/MTP cleaning tool	230.00
F1-6714IBC	Fiber Optic Cleaning Station, Special Edition Kit with IBC™ cleaning tools for 2.5/1.25mm adapters	203.00
F1-6714BCMPO	Fiber Optic Cleaning Station, Special Edition Kit with IBC™ cleaning tools for 2.5/1.25mm adapters and MPO/MTP cleaner	275.00
F1-6714AFL	Fiber Optic Cleaning Station, Special Edition Kit with AFL cleaning tools for 2.5/1.25mm adapters	223.00
F1-6714AFLMPO	Fiber Optic Cleaning Station, Special Edition Kit with AFL cleaning tools for 2.5/1.25mm adapters and IBC MPO/MTP cleaner	295.00

CUSTOMIZE ANY TOOL KIT

You have the option to customize any of FIS' kits. You can add or swap items from the FIS kits. Please contact an FIS Sales Representative for pricing.

TEST EQUIPMENT AND OPTIONS

FIS Pocket Fault Locator
FIS Power Meters
FIS Light Sources
FIS Talk Sets
FIS Mini-OTDR
FIS Pulse Suppressors and Test Boxes

ATTENUATOR OPTIONS

FIS Male-Female attenuators in 1-20dB for FC, FC/APC, SC, SC/APC, ST, LC & MU
FIS variable attenuators

KEVLAR CUTTER OPTIONS

F1KS1 - Miller Scissors
F10020 - FIS Economy Scissors
F16430 - Clauss Kevlar Cutters
F19809 - Miller Kevlar Cutter
PA1510A, Ceramic Kevlar Cutters

PATCHCORD OPTIONS

FIS Singlemode simplex and duplex patchcords
FIS Multimode simplex and duplex patchcords
FIS Specialty patchcords: MTP, MT-RJ, E2000, MU, ESCON, FDDI, Polarization Maintaining & VF45 (Volition)

FIBER OPTIC STRIPPER OPTIONS

F1-1301T - FIS Precision Fiber Stripper
WO1224 - Miller Stripper
NN203 - No-Nik 203µm, Red
F11171 - Paladin Fiber Optic Stripper

MICROSCOPE OPTIONS

F1MS200X - FIS 200x Compact Microscope
F1VS400F2.5 - FIS 400x Handheld Microscope
F19786 - FIS 100x Handheld Universal Scope

FIS LASER SAFETY GLASSES

These high quality safety glasses employ superior laser safety lens technology. Laser protective dyes are molded into the plastic and will not scratch off, photobleach or degrade over time. The lenses protect from light wavelengths in the range of 800-1790nm. Glasses come with a protective carry case, lanyard and cleaning cloth. There are 2 styles to choose from: standard wrap-around and over-the-glasses. These are proudly made in the USA.

PART #	DESCRIPTION	PRICE
F1-IRD5-35	FIS Laser Safety Glasses Wrap Around Style Adjustable Frames	\$120.00

NN203

NO-NIK STRIPPERS

In a single short stroke, the red handle removes 900µm buffer tube and the 250µm or 500µm fiber coating on tight buffer cable. The mustard handle removes 250µm coating. The blue, white and green handles remove the larger tubes that contain fibers in loose tube cable applications. Brown & clear handles are available for your plastic fiber requirements. Also available is the No-Nik Fiber Optic Strip Kit.

PART #	DESCRIPTION	PRICE
NN203	No-Nik 203µm (Red) Strips 250µm or 500µm Coating & 900µm Buffer	\$31.50
NN254	No-Nik 254µm (Blue) Strips Loose Tube	33.50
NN305	No-Nik 305µm (White) Strips Loose Tube	33.50
NN175	No-Nik 175µm (Mustard) Strips 250µm Coating	36.50
NN300	No-Nik Strip Kit (Mustard, Red & WO-1225) Strips 250µm, 500µm, 900µm/Buffer Tube & 3mm	123.50

46107

MILLER CFS-2 STRIPPER

The new Miller CFS-2 Fiber Stripper has new "Super Comfort" grips. Ergonomically enhanced handles for extra comfort and ease of use. New factory set and locked calibration screw puck provides for better and more precise strips every time. One hole for removing 3mm jacket and the second opening to remove 250µm coatings. Replacement for Clauss.

PART #	DESCRIPTION	PRICE
46107	Miller CFS-2 Stripper	\$21.95

F1-1171

Paladin Tools

PALADIN STRIPPER

The new multi-function fiber optic stripper from Paladin has five settings for stripping fiber optic cable. Strips outer jacket from 2.0-2.4mm fiber, 2.8-3.0mm fiber and 2.0-3.0mm loose tube buffer tubes. Strips 900µm buffer from loose buffer without removing acrylate coating. Strips buffer and acrylate from 900/125µm and 250/125µm fiber. Factory set and calibrated.

PART #	DESCRIPTION	PRICE
F1-1171	ProGrip 5 in 1 Fiber Optic Stripper	\$48.00

45-352

MINILITE-STRIP™

The new MiniLite-Strip™ is small and features V-notch to remove buffer and coating from 125µm fiber. An additional larger V-notch removes a wide range of outer cable jacket installations.

PART #	DESCRIPTION	PRICE
45-352	Minilite-Strip	\$45.20

IDEAL BUFFER TUBE STRIPPERS

Buffer Tube Strippers with adjustable blades can be set for any depth to help assure nick-free jacket entry. Use for simplex fiber and a variety of fiber optic cable up to 1/8 inch diameter. Loose tube fiber demands a precision tool capable of cutting different buffer tube diameters without nicking the enclosed fiber. Available is the blue buffer tube stripper for coaxial cable from 1/8 inch to 7/32 inch.

PART #	DESCRIPTION	PRICE
F1-0017	Grey Buffer Tube Stripper (For Fiber Applications)	\$18.95
F1-0021	Blue Buffer Tube Stripper (For Coax Applications)	18.00
F1-0018	Replacement Blades (1 Set of 4 Blades)	7.50

F1-0017

THERMAL FIBER STRIPPER

The Soft Strip Thermal Stripping Tool contains a heating element that softens and strips 900µm coatings. The thermal stripper permits precise stripping of these tough coatings with less than 1 lb. of peak pulling force for a single optical fiber. Excellent for use on fiber optic couplers and other delicate components. Uses two "AA" batteries, not included.

PART #	DESCRIPTION	PRICE
F1-9999	Thermal Fiber Stripper	\$145.00

F1-9999

MICRO-STRIP TOOL KIT

When working with optical fiber, you don't want your work to be compromised by accidentally damaging a fiber. The Fiber Optic Micro-Strip Tool Kit provides an easy and efficient way to strip fiber optic cable without nicking or damaging the optical fiber. Strips fiber buffers up to 900µm, and jackets up to 3.5 mm. Kit includes interchangeable/replaceable blades and tube guides.

PART #	DESCRIPTION	PRICE
MS-FOK1	Kit (10 blades for fiber range of 125µm to 1050µm)	\$135.00
MS-1FS	Blade Holder	12.75
MS-1RB06S	Replacement Blade-Violet (Strips to 125µm)	35.00
MS-1RB12S	Replacement Blade-White (Strips to 250µm)	35.00
MS-1RB21S	Replacement Blade-Royal Blue (Strips to 500µm)	35.00

MS-FOK1

FITEL DE-RIBBONIZER

The S220A uses two finely positioned blades to shave the matrix off the top and bottom of ribbon fiber while leaving the individual fiber jackets untouched. After the matrix is removed, the fibers separate out easily by hand. For use with 300 and 400µm ribbons of 2 to 12 strands. Blade life is 1,000 separations.

PART #	DESCRIPTION	PRICE
S220A	Fitel De-Ribbonizer	\$715.00

S220A

JIC-4366

OPTICAL FIBER SHEATH STRIPPER & RING TOOL

Used for stripping and butting tight buffer optical fiber cables. Use one blade to butt PVC sheathing and use the second blade to strip the sheathing. Adjustable for .018" or .031" thick plastic, rubber or fabric insulation.

PART #	DESCRIPTION	PRICE
JIC-4366	Optical Fiber Sheath Stripper	\$47.95

MS-KS-1

RIBBON STRIPPING KIT

This unique thermal stripping kit includes the patented "Soft-Strip" thermal stripping system and contains components for stripping from 4 to 12-fiber ribbon of various constructions: 'Bonded', 'Encapsulated' or 'Ribbonized' types. AC adapter sold separately.

PART #	DESCRIPTION	PRICE
MS-SK-1	Ribbon Stripping Kit	\$475.00
MS-T3	120 Volt AC Adapter for Thermal Stripper	39.00

US CONEC RIBBON STRIPPER

The US Conec Optical Cable Jacket Removal Tool eliminates the need for sharp tools such as Exacto® knives or razor blades for cable jacket removal. The tool is designed for quick, reliable, economical removal of PVC jacket from ribbon interconnect cable, 3mm round cable and 2 fiber zipcord.

PART #	DESCRIPTION	PRICE
F1-2009	US Conec Ribbon Stripper	\$25.00

F1-0016

1917

T-STYLE JACKET STRIPPER

The dual "V" notch blade allows the quick removal of outer jacket. Plier nose, along with cushion grips and spring release are additional features making this stripper comparable to the Ideal T-Type® Stripper.

PART #	DESCRIPTION	PRICE
F1-0016	T-Style Stripper, 16-20 AWG	\$8.95
1917	Greenlee Stripper, 10-20 AWG	12.95

35782	Ideal Rotary Armored Cable Cutter w/Lever	28.00

CORNING

RST-000

CORNING RIBBON SPLITTING TOOL

The tool closes around the ribbon fibers, as the ribbon settles into the proper slot. With actuator depressed, the tool slides along a length of the ribbon, separating the length of ribbon that is needed into smaller ribbon counts. The tool has slots to separate the ribbon into the following smaller ribbon counts: 2/2, 2/4, 2/6, 4/4, 2/10, 4/8, 6/6, and 12/12.

PART #	DESCRIPTION	PRICE
RST-000	Corning Ribbon Splitting Tool	\$1,250.00

FOC-100

FOCUS™ REMOVAL TOOL

The Focus™ tool from Cable Prep® inserts and removes SC and LC fiber optic connectors without disturbing adjacent connectors, even when working on densely populated panels.

PART #	DESCRIPTION	PRICE
FOC-100	Removal Tool	\$58.95

MID-SPAN ACCESS TOOL

The Miller Mid-Span Access Tool (MSAT-5) is used to quickly and easily access fibers in 1.9mm to 3mm buffer tubes in a mid-span location without damage to fiber. No blade adjustment is necessary, as the factory precisely mounts the blades in the tube slitting channels, resulting in consistent and accurate shaves. The tool design incorporates buffer tube size gauges on the tool body for ease of selecting proper tube slitting channel.

PART #	DESCRIPTION	PRICE
MSAT-5	Mid-Span Access Tool	\$65.00

DRAKA BUFFER TUBE ACCESS TOOL

This tool is designed for mid-span entry to fibers in a multiple of buffer tube sizes. The tool "shaves" only the tube wall to access the fibers providing a safe, reliable access. The tool kit includes interchangeable inserts supporting 2.5mm, 2.7mm and 3.0mm buffer tubes. Other tube insert sizes available from 1.5mm to 4.3mm at additional cost.

Includes: Tool, Carry Case, Inserts, Spare Blade And Spare Head Screw

PART #	DESCRIPTION	PRICE
20021562	Buffer Tube Access Tool	\$946.70

MILLER FIBER BUFFER TUBE AND DROP CABLE SLITTER

The 400 Series Kit is for mid-span and end slitting of fiber buffer tubes and fiber drop cable. Interchangeable color coded head blocks matched to buffer tube or drop cable size. Standard kit contains tool body and 3 pairs of interchangeable heads all packed in a durable plastic carrying case. Block sizes, included in standard kit, slit the following cable sizes: 2.5 mm, 3.0 mm buffer tubes and 4.4 x 8.2 mm fiber drop cable.

PART #	DESCRIPTION	PRICE
80830	Fiber Buffer Tube and Drop Cable Slitter	\$395.50

MILLER BRIGHTPATH MID-SPAN ENTRY TOOL

Designed to mid-span entry access CommScope BrightPath Self Supporting Figure 8 outdoor fiber drop cable. Tool has two shaving channels, one to remove the outer MPDE jacket and one to access the 4mm buffer tube fibers.

PART #	DESCRIPTION	PRICE
42555	Miller Drop Cable Stripper	\$210.00
37048	Replacement Blade for jacket and 4mm channel	41.00

MILLER MID-SPAN ACCESS TOOL

Tool can access fibers in 2.0mm, 2.5mm, and 3.0mm buffer tubes. Buffer tube size gauges are located on the tool body for ease of selecting proper tube slitting channel.

PART #	DESCRIPTION	PRICE
80785	Mid Span Tool	\$215.00
80794	Replacement Blade (1 set)	33.00

CORNING CABLE SYSTEMS MID-ACCESS TOOL

Cutting a buffer tube mid-span without damaging the optical fibers inside can be a challenge - unless you have this specialized tool. Simply attach the tool and pull it along the buffer tube to slit the tube safely.

PART #	DESCRIPTION	PRICE
OFT-000	For 2.4mm - 3.0mm Tubes CCS Mid-Access Tool	\$245.00
OFT-001	Replacement Blade for OFT-000	17.50
UAT-3000	For 5mm - 24mm Tubes Enhanced Universal Access Tool	725.00
UAT3-BLADES	Replacement Blade for UAT-3000	76.50

MULTI-QUICK SPLIT MID-ENTRY TOOL

The Multi-Quick Split Buffer Tube Splitting Tool is designed to provide mid-entry access to buffer tube cables. This rugged hand held tool splits the buffer tube in two halves without disturbing the fibers. The Quick Split has a unique gauging system enabling a precise slit for 2.5mm and 3.0mm cables.

Kit Includes: two tools, extra blades and allen wrench.

PART #	DESCRIPTION	PRICE
2000US	Multi-Quick Split	\$520.00

PART #	DESCRIPTION	PRICE
0158-12	18" Greenlee Heavy Duty Bag	\$39.95

CM-450

TRUE RMS CLAMP METER

True RMS for the most accurate measurement where harmonics are present. Quick and easy operation. Auto power shut off for longer battery life. Audible continuity and diode tests. Frequency measurement. Data hold to capture measurements; 4000 count LCD; includes 3 volt standard button battery. Lifetime limited warranty

PART #	DESCRIPTION	PRICE
CM-450	True RMS Clamp Meter	\$39.95

F1-9119

GATEMOUTH TOOL BAG

The Gatemouth Tool Bag has 23 pockets to organize hand tools. Its wide opening accepts several different tools and the reinforced bottom protects tools.

PART #	DESCRIPTION	PRICE
F1-9119	Gatemouth Tool Bag	\$27.55

GREENLEE D'VersiBIT

The D'VersiBIT® System makes it easy to install various cables in preexisting structures. This patented system attaches a boring drill bit to a long flexible spring steel shaft. When used with the Placement Tool, the shaft can be flexed into position to gain optimal drilling angle within walls.

PART #	DESCRIPTION	PRICE
921-KIT	Quick CONNECT Extension System Kit	\$55.00
921-18	18" Extension	20.25
921-24	24" Extension	21.75
921-36	36" Extension	24.00
DBITKIT	D'VersiBIT Kit with 9/16" Bit	59.95

GREENLEE 68 PIECE DRILL DRIVER KIT

Made for the Trade - All bits are professional grade and meet or exceed ASTM standards. Masonry drills have a hardened shank that is hammer drill rated for better impact driving. High speed drills are titanium nitride coated, so they last longer and self-center so they don't walk when drilling. Greenlee's bits and drills in the new Electricians Drill/Driver kit are made for the demands of the trade. Ease and Convenience - All bits and drills in the kit have 1/4" Quick Change hex for fast, easy changeovers. Nut drivers are magnetic and fit most TapCon® fasteners. Kit also includes a 3" magnetic bit holder and quick release chuck with a precise fit and no play so the bit won't wobble when drilling.

PART #	DESCRIPTION	PRICE
DDKIT-1-68	68 Piece Drill Driver Kit	\$51.95

SHRINK TUBE KIT

A complete, compact kit that includes a lightweight, portable heat gun and a variety of multicolored heat shrinkable tubing in six-inch cut pieces. Used for splicing, identification, cable repair.

PART #	DESCRIPTION	PRICE
FITMINIGUN	Portable Heat Gun Kit w/ variety pack (110V Only)	\$100.50
FIT221	Variety Pack Refill (60 6" cut pieces)	29.35

FITMINIGUN

COLORLED SHRINK TUBES

The 13mm & 26mm are quality shrink tubes that contain adhesive inside of the tube.

PART #	DESCRIPTION	PRICE
F1-5527-GN	Green Shrink Tube (3/16")	39¢ ft
F1-5527-RD	Red Shrink Tube (3/16")	39¢ ft

TracerTape™

TRACERTAPE™

Tracertape™ is a functional product that is used for locating, pulling and measuring your duct and fiber. The Tracertape incorporates a solid corrosion resistant copper conductor which provides easy detection. Also available in 5,000 ft. reels. Call for double wire tracer tape. (not pictured)

PART #	DESCRIPTION	TENSILE/LBS.	PRICE
WPT1250	3,000 ft. Single Wire Reel	1,250 lbs.	\$260.00

Polyester Fiber Pull Tape

POLYESTER FIBER PULL TAPE

This product is available with a silicone lubricant, which is comparable with the lubricant used in the manufacturing of Innerduct, and greatly reduces the possibility of burn-through. The tapes are available with printed sequential footage markings for accurate measurements. Also available in 3,000 & 5,000 ft. reels.

PART #	DESCRIPTION	TENSILE/LBS.	PRICE
WP1250-500	500 ft. Metal Spool	1,250 lbs.	\$38.55
WP1250-I	1,000 ft. Wooden Reel	1,250 lbs.	53.00

TLF001J

CABLE PULLING LUBRICANT

Techlube FO (fiber optic) pulling lubricant is a high performance, pourable liquid polymer that was engineered to meet the special requirements of pulling innerduct, communications, coaxial and fiber optic cables. Techlube has superior friction reduction capabilities that make it an excellent choice for long distance and/or difficult placing applications.

PART #	DESCRIPTION	PRICE
TLF001J	1 Gallon Jug Cable Pulling Lubricant	\$19.95

CLR-5

GREENLEE CABLE LUBE

- Designed for use within electrical or datacom cable pulls. Clear and colorless for quick, easy clean-up
- Excellent lubricity for fast pulls (.27-.29 COF)
- Environmentally safe, non-hazardous, non-toxic and non-corrosive
- Easy to apply either by hand, brush or pump

KL-450	Kurly Lock, Natural, .40"- .50" Hold - 50 per bag	2.30

ACCESSORIES

- Keep racks neat and clean

- Can mount to wall for easy placement

It's easy for installers to over-cinch thin zip ties, resulting in macrobends that attenuate fiber optic cables. With copper cables, the weight of cables pressing against thin ties can damage or deform them enough to create crosstalk issues. To solve these problems, FIS has created the "Universal Cable Strap," the widest cable tie designed for communications cable. A padded version is available for fiber optic cable.

FIS Tie Wraps are 1" wide and 12" long and are available with or without protective foam padding. Sold in convenient packs of 6, 50, 100 pieces. Replace "X" with color of your choice: AQ=Aqua, BK=Black, BL=Blue, GR=Green, OR=Orange, YE=Yellow

FIBER OPTIC SPLICE TRAILER

The Splice Trailer protects the splicing operation from weather and debris, while providing the technician with convenience and comfort in the field. The trailer features a 6'6" interior height with insulated walls and ceilings. The entrance door is located at the rear of the trailer to provide maximum workspace in the interior. Two fiber optic cable doors (one in the back and one on the curb side) enable technicians to work on outdoor lines in an inside environment. Features: New Linoleum floor, rear step, heat and air conditioning units, 25 aluminum cabinets to store items, electric brakes, fluorescent lighting, a generator with an inside fuel gauge for added convenience and a full length roadside countertop. The ADJ front pintle hitch easily connects to the pulling vehicle, and more. Call your sales associate for additional specifications. FIS will arrange transportation anywhere in the world. Delivery not included in price. Outside Dimensions (16'10" L x 9' 1" W x 9' 7" H) (Length includes hitch.)

Coyote® DTC

- Closure specifically designed for Round or Flat Drop Cable
- Includes four cable entry ports and grommets for drop cable
- Max Splice Capacity - 16 single fusion / (3) 12 ribbon fibers
- In-Line or Butt application
- Compact Size: 9.1" x 7.6" x 1.7"
- Re-enterable and Re-usable
- Designed for direct buried, below grade, pole/wall mount or aerial applications

Coyote® LLC

- Compact Low Count Closure
- Closure specifically designed for Round or Flat Drop Cable
- Max Splice Capacity - 24 single fusion / 72 ribbon fibers
- In-Line or Butt application
- Compact Size: 17" x 7" x 2.5"
- Utilizes LITE-GRIP® splice platform
- Easy re-entry and re-usable
- Designed for direct buried, below grade, pole/wall mount or aerial applications

Coyote® In-Line Runt

- In-Line or Butt application
- Max Splice Capacity* - 80 single fusion / 288 ribbon fibers
- Capacity for two LITE-GRIP short trays
- Compact Size: 10" x 3.5" x 17.5"
- Re-enterable and Re-usable - No special tools needed
- Simple-to-use grommet sealing system with four grommet ports

Runt 8006671

This family of enclosures offers a wide variety of applications from aerial to direct burial installations. Coyote Classic Enclosure styles utilize the Tape and C-Cement sealing technology which experienced installers of copper and fiber optics are familiar with. With splice count options from 24-288 splices, the Coyote Classic line offers another set of options for a complete PLP offering.

GATOR 12 FIBER SPLICE CLOSURE

The Gator splice closure is a small butt splice closure primarily designed for splicing two loose tube "flat drop" style cables of 1 to 12 fibers in above ground, below grade, and direct buried applications. Accommodates up to 12 single fibers, 12 ribbonized fibers, or one 12 fiber ribbon. Two mounting tabs are integrated into the closure base to allow easy mounting. Gel-Sealing Technology. Re-enterable but not re-usable.

2178XSBEGET

2178 Series

2178-LS

3M 2178 SERIES CLOSURES (SPLICE TRAYS NOT INCLUDED)

The 3M™ Fiber Optic Splice Closure 2178 family provides excellent system flexibility for both existing and new fiber deployments. Products in the 2178 family are industry-proven and comply with appropriate UL and Telcordia standards. The flexible design and common accessories allow you to maintain a reduced inventory, saving time and money. The 2178 family accommodates most splicing configurations (inline or butt). All of the closures in the 2178 family feature tough, rigid non-filled closures tested under harsh, real-world situations to stand up to severe conditions of moisture, vibration and temperature extremes.

PART #	DESCRIPTION	PRICE
2178-XSBEGOT	Compact Splice Case (14.5"L x 10"W x 4.6"H), 3 cable ports, butt splice only, use 2532 splice tray	\$132.00
2178-S	Small Splice Case (21.9"L x 8.5"W x 4.7"H), up to 96 splices, use 2522/2523 splice trays	235.00

2178XL	X-Large Splice Case (28.9"L x 13.1"W x 10.5" H), up to 768 Fusion 1,152 Mass splices (2-2527 trays included)	758.00

3M FIBER OPTIC SLIC™ AERIAL CLOSURES (SPLICE TRAYS NOT INCLUDED)

The free-breathing, weather-resistant, single-piece aerial closure can be very easily installed for new construction or maintenance applications. The single-piece construction permits complete splice access after placement without the removal of the closure from the cable. These free-breathing closures are designed for strand-mount in-line, butt or taut sheath single or ribbon fiber applications. The maximum splice capacity of the 533 closure is 144 single and 432 mass fusion splices. 3M™ SLIC™ Fiber Aerial Closures are tested to Bellcore requirements for free-breathing closures (FBCs) and Rural Development (RUS) Listed.

PART #	DESCRIPTION	PRICE
SLFC-533-SP-1A	533 Free Breathing SLIC™ (Mid/Endspan) Dimensions: 33"Lx 5"D 72 single fusion 2527 (24ct tray)	\$153.00

FIBER OPTIC SNO SHOES

The plastic Sno Shoe is used to store additional lengths of fiber along the strand for later use. Sno Shoe is a durable and cost effective tool for storing fiber optic cable in the air. Adjustable Sno Shoes can be used aerially with standard tap brackets or the optional ADSS brackets. It can be mounted directly to the pole, or even in a manhole – anywhere you would want to store all of the slack at one location. Sno Shoes sold per pair.

PART #	DESCRIPTION	PRICE

MULTILINK OPTICAL TERMINATION ENCLOSURE (OTE)

The Multilink OTE is designed to support the splicing and termination of optical drops and traditional splicing in aerial, pole or wall mount applications. The cover is designed with a latching mechanism to prevent inadvertent closing during installation activities. The OTE is fully kitted to reduce ordering of numerous parts or kits. Enclosure utilizes an easy to assemble cable sealing and retention system, no special tools needed. Specifications: 18.5" x 11.5" x 6.0" • Cable entry ports: (8) total- 2 express/feeder, 2 branch or lateral, 4 Multiport

• Express/Feeder cable diameter- Max. 1.124", Min 0.375" • Branch/Lateral cable diameter- Max. 0.98", Min 0.30".
• Capacity: Standard splice trays: 3 (enclosure is equipped with 1 tray) • Standard cables: 4 (2 express/feeder, 2 branch/lateral)

• FTTH Drops: 4 ports (up to 24 individual drops) • Standard single splices: 36 (can be equipped to support up to 60 fibers)

F1-RU24

F1-RU72

FIS HIGH DENSITY RACK MOUNT / PATCH & SPLICE

The FIS 19" High density rack mount panel box provides many flexible configurations in a 1RU or 4RU form factor. The slide-out tray in the F1-RU24 can be configured to hold three adapter panels and a splice tray, while the F1-RU72 can be configured to hold 12 adapter panels. These boxes are perfect for high density applications or any location where rack space is at premium. Boxes provide ample room for both mechanical and fusion splices.

- Slide-out tray
- Multiple internal mounting holes for cable tie-down, fiber management or splice tray mounting
- Hinged front and rear doors
- 19" mount converts to 23" frame
- Available in 1U and 4U units

AFL WALL MOUNT ENCLOSURES

AFL's wall mount interconnect enclosures provide a convenient convergence point for interconnecting and/or splicing in wall mount applications. Provisioned for LGX compatible adapter plates or optical modules, the enclosure features a well-engineered solution for fiber and cable management on both the ingress and egress openings of the enclosure. All WME series enclosures feature discrete access doors for provider and customer access which are independently lockable with a common pad-lock or tube-style key lock.

PART #	DESCRIPTION	PRICE
WME-02	AFL Wall Mount Enclosure, Accommodates up to (2) LGX 118 adapter panels 12.0"H x 14.0"W x 2.5" D	\$86.00
WME-04	AFL Wall Mount Enclosure, Accommodates up to (4) LGX 118 adapter panels 12.0"H x 14.0"W x 3.63" D	133.00

CORNING CABLE SYSTEMS WALL MOUNT ENCLOSURES

These metal cabinet units are suitable for loose tube and tight-buffered fiber optic cables. Enclose your fiber optic connections and, for extra protection, locking kits are available for purchase. Patch and splice your fiber cables with the purchase of a splice tray holder and trays for your application.

PART #	DESCRIPTION	DIMENSIONS (HxWxD)	PRICE
WCH-02P	12 fiber WCH will Accept up to (2) CCH Adapter Panels	9.25" x 13.25" x 3.25"	\$79.85

FIS 4 PORT WALL MOUNT

The 4-Port Wall Mount Box is a compact design ideal for data applications. It can either be wall mounted or placed in a floor box and can house up to (4) fibers, inline adapters and pigtails. Cables can be easily terminated or spliced together. The wall mount has facilities for incoming cable/fiber to be presented via mini-trunking grommets.

PART #	DESCRIPTION	PRICE
F1-WM4PW	4-Port for ST, FC, SMA or D4 - Adapters not included	\$9.25
F1-WM4S	4-Port for (2) SC Duplex Adapters - Adapters not included	11.75

FIS SPLICE ENCLOSURE

The splice enclosure unit utilizes a 12 position molded splice chip to secure splices, for controlled environments, to be mounted on a wall. Cable entry grommets secure incoming/outgoing cable up to 12mm. Inside clamps provide the ability to coil excess cable. The F1-2011 is the same; it replaces splice holding chips with two mounted ST Mating Sleeves, handling up to 7mm cable. Dimensions: 2 1/8"(W) x 6 3/4"(L) x 4 3/4"(H)

PART #	DESCRIPTION	PRICE
F1-4868-FSS	Fusion Splice Enclosure (up to 7mm cable size)	\$39.00
F1-4868-MSS	Mechanical Splice Enclosure (up to 7mm cable size)	39.00
F1-4868-FLL	Fusion Splice Enclosure (7mm to 12mm cable size)	39.00
F1-4868-MLL	Mechanical Splice Enclosure (7mm to 12mm cable size)	39.00

FIS SPLICE TRAY

The FIS Splice Tray is injection molded using UL94 fire retardant material. The tray is designed to fit in most splice closures and can accommodate 12 fusion, mechanical, bare fiber splices or 6 rigid fusion splices depending on the splice chips chosen. See splice holding chips below. The standard version accepts 12 fusion splice protection sleeves. Features include: fiber routing molded into the tray, fiber tie down holes, snap or slide together construction. Dimensions 7" L x 4.25" W x .48" H

PART #	DESCRIPTION	PRICE
F1-6808	Single fusion Splice Tray	\$9.95
F1-6808M	Mechanical Splice Tray	9.95
F1-6808BA	Bare Fiber Splice Tray	9.95

FIS ALUMINUM SPLICE TRAYS

The FIS Aluminum Splice Tray is available with four splice holding chip selections. In addition to the standard 12 position fusion and mechanical splice chip, purchase a 12 position bare fiber chip. The FIS Splice Tray is provided with a user installable press-on 'L' bracket when user desires looping to exit or enter side. Features of tray include: plastic coated aluminum, foam padded cover, radius sides and punched end holes. Complete instructions include how tray is installed into F1-2010 interconnect. Dimensions 7.5" L x 4" W x .63" H

PART #	DESCRIPTION	PRICE
F1-6707F	Fusion Splice 12 Position Soft Accepts Protection Sleeves	\$13.50

DID YOU KNOW?

LGX compatibility is a standard that is popular with most manufacturers. LGX compatibility is a standard distance between the black snap fasteners found on each end of the adapter panel. If an enclosure and an adapter panel are LGX compliant, those units will have the same specification dimensions for the snap fasteners and the panels can be used interchangeably.

LEVITON OPT-X ADAPTER PLATES

Designed to fit all Opt-X enclosures these adapter plates are available loaded with pre-installed fiber optic adapters such as LC, SC, ST, and MTP.

CCS ADAPTER PANELS FOR CCH, WCH AND EDC SERIES

The Closet Connector Housing (CCH) panels are available in a variety of adapter styles for use with the LANscape® hardware products. Manufactured from steel, they are designed to be robust. Choose from the selection below or ask an FIS representative for other configurations.

PART #	DESCRIPTION	PRICE
CCH-CP06-15T	Six ST MM, Ceramic Insert	\$32.80
CCH-CP06-19T	Six ST SM, Ceramic Insert	31.80
CCH-CP12-15T	Twelve ST MM, Ceramic Insert	45.45
CCH-CP12-19T	Twelve ST SM, Ceramic Insert	64.45
CCH-CP06-56	Six SC MM, Metal Insert	35.30
CCH-CP06-38	Six SC SM, Ceramic Insert	42.45
CCH-CP12-91	Six Duplex SC MM, Metal Insert	53.15
CCH-CP12-59	Six Duplex SC SM, Ceramic Insert	76.95
CCH-CP06-11	Six FC MM/SM, Ceramic Insert	55.30
CCH-CP12-97	Six MT-RJ MM Adapters	36.95
CCH-CP12-98	Six MT-RJ SM Adapters	64.95
CCH-CP12-A8	Six Duplex LC MM, Ceramic Inserts	78.60
CCH-CP24-E4	Twenty Four-Fiber LC, 10 Gig - Aqua	153.10
CCH-CP12-E7	Twelve-Fiber SC, 10 Gig - Aqua	70.25

19" 12 PORT PATCH PANELS

All metal feed through patch panel, available in SC, ST, FC, SMA and FDDI style adapters.

Enclosure for cable management not included.

UNIVERSAL MOUNTING BRACKET FOR CORNING WCH & CCH BOXES

Now available from FIS is a Universal Mounting Bracket that allows installers to use adapter plates from FIS, Leviton, Multilink among other manufacturers in existing installations. These mounting brackets accept adapter plates (dimensions 1 1/4" x 5 1/8") into other manufacturer interconnects such as Corning WCH & CCH series boxes. When original manufacturers plates are not available installers can simply install this universal mounting bracket and utilize other plates to complete adds and changes. These mounting plates accept and work well with all adapter plates on this page or with Snap Packs™.

PART #	DESCRIPTION	PRICE
F1-CCHBK	Universal Mounting Bracket for Corning WCH & CCH Boxes (adapter plate not included)	\$3.99

PIVOTING PANEL MOUNT WALL MOUNT RACKS PROVIDE EASY REAR ACCESS

- Unique design allows punching down while fully open
- Solid back and open back design for mounting over wall obstructions such as conduit or raceways

- Abundant internal tie points for cable management
- Includes hook and loop cable fasteners

PART #	DESCRIPTION	PRICE
PPM-2	2RU x 6"D Pivoting panel mount	\$55.00
PPM-4	4RU x 6"D Pivoting panel mount	65.00
PPM-6	6RU x 6"D Pivoting panel mount	69.00
PPM-6-12	6RU x 12"D Pivoting panel mount	110.00
PPM-8-12	8RU x 12"D Pivoting panel mount	120.00
PPM-8-18	8RU x 18"D Pivoting panel mount	135.00
PPM-6-16OB	2RU x 6"D Open Back Piv panel	115.00

SWING FRAME RACK

- Open-back design maximizes useable wall space
- 90° opening with positive stop facilitates punching down of wires

- Ships ready-to-assemble to reduce space needed for storage and transport
- Abundant tie points and cable pass-throughs ease cable management

PART #	DESCRIPTION	PRICE
SFR-12-18	12RU x 18" Deep swing wall rack	\$145.00
SFR-12-24	12RU x 24" Deep swing wall rack	165.00

CABLE MANAGEMENT

MULTIRACEWAY USED FOR FIBER OPTIC & COPPER CABLE

The one-piece design of rigid vinyl features a highly flexible hinge and self-locking latch. Holding cables to a one inch bend radius, end-to-end connectivity can be maintained even when raceway is filled to capacity. Sizes available: 3/4", 1 1/4" and 1 3/4". Please note all Raceways are Ivory color.

PART #	DESCRIPTION	PRICE
MRM17-I-T	MultiRaceway Molding 1 3/4"W x 1"H x 6'L (a) (Minimum Qty. 10)	\$9.75
MRF17-OCR-I	MultiRaceway Outside Corner Fitting 1 3/4"W (b) (Minimum Qty. 10)	1.35

PD-2020R-NS	One 20 Amp, 2-stage with remote notification	20 (10 front, 10 rear), always on, breaker	92.20

PLP TELEGRIP

Telegrips are designed for service drop applications of coaxial cables. Flexible but firm, Telegrips exceed mechanical holding requirements for coaxial cable. The long length design reduces stress levels and eliminates the possibility of crushing the cable or affecting its dielectric properties. Also, its unique gripping principle prevents bending that can cause "snow" or distortion of the television picture.

PART #	DESCRIPTION	PRICE
DE-1500	Telegrip/.242 RG59U/.275 RG6/U - Package of 500	\$330.00

PLP DROP WIRE DEAD-ENDS

PREFORMED™ Drop Wire Dead-ends and Figure-8 Dead-Ends provide an easy, low-cost way to support service drop wire without bail failures or stripping of the insulation. Rapidly applied by hand without tools, they are adjusted to exert firm uniform holding power throughout their length, without crushing or damaging drop wire. Wrap-on design prevents potentially damaging stress points. PREFORMED Drop Wire Deadends present a trim, neat appearance, and are manufactured of neoprene-coated stainless steel for added protection against the elements

PART #	DESCRIPTION	PRICE
DE-2505	Dead-End Service Mess - Package of 200	\$160.00
DE-2518	De-dual-coax/GS-.405, RG11/U - Package of 200	550.00

PLP GUY GRIP DEAD ENDS

GUY-GRIP Dead-ends, installed at the top, the breaker and the anchor, provide today's most effective method for securing guy strand. This unique, one-piece dead-end is neat in appearance and free from bolts or high-stress holding devices. The GUY-GRIP Dead-end was the first to offer the cabled loop, a feature that provides more durability, easier tensioning and adaptability to multiple guying.

PART #	DESCRIPTION	PRICE
GDE-1104	Guy-Grip Dead-End 1/4" - Package of 50	\$182.50
GDE-1106	Guy-Grip Dead-End 5/16" - Package of 50	240.00
GDE-1107	Guy-Grip Dead-End 3/8" - Package of 50	297.50
GDE-1108	Guy-Grip Dead-End 7/16" - Package of 25	232.50

PLP FALSE DEAD-ENDS

PREFORMED False Dead-ends are a fast, safe, and economical method for false dead-ending strand. They are designed to be easily applied without any special tools, and because False Dead-ends are made from the same material as the strand, they will hold the same published rated breaking strength.

PART #	DESCRIPTION	PRICE
GFDE-2121	False Dead-End 1/4" - Package of 25	\$153.73
GFDE-2123	False Dead-End 5/16" - Package of 25	167.50
GLS-1104	Splice-Strand - Package of 50	242.50

PLP POLYETHYLENE GUY-GUARD

PREFORMED™ Guy Markers are used for identifying Down Guys or other wire and cable installations where anchoring devices are exposed to pedestrian and/or vehicular traffic.

PART #	DESCRIPTION	PRICE
PG-5716	Polyethylene Guy-Guard - Package of 25	\$283.75
PG-5717	Polyethylene Guy-Guard - Package of 25	290.00
PG-5718	Polyethylene Guy-Guard - Package of 25	296.25

PLP TREE GUARDS

PREFORMED™ Tree Guards are designed to protect bare conductors, fabric-covered or plastic-covered cables and fiber optic cables against mechanical abrasion caused by tree limbs or other obstructions. Tree Guards provide fast, easy application without disconnecting the wire. Tree guards are applied around the wire, and taped at each end. High impact polyethylene has strong abrasion resistance, strong weathering endurance, and high dielectric properties.

PART #	DESCRIPTION	PRICE
PTG-0202	Tree Guard-Poly (1"x8") - Package of 450	\$157.50
PTG-0203	Tree Guard-Poly (1"x6") - Package of 60	186.00
PTG-0207	Tree Guard-Poly (2"x6") - Package of 20	122.00

**TEMPO COPPER TESTING KITS**

When it comes to wire identification, there's no better tool to have than the 701K Classic Tone & Probe Kit, from the world's largest manufacturer of tone & probe kits! This popular tone & probe kit is used by technicians everywhere to identify single conductors or cables within a bundle at a cross-connect point, or at remote ends.

Designed for more accurate wire identification, the 801K virtually eliminates power-related noise from their tone and probe operation. Our finest wire identification kit, the 801K Premium Tone & Probe Kit offers all the features professionals are looking for.

Tone & Probe Kit Includes: 77HP High Power Tone Generator and the 200EP Inductive Amplifier in a Rugged, Woven Polyester Carrying Case.

**NETCAT STRUCTURED WIRING TESTER & TROUBLE SHOOTER**

The NETcat® Pro is a digital tool for fast, accurate checking of cables, wiring and network service. Operated using a back-lit touch screen display, the Pro not only tests wiring continuity and proper pair allocation, but measures the length of cables and determines if network service is available.

FEATURES

- Verifies the Integrity of Both Twisted Pair and Coaxial Telecom Cable
- Test Wiring Continuity and Check for the Correct Allocation of Wire Pairs
- Fast, Accurate Checking of Cables, Wiring, and Network Service
- Measures the Length of Cables and Determines if Network Service is Available

PART #	DESCRIPTION	PRICE
NC-100	NETcat Micro Digital Voice and Video Wiring Tester	\$94.00
NC-500	NETcat Pro Digital VDV Wiring Troubleshooter	289.00

GREENLEE CABLESCOUT® AND TELSCOUT® COPPER TDR

Tempo TelScout® TS90 Cable Fault Locator is designed for ease-of-use. You'll spend less time operating the TDR and more time repairing faults. Simply select the cable type to be tested and the TS90 does the rest. Impedance, Vp, gain, pulse width and vertical position are automatically selected and adjusted as you scan the cable. Just move the cursor to the fault to pinpoint its location. The TV220 delivers high performance, yet is so easy to use that little or no training is required. This leading edge TDR can test more system bandwidth and expose faults that have been previously invisible to TDR yet still an impairment to digital signals. The TV220 also introduces one-button testing.

FEATURES

- Copper TDR Designed for CATV Applications
- Ideal Choice for Digital Broadband Coax (TV220)
- Designed for Telephone Twisted Pair Applications (TS90) + (TS100)
- All Units Include Test Leads or Cables, Carry Case and Rechargeable Batteries

PART #	DESCRIPTION	PRICE
TV90	CableScout® TV90, 6 & 12ns pulse widths	\$1,405.00
TV220	CableScout® TV220, dual trace, 1, 5 & 25ns pulse widths, trace storage/download	3,699.00
TS90	TelScout® TS90, 5 to 2500ns pulse widths	1,455.00
TS100-01	TelScout® TS100, 5 to 3000ns pulse widths, trace storage/download	2,700.00

FLUKE
networks

DTX-1800

FLUKE DTX CABLE ANALYZERS

The DTX CableAnalyzer Series from Fluke Networks is the testing platform for today - and tomorrow. This revolutionary new future-proof platform significantly reduces total time to certify by improving every aspect of the testing process. The AC Wiremap feature validates twisted-pair cabling for Power over Ethernet services in accordance with TIA/EIA standards, even if a Midspan power supply is used.

FEATURES

- Exceeds Spec Requirements for Cat 5e/6/7 with Superior Level IV Accuracy
- 900 MHz Future-Proofs your Investment for Future Applications such as 10 Gigabit Ethernet, Class F and CATV
- Resident Fiber Modules let you Switch Between Copper and Fiber

PART #	DESCRIPTION	PRICE
DTX-1800120	Cable Analyzer	\$9,115.00
DTX-10GKIT	Alien Crosstalk Analyzer Kit for DTX-1800 (Certify cabling for 10Gb/sec Ethernet deployments)	2,865.00
DTX-1800-MS120	Cable Analyzer (w/Copper & Fiber Certification Modules)	19,085.00
DTX-1800-MSO120	DTX-1800 Copper/Fiber OTDR Kit	33,207.00
DTX-OTDR-KIT	DTX OTDR Kit	12,314.00

JDSU CERTIFIER40G CABLE CERTIFIER

This next-generation cable certifier maximizes installer productivity with the fastest testing time, saving 30 minutes each time 150 CAT-6A cables are tested. Certifier40G protects your investment with the most advanced tester that certifies beyond TIA-568 standards, with a 1600 MHz measurement frequency. It saves technician time by eliminating unnecessary walking between local and remote units.

FEATURES

- Large Touch Screen at both test ends
- Future proof 1600 MHz testing exceeding Level IV accuracy
- Fast CAT 6A/Class FA test of 9 seconds
- Fastest Tier I fiber certification of 8 seconds w/ optional integrated fiber & end face inspection

PART #	DESCRIPTION	PRICE
NGC-4500-FA-NA	Certifier40G Cat 6A Master & Remote unit Testing Kit	\$8,800.00
NGC-4500-MM-NA	Certifier40G including 2 MM test adapters, reference cables, and mandrels	12,550.00
NGC-4500-MMSM-NA	Certifier40G Cat 6A Test Kit w/ MM & SM modules, including adapters & reference cables	18,495.00

JDSU

MEGGER STRUCTURED CABLING TESTER(SCT)

The SCT Series is a range of high-performance testers for certifying and evaluating copper and fiber cabling installations. Designed for cable installers and network owners who need to certify the performance of high-speed cabling to today's industry standards and tomorrow's emerging standards, the SCT Series delivers unmatched performance and accuracy.

FEATURES

- Certifies Category 7, 6a, 6, and 5e Cabling
- Exceeds Level IV Accuracy
- 1 to 1,000 MHz Frequency Range
- Powerful Diagnostics Pinpoint the Distance to Link Disturbances on Each Measured Pair
- Low Operating Cost and Superior Reliability

PART #	DESCRIPTION	PRICE
SCT-1500	Tests up to 350MHz	\$6,695.00
SCT-2000	Tests up to 1000MHz	7,295.00

SCT-MMA	Multimode Fiber Adapters (Set of 2)	\$4,050.00
SCT-SMA	Singlmode Fiber Adapters (Set of 2)	5,200.00
SCT-AXT	SCT2000 Alien Crosstalk Adapter	1,575.00

TEMPO SIDEKICK FAULT TESTER

The Sidekick® Plus Advanced Cable Maintenance Test Set is a multifunction test tool that will improve any technician's testing and troubleshooting capabilities on twisted pair. It uses digital technology to combine VOM and loop current tests, longitudinal balance (Stress Test), transmission and noise, open locator, load coil detection, RFL and a powerful TDR into one easy-to-use test set. Test functions can be selected and used individually, or run automatically by using the innovative Auto-test.

FEATURES

- Patented Stress Test to Measure Audible Noise on a Pair
- The Leakage Test Also Detects Intermittent Resistance Faults Undetectable with a VOM Tester
- Features Transmission and Noise Testing and is Available with a Traditional Analog

PART #	DESCRIPTION	PRICE
1155-5000	Sidekick Plus advanced cable maintenance test set	\$2,715.25
1143-5000	Sidekick VOC	782.75

CABLE MONITOR

Fiber-Safe is a compact affordable network cable monitor that notifies of a problem with the installed cable. Intended for use with multi-fiber cables in a large LAN system, simply plug two spare fibers into the control unit and technicians will be notified if a problem arises with the installed network cable. Utilizing a loop back in the fiber cable our control unit monitors a power level within the cable and if attenuation increases or a break occurs the control unit has relay outputs that easily integrates with alarms or auto dialers. Be aware of a potential network problem before getting a phone call from terminal users, this attractive monitor provides technicians with a quicker route to solving a network problem.

CS Series Converters

GARRETTCOM MAGNUM MEDIA CONVERTERS - YELLOW LABEL

GarrettCom offers a full line of Converter Switches. These Converters have two 10/100 RJ-45 ports with a wide variety of fiber offerings. They are also available in AC and DC models with 12, 24 and 48 VDC versions available. They are all DIN Rail Mountable with the purchase of a DIN Rail Mounting Kit. They are also available in three levels of ruggedness. The Yellow Label or Standard version is designed for the office and wiring closet. Please contact your FIS Representative for part numbers and pricing on any units you do not see listed.

PART #	DESCRIPTION	PRICE
CS14SC	Converter Switch with One 100Base-FX SC/MM and Two 10/100 RJ-45 Ports YELLOW Label (Office Rated)	\$168.00
CS14ST	Converter Switch with One 100Base-FX ST/MM and Two 10/100 RJ-45 Ports YELLOW Label (Office Rated)	168.00
CS14SSC	Converter Switch with One 100Base-FX SC/SM (15km) and Two 10/100 RJ-45 Ports YELLOW Label (Office Rated)	435.00
CS14SSCL	Converter Switch with One 100Base-FX SC/SM (40km) and Two 10/100 RJ-45 Ports YELLOW Label (Office Rated)	695.00

FIS MEDIA CONVERTER RACK

FIS Media Converter Rack, MCR-1400 is designed to accommodate fourteen separate and independent media converters within a rack-mountable chassis. The rack is fitted with two switching power supplies for enhanced reliability. This means that if one supply should fail, the other is capable of taking over immediately. The MCR-1400 can also be installed in a standard 19-inch site rack; provision has been made for the appropriate connecting brackets.

PART #	DESCRIPTION	PRICE
MCR-1400	Media Converter Rack Mount with redundant power (Not Pictured)	\$207.00

GARRETTCOM RACK MOUNT TRAY FOR MEDIA CONVERTERS

Rack-mount (19 inch RETMA) tray, rugged metal construction. Holds any combination of 10Mb, 100Mb, Gb. Fits Magnum converter switches, convenient switches, edge switches and media converters.

PART #	DESCRIPTION	PRICE
MC14TRAY	Rackmount Tray for 16 Converter Switches	\$140.00

SIGNAMAX RACK MOUNT MEDIA CONVERTER CHASSIS

The Signamax 16-Bay Rack Mount Media Converter Chassis provides higher rack mount media converter density for large installations that can accommodate rear access to the chassis for power supply maintenance; space for all 065-11xx series Signamax media converters in a standard two rack unit high enclosure.

PART #	DESCRIPTION	PRICE
065-1185	16 Bay Rack Mount Media Converter Chassis	\$450.00

SIGNAMAX DIN-RAIL INDUSTRIAL HARDENED MEDIA CONVERTERS

Signamax Din-Rail Industrial Hardened Media Converters have been developed to operate in harsh industrial environments that require ruggedized equipment that can operate in severe temperature extremes. These media converters are an affordable solution for outdoor environments, transportation roadside systems, shop floors, and other harsh environments where consistent operation at temperature extremes of -40°F to 176°F (-40°C to 80°C) is necessary.

(Meets NEMA TS1 Environmental Requirements for Traffic Control Equipment)

CS Series Converters

The Top Ten Questions to Ask When Choosing a Switch

When choosing a switch, the following questions can help you make the right purchase decision. After reviewing these questions our sales staff can provide further guidance in making the right purchase.

1) How many devices will I be using in my application?

Determining the number of computers, printers, and other network devices that will be connected to the switch is critical. Most mid-level switches have 24 ports and, if necessary, can be stacked to provide further network flexibility.

2) What is the speed at which I need my network to perform?

Does the switch require 100Mbps ports or 1Gbps ports? A lot depends on the cabling used as well as the device Network Interface Card (NIC). If network applications include video, voice or high resolution digital images, a Gigabit Ethernet switch may be preferred. Larger networks and/or specialized high-bandwidth applications such as medical imaging may require 10 Gigabit ports.

3) What is my network cabling structure?

If you are upgrading a network, the existing cabling infrastructure pretty much dictates cable type, network speed, switch interconnections (port counts) and so forth. If you are purchasing switches for a new network, this information isn't so apparent. Review the blueprints with the network designer and ask for written specifications for each switch to eliminate uncertainty.

4) How long is the cabling that will be connected to the switch?

For links that exceed the transmission distance of copper, you can use switches that have built-in fiber ports. This will enable you to use fiber optic cabling to achieve the transmission distances required.

100 meters is the maximum distance that copper cable can be run under the 10/100/1000baseTX standard. This represents 90 meters of cabling in the horizontal run plus two five-meter patchcords for connecting equipment at each end of the run. The standard does not allow "tradeoffs." For example, if you have a 40-meter horizontal run (50 meters less than the maximum length), you cannot add the "unused" meters to extend the maximum allowable length of the patchcords.

5) Do I need flexible control of the network's operation?

While an inexpensive unmanaged switch might "work" in terms of data throughput, it doesn't provide much in terms of functionality. A managed switch provides more control over the network in terms of security, performance and traffic management.

6) Do my network devices require Power over Ethernet?

Supplying electrical power through LAN cabling can save on power extension costs for such devices as IP security cameras, IP phones and wireless access points (WAP) devices.

7) How will I mount the switch?

Switches are available for rack mount, din-rail, stackable, and desktop installation.

8) What is my budget?

It's always a good idea to install a switch that has extra capacity for future network expansion. However, IT managers have budgets, so price must be taken into consideration.

9) What are the future plans for expansion in the network?

Ask some open-ended questions regarding user needs and expectations. It is surprising how much you can learn by expanding your checklist beyond "yes and no" questions.

10) Is this my network?

Remember, if you are not the manager of the network you are installing be sure that the user, customer, and network manager are in agreement with all of your answers to these questions. There are many ways to use these devices to meet network demands. By asking these questions you can save a lot of aggravation and you'll be better able to meet users' expectations.

FIS THREE-PORT MINI SWITCHES

FIS mini-switches provide a simple and inexpensive way to add additional computers to a network. The 3-port Mini Switch has (2) 100Mbps fiber ports and (1) 10/100Mbps twisted pair copper port. Meets IEEE 802.3, 802.3u and 802.3X Standards. This switch provides Media conversion for TP and fiber optic media types and extends network spans and has 10/100Mbps, auto-negotiation on the twisted pair port. External power supply included.

PART #	DESCRIPTION	PRICE
F1-SWMM1	3-Port Mini Switch with (2) 100Base-FX MM/SC and One 10/100Base-T/TX Port	\$165.00
F1-SWSM1	3-Port Mini Switch with (2) 100Base-FX SM/SC and One 10/100Base-T/TX Port	265.00

FIS EIGHT-PORT DESKTOP SWITCHES

An inexpensive way to connect remote LAN devices using existing fiber backbone. FIS has 8-port Desktop Switches with one fiber port in each. The 8-port switch has (1)100Base-FX and (7) 10/100Base-T/TX ports. Multimode units support up to 2km and Singlemode up to 20km. External power supply included.

PART #	DESCRIPTION	PRICE
F1-JC08A-MS	8-Port Switch with 1 MM/SC Fiber Port and (7) 10/100 Twisted Pair Ports	\$122.00

SIGNAMAX UNMANAGED POWER OVER ETHERNET SWITCHES

This new 8-Port 10/100BaseT/TX Power over Ethernet (PoE) Full-Power switch provides the capability to remotely power up to eight wireless access points, VoIP telephones, Powered Device (PD) media converters, and other devices that meet the IEEE 802.1af PoE standard.

PART #	DESCRIPTION	PRICE
065-7308POE-FP	8 Port 10/100 Base T/TX Unmanaged Full Power Switch w/ 8 PoE Ports	\$253.00
065-7308POE-FPRM	Rack Mount Kit for 065-7308POE	13.00

GARRETTCOM UNMANAGED MAGNUM EDGE SWITCH - YELLOW LABEL

The Magnum Edge Switch series has a 2 fiber port version also has (4) 10/100 twisted pair ports and the single fiber port versions have (5) 10/100 twisted pair ports. The units can be used in self-healing redundant LANs, with two sets of LEDs for viewing from any direction.

PART #	DESCRIPTION	PRICE
ES42-2SC	6 Port Switch, 2 MM/SC Fiber 100Mbps Ports and (4) 10/100Mbps Ports Office Rated	\$329.00
ES42-2SSC	6 Port Switch, 2 SM/SC Fiber 100Mbps Ports and (4) 10/100Mbps Ports Office Rated	606.00

SIGNAMAX MANAGED FIBER ETHERNET ACCESS SWITCHES

The Signamax managed fiber switches are the most cost effective way to extend fiber to the desktop from a gigabit Ethernet fiber backbone. These switches are available with two 1000BaseFX ports for Singlemode or Multimode fiber. SNMP, web-browser, local terminal connection and Telnet remote terminal management capabilities are included.

PART #	DESCRIPTION	PRICE
065-7732AFSC	24-Port 100BaseFX MM/SC + 2-Port 1000BaseSX MM/SC	\$3,410.00
065-7732AFSM	24-Port 100BaseFX SM/SC + 2-Port 1000BaseLX SM/SC	8,868.00

SIGNAMAX MANAGED AND WEBSMART ETHERNET SWITCHES

These switches provide non-blocking performance for 24 10/100 and 24 10/100/1000 Gigabit Ethernet connections, modern QoS and tagged VLAN capabilities, and full SNMP management at a surprising low cost. Two dual media Gigabit Ethernet ports use auto-detected Small Form-Factor Pluggable (SFP) modules for fiber optic switch interconnection at extended distances.

PART #	DESCRIPTION	PRICE
065-7940CWS	24 Port 10/100/1000 Base T/TX Websmart Switch + 4 SFP Ports	\$434.00
065-7726S	24 Port 10/100 Base T/TX Managed Stackable Switch + 2 SFP/RJ-45 Dual Media Ports	434.00
065-7841	24 Port 10/100/1000 Base T/TX Managed Stackable Switch + 4 SFP Dual Media Ports	815.00

SIGNAMAX MANAGED POWER OVER ETHERNET SWITCHES

This new stackable managed power over ethernet (PoE) switch provides the capability to remotely power wireless access points, VoIP telephones, powered device media converters and other devices that meet the IEEE 802.1af PoE standard. Available in 24 port 10/100 Base T/TX, accepts 2 - 1000 Base SFP module.

PART #	DESCRIPTION	PRICE
065-7726SPOE	24 Port 10/100 Base T/TX Managed POE Switch + 2 SFP/RJ45 Dual Media Ports	\$920.00
065-7726SPOE-FP	24 Port 10/100 Base T/TX Managed Full Power Switch + 2 SFP/RJ45 Dual Media Ports	1,366.00

SIGNAMAX UNMANAGED HARDENED INDUSTRIAL SWITCHES

Signamax's 5, 8, & 9 Port Hardened Industrial DIN-rail Mount Switches have been developed to operate in harsh industrial environments that require ruggedized equipment that can operate in severe temperature extremes. These switches are an affordable solution for outdoor environments, transportation roadside systems, shop floors, and other harsh environments where consistent operation at temperature extremes of -40°F to 167°F (-40°C to 75°C) is necessary. (Meets NEMA TS1 and TS2 Environmental Requirements for Traffic Control Equipment)

PART #	DESCRIPTION	PRICE
065-7405TB	5 10/100BaseT/TX ports, 24 V DC Redundant Power Terminal Block	\$248.00
065-7408ATB	8 10/100BaseT/TX ports, 24 V DC Redundant Power Terminal Block	269.00
065-74091FXSCTB	8 10/100BaseT/TX ports, + 1 100BaseFX SC Multimode port, 2 km Span	559.00
065-74091FXSTTB	8 10/100BaseT/TX ports, + 1 100BaseFX ST Multimode port, 2 km Span	559.00
065-7408PTB	8 10/100BaseT/TX ports (4 PoE), 48 V DC Redundant Power Terminal Block	609.00
065-7408P1FXSCTB	7 10/100BaseT/TX ports (4 PoE) + 1 100BaseFX SC Multimode port, 2 km span	912.00
065-7408P1FXSTTB	7 10/100BaseT/TX ports (4 PoE) + 1 100BaseFX ST Multimode port, 2 km span	912.00
065-7408P1FXSMTB	7 10/100BaseT/TX ports + 1 100BaseFX SC Singlemode port, 15 km span	1099.00

(Alternate fiber port configurations for the above are also available by special order.)

GARRETTCOM UNMANAGED MAGNUM EDGE SWITCHES - ORANGE & RED LABEL

The Magnum Edge Switch series has a 2 fiber port version also has (4) 10/100 twisted pair ports and the single fiber port versions have (5) 10/100 twisted pair ports. The units can be used in self-healing redundant LANs, with two sets of LEDs for viewing from any direction. The Magnum ES series is available with 2 ratings, hardened for factory floors and premium for outdoor temperatures. Available in a large variety of connector styles, please contact your FIS representative for availability.

PART #	DESCRIPTION	PRICE
ES42H-2SC-HD	6 Port Switch, 2 MM/SC Fiber 100Mbps Ports and (4) 10/100Mbps Ports Factory Hardened	\$478.40
ES42P-2SC-HD	6 Port Switch, 2 MM/SC Fiber 100Mbps Ports and (4) 10/100Mbps Ports Outdoor Rated	508.00

GARRETTCOM UNMANAGED MAGNUM HARDENED ETHERNET CONVERTER SWITCHES

The new Magnum CSG14U Universal Hardened Converter Switch can handle any Gigabit fiber type - multi-mode and single-mode - and fiber media distance with a selection of 1 Gbps or 100 Mbps SFP fiber transceivers, up to two of which can be plugged in. For copper media attachment, there is a 10/100/1000 auto-negotiating RJ-45 port.

PART #	DESCRIPTION	PRICE
CSG14UH-HD	Hardened Gigabit Ethernet Converter Switch W/2 open SFP Transceiver ports & 1 triple 10/100/1000 RJ-45 Switch Port 115 VAC Power Supply	\$479.00
CSG14UH-HI	Hardened Gigabit Ethernet Converter Switch W/2 open SFP Transceiver ports & 1 triple 10/100/1000 RJ-45 Switch Port 230 VAC Power Supply	479.00
CSG14UH-24VDC	Hardened Gigabit Ethernet Converter Switch W/2 open SFP Transceiver ports & 1 triple 10/100/1000 RJ-45 Switch Port 24 VDC Power Supply	499.50

SIGNAMAX MANAGED 12 PORT 10/100 BASE HARDENED SWITCH

This Hardened Managed Switch is designed to operate in rugged environments with extreme temperature conditions -40° F to 167° F (-40° C to 75° C). It is equipped with twelve 10/100 Base T/TX RJ45 ports and two Dual Media 10/100/1000 Base T/TX ports in a compact package with a variety of mounting options.

PART #	DESCRIPTION	PRICE
065-7714HSFPTB	12-Port 10/100 Hardened Managed Switch + 2 SFP/RJ-45 Gigabit Dual Media Ports (Optional Mounting Hardware Kits and Hardened SFP Gigabit Ethernet Modules Sold Separately.)	\$849.00

GARRETTCOM MANAGED MAGNUM P62 INDUSTRIAL SERIES SWITCHES

Magnum P62 Industrial Series Switches are designed for environmentally challenging areas, indoors or outdoors. Available in both AC and DC (listed below) versions. DC power input 18-70 VDC auto-ranging. Call your FIS representative for a complete list of industrial switches.

PART #	DESCRIPTION	PRICE
P62-AC-NOF	Six 10/100Base-T/TX Port Switch	\$771.00
P62F-AC-2MSC	Six 10/100Base-T/TX and Two 100Base-FX, MM/SC Port Switch	866.00
P62F-AC-1M1SSC	Six 10/100Base-T/TX, One 100Base-FX, MM/SC & One 100Base-FX, SM/SC Port Switch	1,269.00
P62F-AC-2SSC	Six 10/100Base-T/TX and Two 100Base-FX, SM/SC Port Switch	1,386.00

GARRETTCOM MANAGED HEAVY DUTY MANAGED EDGE SWITCH

The Magnum 6KQ is a Heavy Duty Field Switch for industrial networking applications. The base unit has four 10/100 copper ports. It may be configured with a variety of 10/100/1000 Mb fiber and copper port connector types from a family of port modules. 16 ports maximum. Up to 2 Gb ports are optional.

PART #	DESCRIPTION	PRICE
6KQE-AC	Switch, base unit w/ 4 10/100 RJ-45 W/ up to 3-100 Mbps Fiber Ports or 4 more 10/100 RJ-45 100-240 VAC	\$520.00
6KQE-24VDC	Switch, base unit w/ 4 10/100 RJ-45 W/ up to 3-100 Mbps Fiber Ports or 4 more 10/100 RJ-45 24 VDC	468.00
6KQE-48VDC	Switch, base unit w/ 4 10/100 RJ-45 PoE Ports w/ up to 3-100 Mbps Fiber Ports or 4 more 10/100 RJ-45 48 VDC	936.00

SMALL FORM PLUGGABLE MODULES

SFP

The FIS small form-factor pluggable (SFP) is a compact, transceiver used for both telecommunication and standard data communications applications. FIS offers SFP with both 100Mbps and 1Gbps data transfer speeds, and are supplied with LC connector ports. The FIS SFP meets all current standards for industry performance.

PART #	DESCRIPTION	PRICE
F1-100MM2K	100Mbps, LC/MM, 850nm, 2km range	\$86.00
F1-1000MM550	1Gbps, LC/MM, 850nm, 550 meter range	87.50

HARDENED SMALL FORM PLUGGABLE (SFP) GIGABIT FIBER MODULES

Signamax's Hardened Small Form-factor Pluggable (SFP) fiber modules come in an array of options supporting Gigabit Ethernet transmission over either multimode or singlemode fiber cable at distances up to 110 kilometers at temperature ranges of -40°C to 85°C. They adhere to the IEEE 802.3z standards for Gigabit Ethernet fiber connectivity, and are cost-effective methods of providing changeable Gigabit Ethernet fiber optic interfaces to switches and media converters equipped with a standard SFP slot.

PART #	DESCRIPTION	PRICE
065-79SXMG-H	1000BaseSX Hardened SFP Module - MM/LC, 850nm	\$189.00
065-79LXMG-H	1000BaseLX Hardened SFP Module - SM/LC, 10km, 1310nm	225.00

SIGNAMAX

SMALL FORM PLUGGABLE (SFP) SINGLE FIBER MODULES BI-DIRECTIONAL

The Signamax 065-79LX1WDMx1550 series models are Small Form-factor Pluggable (SFP) singlemode fiber modules that support Gigabit Ethernet. The modules are designed facing each other across a single strand of singlemode fiber. They are a cost-effective method of providing changeable Gigabit Ethernet or SONET OC-12 single-fiber singlemode interfaces to switches and media converters equipped with a standard SFP slot.

PART #	DESCRIPTION	PRICE
065-79LX1WDMx1550	WDM 1.25 Gbps SFP Module Tx: 1310 nm / Rx: 1550 nm – SM/LC Simplex, 10 km	\$250.00

FIS FIBER OPTIC VIDEO TRANSMITTERS & RECEIVERS

- Electronic-to-photonic signal conversion
- NTSC/PAL signal
- Low-profile standalone devices
- No field adjustments required
- Transparent to cameras and monitoring equipment

Fiber optic video transmitters and receivers include the ability to convert video signals from coaxial cameras so that they can be transmitted over fiber optic cable. These low-profile standalone devices can be placed anywhere needed. They require no field adjustments during installation or additional maintenance thereafter. These devices are designed to be transparent to cameras and monitoring equipment regardless of the manufacturer. The receiver includes an indicator light that provides quick verification of system status.

Fiber Optic Receiver

FIS FIBER OPTIC TRANSMITTER & RECEIVER KIT

Our single channel 850nm converter is designed to provide a high-performance, low-cost solution for the transmission of video circuits. Connects with ST style connectors.

PART #	DESCRIPTION	FIBER MODE	PRICE
S-MR-850-TR	FIS Standalone Fiber Optic Video Transmitter with Receiver and Power Supply	MM 850nm	\$195.00

SILENT ALARM TRANSMITTERS & RECEIVERS

Our single channel 850nm converter is designed to provide a high performance, low cost solution for the transmission of Normally Open/Normally Closed contacts (NO/NC) over a single MM fiber. Alarm installers can now take a dry contact closure and wire it to our Fiber Optic transmitter and when the contact alarms it will convert that signal to light and send it to a receiver. This system allows for longer runs using pure light which can't be defeated by jumping.

PART #	DESCRIPTION	PRICE
S-850SATX	Silent Alarm TX w/power supply	\$125.00
S-850SARX	Silent Alarm RX w/power supply	125.00

Active Network

FIS TECH TIP

Transmission distance is no longer a problem for security installations, now that FIS offers equipment from American Fibertek. You can transmit and receive video signals over distances of up to 8km over multimode and 25km over a singlemode fiber. Equipment is available in single-channel or multi-channel, either as a standalone unit or rack mount. Contact your FIS Sales Representative to find the product best suited to your application. Includes Power Supply.

8-CHANNEL CONTACT CLOSURE

The American Fibertek 81 Series multiplexes 8 channels of dry latching contact closure on one multimode fiber. A user-selectable feature allows the contact status to be maintained unchanged or reset through power-cycle and loss-of-optical-power. Individual channel LEDs on the transmitter and the receiver units indicate the channel status. Equipment may be ordered as stand alone modules or rack cards that are mounted in the SR-20D/2 or SR-20R/1 AFI Card Cages.

PART #	DESCRIPTION	MODE	PRICE
S-MT-81	8-Channel Contact Closure with Fail Safe, TX	Multimode	\$578.00
S-MR-81	8-Channel Contact Closure with Fail Safe, RX	Multimode	578.00

MULTI-PROTOCOL TRANSMISSION SYSTEM

The American Fibertek 480 Series transmits one channel of multi-protocol bi-directional data on one or two multimode optical fibers. The American Fibertek 480SL Series transmits one channel of multi-protocol bi-directional data on one singlemode optical fiber. The system is comprised of two transceivers forming a point-to-point communications link. Available switch selectable data formats include: RS485 (2 or 4 wire), RS422, RS232, and Manchester/Bosch. Equipment may be ordered as stand alone modules or rack cards.

PART #	DESCRIPTION	MODE	PRICE
S-MTX-480	Fiber Optic Data Transceiver (2 Fibers), TX	Multimode	\$414.00
S-MRX-480	Fiber Optic Data Transceiver (2 Fibers), RX	Multimode	414.00

SINGLE CHANNEL VIDEO TRANSMITTERS & RECEIVERS

The American Fibertek M1C and M100C Series transmit one channel of high quality, FM video on one multimode optical fiber. The American Fibertek M30C Series transmits three channels of high-quality, FM video on three multimode optical fibers. All units operate at 850 nm and are compatible across the series. Designed to be completely transparent to all camera and monitor manufacturers, the system requires no field adjustments at installation or additional maintenance thereafter. The MTM-1C is a miniature transmitter that is designed to mount directly on the back of a video camera. The M100C Series may be ordered as stand alone low profile modules or rack cards that are mounted in the SR-20D/2 or SR-20R/1 American Fibertek Card Cage. The M30C Series are ordered as rack cards to be mounted in the SR-20D/2 or SR-20R/1.

SECURITY

Fiber Fence® 50	164
FIS Mouse Trip®	164
Cover Cop II	164

COVER COP II

This unique non-electrical sensor avoids any spark that could produce an explosion in underground manholes from gases. This sensor is linked by a fiber optic cable through the network of manhole entrances in a campus environment and monitors if any cover is opened. An opened cover will cause the sensor to notify through the optical fiber cable a control unit in an equipment room alarming personnel of potential threat to network. The control unit has a preloaded map on the location of each sensor therefore notifying responders where problem exists. Once the cover is closed the system continues to monitor but alarm is still noted until removed or deleted from history. The Cover Cop II is a great solution for monitoring underground campus cable routes.

S-CCMAG2

FIS Cover Cop Magnetic Sensor

Price: \$195.00

S-FF50

**1000' Perimeter Systems
Starting at \$2,500**

How it Works

A laser within the Central Control Unit injects light into the glass core of the fiber optic sensing cable that surrounds the perimeter. A would-be intruder who cuts or tugs the cable, or causes movement to the fence by climbing, will trigger the nearest MouseTrip sensor. Once triggered, the MouseTrip reduces the flow of light through the cable, which is detected by the system's Central Control Unit.

FIBER FENCE® 50 - Intrusion Detection System

Our compact and affordable Fiber Fence 50 Control Unit is designed to monitor a single security zone, although multiple units can be used together to monitor an unlimited number of zones. The control unit has relay outputs that easily integrate with alarms, strobe lights, auto dialer, etc. Now being used at power substations, military bases and other locations requiring extra perimeter protection. Can be used with MouseTrips for additional sensing capabilities.

FEATURES

- Exceptional Range
- No EMI Downtime
- Low Cost
- Safe for All Environments
- Fail-Safe Technology
- Uses MouseTrips Cover Cop Sensor

PART #	DESCRIPTION	PRICE
S-FF50	Fiber Fence 50 Control Unit	\$995.00

S-FFMTR

FIS MOUSE TRIP®

MouseTrips® increase the overall sensitivity of Fiber Fence systems. Installed at intervals around a perimeter, MouseTrips detect movement of the sensing fiber or disturbance of the fence to which it is attached. When used in conjunction with the Fiber Fence 3000 system, the exact location of a triggered MouseTrip is shown on an on-screen map of the facility. MouseTrips install easily on existing fencing or walls and can be adjusted to virtually eliminate nuisance alarms.

FEATURES

- Signals Control Unit when Perimeter is Breached
- Custom Sensitivity Settings
- No Electrical Power Needed for Operation
- Used by U.S. Military & Municipalities Worldwide

PART #	DESCRIPTION	PRICE
S-FFMTR	FIS Mouse Trip	\$69.00

COVER COP II SECURITY SENSOR

COVER COP II

FEATURES

- Signals Alert when Utility Cover is Opened
- Cover Cop II Sensor Locates Multiple Events
- Non-Electric Sensors Can't Spark Explosion
- Used by U.S. Military & Municipalities Worldwide

PART #	DESCRIPTION	PRICE
S-CCMAG2	Cover Cop II	\$195.00

FIBER OPTIC ACCENT LIGHTING FROM FIS

FIS now offers accent lighting utilizing plastic optical fiber. Since it does not transmit ultraviolet or infrared, and does not conduct heat or electricity, this fiber can be used in special illumination projects like underwater, oil stock house, and museum illumination. Popular applications include swimming pools, fiber optic lamps, ceiling star layouts and resort paths. In addition to the listed fibers and cables below, FIS sells many other options and sizes.

STAR-TWINKLING EFFECT FIBER

Applications: used as wall lighting curtain and footpath of clubs, pubs, coffee houses and restaurants. Artistic drop lamp, moving lighting and waterfall curtain.

PART #	DESCRIPTION	PRICE
F1-SOF1000	Single-Core 0.75mm Fiber/1.0mm Transparent Jacket, 1.5km reel	\$130.00
F1-SOF7503	Multi-Core 3-fiber 0.75mm Fibers/3.0mm Transparent Jacket, 900m reel	115.00

END-LIGHT EFFECT FIBER

Applications: can be an artistically nice choice for light decoration, light stars on ceiling, optical fiber drop lamp or optical fiber signs.

PART #	DESCRIPTION	PRICE
F1-EL1000	Single 1.0mm Fiber, 1.5km reel	\$118.00
F1-SEV1000	Single-Core 1.0mm Fiber/2.2mm Black Jacket, 1.5km reel	535.00
F1-MEV10004	Multi-Core 4-fiber 1.0mm Fibers/4.0mm Black Jacket, 1.0km reel	318.00
F1-MEV100025	Multi-Core 25-fiber 1.0mm Fibers/10.0mm Black Jacket, 1.0km reel	1,990.00
F1-MEV100042	Multi-Core 42-fiber 1.0mm Fibers/12.0mm Black Jacket, 100m reel	3,710.00

IN-FILLED SIDE LIGHT EFFECT FIBER

Applications: interior lighting decoration of homes, businesses, towers, hotels and restaurants. Artistic adornment in graphical and 3D artistic design. Lighting in swimming pools and underwater facilities. Jacket is UV resistant.

PART #	DESCRIPTION	PRICE
F1-ISLV2T	Single-Core 2.0mm Fiber/3.5mm Transparent Jacket, 500m reel	\$490.00
F1-ISLV6T	Single-Core 6.0mm Fiber/8.8mm Transparent Jacket, 500m reel	2,470.00
F1-ISLV10T	Single-Core 8.0mm Fibers/10.0mm Transparent Jacket, 500m reel	4,680.00
F1-ISLV14T	Single-Core 12.0mm Fibers/14.0mm Transparent Jacket, 500m reel	5,450.00

TWISTED SIDE LIGHT EFFECT FIBER

Features more brightness and longer transmission distance than standard In-filled Side Light Effect Fiber by increasing fiber count. Softer and more bendable than standard In-filled Side Light Effect Fiber. Better resistance to cold and hot temperatures. Jacket is UV resistant.

PART #	DESCRIPTION	PRICE
F1-TSL75014	Multi-Core 14-fiber 0.75mm Fibers/6.0mm Transparent Jacket, 500m reel	\$1,000.00
F1-TSL75042	Multi-Core 42-fiber 0.75mm Fibers/10.0mm Transparent Jacket, 500m reel	2,750.00
F1-TSL75084	Multi-Core 84-fiber 0.75mm Fibers/14.0mm Transparent Jacket, 500m reel	5,715.00
F1-TSL750126	Multi-Core 126-fiber 0.75mm Fibers/18.0mm Transparent Jacket, 500m reel	6,430.00

LIGHT ENGINE FOR ACCENT LIGHTING

There are several models to fit multiples applications. These Light Engines have the Accent Lighting fibers connected directly to them for control of the lighting. These are all 110-240v power so they can function anywhere. They are also CE approved. LED Lighted, 110-230v, Full Color Spectrum Mixing

PART #	DESCRIPTION	PRICE
F1-FK16WMF	16W Single Head Wireless Multicolor Sparkled Light Engine with Remote Control	\$78.00
F1-FK16WSU	16W Single Head Wireless Synchronous Light Engine with Remote Control	88.00
F1-FK16DWS	16W Dual Head Wireless Synchronous Light Engine with Remote Control	120.00

HALOGEN LIGHTED, 230V

F1-FKH150S	150W Single Head Synchronous Light Engine, 8 colors	\$230.00
F1-FKH250S	250W Single Head Synchronous Light Engine, 8 colors	470.00

HALOGEN LIGHTED, 230V, WATERPROOF, IP65 CERTIFIED

F1-FKH150SWP	150W Single Head Synchronous Light Engine, 8 colors	\$300.00
F1-H250SWP	250W Single Head Synchronous Light Engine, 8 colors	530.00

TECHNICAL SPECIFICATION - ANSI/TIA - 568 (C.0, C.2, C.3)

DISTANCES AND ALLOWABLE ATTENUATION FOR FIBER OPTIC LINKS

TECHNICAL SPECIFICATION - ANSI/TIA - 568 (C.0, C.2, C.3)

Color Identification

Unless color coding is used for some other purpose, the connector strain relief and adapter housing should be identifiable by the following colors:

- a) 850-nm laser-optimized 50/125 mm fiber – aqua
- b) 50/125 mm fiber – black
- c) 62.5/125 mm fiber – beige
- d) Single-mode fiber – blue
- e) Angled physical contact single-mode connectors – green

Fiber Optic Splices - Fusion or Mechanical

Maximum insertion loss 0.3 dB

- Minimum return loss:
 - Multimode: 20 dB
 - Single-mode: 26 dB
 - Single-mode: 55 dB (analog CATV)

Optical Fiber Connector (mated pair)

- Maximum insertion loss 0.75 dB

MAXIMUM DISTANCE OR TWISTED PAIR CABLING

APPLICATION	MEDIA	DISTANCE M (FT.)	NOTES
Ethernet 10BASE-T	Category 3, 5e, 6, 6A	100 (328)

FIS SATISFACTION GUARANTEED POLICY

If you are not 100% satisfied with your order, call toll-free to arrange for an exchange or return of goods. Any stock items contained in this catalog may be returned upon your prompt inspection of received goods.

• Any discrepancies with an order must be reported to FIS within 24 hours of receipt. • Returned Merchandise Authorization (RMA) numbers must be requested within 3 days of receipt of your product and returned to FIS head office within 7 days from receipt of goods. • All product returned must be marked with an FIS RMA number and be new and in unopened, full shipping unit quantities. Credit cannot be issued without an FIS authorized RMA. • Custom made and uncataloged items will not be accepted for return. • FIS reserves the right to charge a re-stocking fee. **Order Information:** Minimum Order: \$50.00. Terms: 30 days net. FOB: Oriskany, New York. Mastercard and Visa accepted. In all cases freight will be charged for all product shipped. Overdue accounts are subject to a 2% monthly finance charge. In case of price deviations, notification will be made prior to processing of your order. Photographs may not accurately portray present product. Specification sheets available on most catalog items. Quantity discounts available on all items upon request. First time orders for new accounts cannot be processed unless accompanied by a completed credit application. Please allow 3 working days for your application to be processed. **TERMS:** Net 30 days from date of invoice unless otherwise stated. **IMPORTANT NOTICE:** Prices subject to change without notice. All statements, technical information and recommendations related to the Seller's products are based on information believed to be reliable, but the accuracy or completeness thereof is not guaranteed. Before utilizing the product, the user should determine the suitability of the product for its intended use. The user assumes all risks and liability whatsoever in connection with such use. Any statements of recommendations of the Seller which are not contained in the Seller's current publication shall have no force or effect unless contained in an agreement(s) signed by an authorized officer of Seller.

TERMS AND CONDITIONS

Warranty Overview

Fiber Instrument Sales Inc, hereafter referred to as FIS, warrants that a product will be free from defects in materials and workmanship and conforms to FIS Specifications. The warranty period for a product is a specified, fixed period commencing on the customer's date of purchase. A valid proof of purchase may be required. If the customer does not have a valid proof of purchase, the warranty period will be measured from the date of sale indicated within FIS records. If, during the warranty period, the product is not in good working order, FIS may, at its option, repair or replace it at no additional charge, except as is set forth below.

The warranty period for products sold and manufactured by FIS is as follows:

- All products, excluding test and fiber splicing equipment: 30 Days
- FIS manufactured test and fiber splicing equipment: 1 year
- Distributed test and fiber splicing equipment: Original manufacturer's warranty applies

Items Not Covered by Warranty

FIS does not warrant uninterrupted or error-free operation of product or equipment. Unless specified otherwise, FIS references the original equipment manufacturer's warranty and its subsequent requirements on non-Fiber Instrument Sales Inc. products. Any technical or other support provided for a product under warranty, such as assistance via telephone with "how-to" questions and those regarding use, setup and installation, will be provided WITHOUT WARRANTIES OF ANY KIND.

Extent of Warranty

The warranty does not cover the repair or exchange of a product resulting from misuse, accident, modification, unsuitable physical or operating environment, improper maintenance by the customer, or failure caused by a product for which FIS is not responsible. The warranty may be voided by removal or alteration of product, parts, security or identification labels. THESE WARRANTIES ARE THE CUSTOMER'S EXCLUSIVE WARRANTIES AND REPLACE ALL OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OR CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THESE WARRANTIES GIVE THE CUSTOMER SPECIFIC LEGAL RIGHTS AND YOU MAY ALSO HAVE OTHER RIGHTS WHICH VARY FROM JURISDICTION TO JURISDICTION. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF EXPRESS OR IMPLIED WARRANTIES, SO THE ABOVE EXCLUSION OR LIMITATION MAY NOT APPLY TO THE CUSTOMER. IN THAT EVENT, SUCH WARRANTIES ARE LIMITED IN DURATION TO THE WARRANTY PERIOD. NO WARRANTIES APPLY AFTER THAT PERIOD.

Warranty Service

Warranty service may be obtained from FIS by returning a Return Material Authorization Form (RMA), during the warranty period for the FIS-manufactured product, to FIS's Quality Assurance Manager. The customer may be required to present proof of purchase or other similar proof of warranty entitlement. The customer may be responsible for any associated transportation charges, duties and insurance. The product, once arriving at FIS, will be evaluated to determine cause of failure, with warrantee action determined from evaluation.
