

For your safety operation

This product has been designed and manufactured to assure personal safety. Improper use can result in bodily injury and serious damage to the product. Please read and observe all warnings and instructions given in this operation manual.

- * Wear safety glasses before handling optical fiber to protect the eyes. Small pieces of glass fibers are sharp and can cause damage if they get in the eyes or puncture skin if handled wrong.
- ★ Never look into the end of a connector or an optical fiber which may have a laser coupled to it. Laser light might damage your eyes. Please note that laser light is not visible.
- ★ When working off of the ground, please be careful not to drop an assembling tool.

(Please use a wrist strap etc.)

XP Fit Plus SC 900 µm **Field Assembly Connector Instruction Manual**

Precautions

- 1. Improper assembly will result in a loss of performance. Please read instructions given in this operation manual.
- 2. The product is sensitive to dirt and dust.
- 3. The performance will be influenced by the fiber cutting surface condition. Use a cutter with a sharp blade for the
- 4. Please insert the fiber into the connector slowly. If the fiber is roughly inserted, it might be damaged or broken, leading to failure of connector installation. Broken fiber could scatter in all directions.
- 5. Do not remove the dust cap until the connector has been completely assembled in order not to cause a high insertion loss.
- 6. A proper amount of index matching gel is applied in the connector. Do not insert fiber more than once into connector.

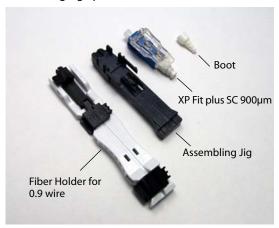

Composition

Connector (with wedge): 10pcs

Boot: 10pcs

Fiber holder for 0.9 wire: 1pc

Assembling Jig:1pc

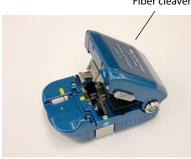

Following tools shall be required adding above parts,

- 1. Fiber Cleaver
- 2. Jacket Remover

Assembling tools example

Fiber cleaver
